Port Eternity:

Port Eternity C. J. Cherryh, 1982 Lancelot Elaine Percivale Gawain Modred created people cloned to suit the purposes of their opulent owner aboard the Maid a fantasy of a spaceship They live in a kind of dream until they face a crisis they were never designed to master Port Eternity C. J. Cherryh, 1989 **Silk and Potatoes** Adam Roberts, 2022-06-08 This study constitutes the first to analyse the remarkable surge in popularity of Arthurian literature and art in the modern period from a broad range of instances of cultural production More novels with Arthurian themes have been published since the war than in any previous period and *Silk and Potatoes* provides detailed readings of some of the most famous including works by Marion Zimmer Bradley Anthony Burgess C J Cherryh Guy Gavriel Kay Mary Stewart Jack Vance and T H White In addition to examining Arthurian fiction with chapters on the general novel Historical fiction and Science Fiction this study examines the key cinematic examples of Arthuriana Boorman's *Excalibur* Bresson's *Lancelot du Lac* Rohmer's *Perceval Le Gallois* and *Monty Python and the Holy Grail* A further chapter goes on to look at the myriad other forms of cultural production based on Arthurian themes from *Bugs Bunny* to Pop Music from the Camelot of JFK to the British National Lottery This is a study that touches on many aspects of Arthuriana whilst developing two connected arguments about on the one hand the necessary anachronism of any modern Arthurian Literature and on the other the aesthetic political implications of this literature's success The whole whilst rooted in the scholarly debates on the enduring appeal of King Arthur is written in an accessible and entertaining style It will be of interest to students and teachers of Arthurian literature film and popular culture **The Port Folio**, 1820 **Popular Arthurian Traditions** Sally K. Slocum, 1992 Scholars of popular culture turn their attention to various expressions of the Arthurian legend most from the 20th century with a more balanced consideration of women writers characters and critics than has traditionally been the case Among the topics are the image of Morgan Le Fay postmodern Arthur Mark Twain Joseph Campbell and several recent movies No index Paper edition unseen 19 95 Annotation copyright by Book News Inc Portland OR Alternate Realities C. J. Cherryh, 2000-12-01 *Port Eternity* Their names were Lancelot Elaine Percivale Gawain Mordred Lynette and Vivien and they were made people clone servants who worked aboard *The Maid* an anachronistic fantasy of a spaceship They had no idea of their origins from those old storytapes of romance chivalry heroism and betrayal until a ripple in the space time continuum sucked *The Maid* and her crew into a no man's land from which there could be no return and they were left alone to face a crisis which their ancient prototypes were never designed to master *Wave Without a Shore* Freedom was an isolated planet off the main spaceways and rarely visited by commercial spacers It wasn't that Freedom was inhospitable the problem was that outsiders tourists and traders claimed that the streets were crowded with mysterious blue robed aliens Native born humans however denied that these aliens existed until a planetary crisis forced a confrontation between the question of reality and the reality of the question Voyager in the Night Rafe Murray his sister Jillian and Jillian's husband Paul Gaines like many other out of luck spacers had come to

newly built Endeavor Station to find their future Their tiny ship Lindy had been salvaged from the junk heap and fitted to mine ore from the mineral rich rings which circled Endeavor But their future proved to be far stranger than any of them imagined when a collision with a huge alien vessel provided them with the oddest first contact experience possible The Port Folio, by Oliver Oldschool ,1820 **Journal of a voyage from Plymouth to Sierra Leone, ed. by H. Caswall** William Latimer Neville,1858 Downbelow Station C. J. Cherryh,2008-12-02 The Hugo Award winning science fiction novel about a space station caught in the crosshairs of an interstellar war perfect for fans of space opera and military science fiction A hell of a story io9 The Beyond started with the Stations orbiting the stars nearest Earth The Great Circle the interstellar freighters traveled was long but not unmanageable and the early Stations were emotionally and politically dependent on Mother Earth The Earth Company which ran this immense operation reaped incalculable profits and influenced the affairs of nations Then came Pell the first station centered around a newly discovered living planet The discovery of Pell s World forever altered the power balance of the Beyond Earth was no longer the anchor which kept this vast empire from coming adrift the one living mote in a sterile universe But Pell was just the first living planet Then came Cyteen and later others and a new and frighteningly different society grew in the farther reaches of space The importance of Earth faded and the Company reaped ever smaller profits as the economic focus of space turned outward But the powerful Earth Fleet was still a presence in the Beyond and Pell Station was to become the last stronghold in a titanic struggle between the vast dynamic forces of the rebel Union and those who defended Earth s last desperate grasp for the stars The Cartesian Semantics of the Port Royal Logic John N. Martin,2019-11-04 This book sets out for the first time in English and in the terms of modern logic the semantics of the Port Royal Logic La Logique ou l Art de penser 1662 1685 of Antoine Arnauld and Pierre Nicole perhaps the most influential logic book in the 17th and 18th centuries Its goal is to explain how the Logic reworks the foundation of pre Cartesian logic so as to make it compatible with Descartes metaphysics The Logic s authors forged a new theory of reference based on the medieval notion of objective being which is essentially the modern notion of intentional content Indeed the book s central aim is to detail how the Logic reoriented semantics so that it centered on the notion of intentional content This content which the Logic calls comprehension consists of an idea s defining modes Mechanisms are defined in terms of comprehension that rework earlier explanations of central notions like conceptual inclusion signification abstraction idea restriction sensation and most importantly within the Logic s metatheory the concept of idea extension which is a new technical concept coined by the Logic Although Descartes is famous for rejecting Aristotelianism he says virtually nothing about technical concepts in logic His followers fill the gap By putting to use the doctrine of objective being which had been a relatively minor part of medieval logic they preserve more central semantic doctrines especially a correspondence theory of truth A recurring theme of the book is the degree to which the Logic hews to medieval theory This interpretation is at odds with what has become a standard reading among French scholars according to which this 16th

century work should be understood as rejecting earlier logic along with Aristotelian metaphysics and as putting in its place structures more like those of 19th century class theory
