Portraits From The Quattrocento:

Portraits from the Quattrocento Eugenio Garin, 1972 *Renaissance Self-portraiture* Joanna

Woods-Marsden, 1998-01-01 An exploration of the genesis and early development of the genre of self portraiture in Italy in the 15th and 16th centuries The author examines a series of self portraits in Renaissance Italy arguing that they represented the aspirations of their creators to change their social standing Women in Italian Renaissance Art Paola

Tinagli, 1997-06-15 This is the first book which gives a general overview of women as subject matter in Italian Renaissance painting It presents a view of the interaction between artist and patron and also of the function of these paintings in Italian society of the fifteenth and sixteenth centuries Using letters poems and treatises it examines through the eyes of the contemporary viewer the way women were represented in paintings *Images and Identity in Fifteenth-century Florence*

Patricia Lee Rubin, 2007-01-01 An exploration of ways of looking in Renaissance Florence where works of art were part of a complex process of social exchange Renaissance Florence of endless fascination for the beauty of its art and architecture is no less intriguing for its dynamic political economic and social life In this book Patricia Lee Rubin crosses the boundaries of all these areas to arrive at an original and comprehensive view of the place of images in Florentine society The author asks an array of questions Why were works of art made Who were the artists who made them and who commissioned them How did they look and how were they looked at She demonstrates that the answers to such questions illuminate the contexts in which works of art were created and how they were valued and viewed Rubin seeks out the meeting places of meaning in churches in palaces in piazzas places of exchange where identities were taken on and transformed often with the mediation of images She concentrates on questions of vision and visibility on seeing and being seen With a blend of exceptional illustrations close analyses of sacred and secular paintings by artists including Fra Angelico Fra Filippo Lippi Filippino Lippi and Botticelli and wide ranging bibliographic essays the book shines new light on fifteenth century Florence a special place that made beauty one of its defining features **Dressing Renaissance Florence** Carole Collier Frick, 2005-07-20 As

portraits private diaries and estate inventories make clear elite families of the Italian Renaissance were obsessed with fashion investing as much as forty percent of their fortunes on clothing In fact the most elaborate outfits of the period could cost more than a good sized farm out in the Mugello Yet despite its prominence in both daily life and the economy clothing has been largely overlooked in the rich historiography of Renaissance Italy In *Dressing Renaissance Florence* however Carole Collier Frick provides the first in depth study of the Renaissance fashion industry focusing on Florence a city founded on cloth a city of wool manufacturers finishers and merchants of silk dyers brocade weavers pearl dealers and goldsmiths From the artisans who designed and assembled the outfits to the families who amassed fabulous wardrobes Frick's wide ranging and innovative interdisciplinary history explores the social and political implications of clothing in Renaissance Italy's most style conscious city Frick begins with a detailed account of the industry itself its organization within the guild structure of the

city the specialized work done by male and female workers of differing social status the materials used and their sources and the garments and accessories produced She then shows how the driving force behind the growth of the industry was the elite families of Florence who in order to maintain their social standing and family honor made continuous purchases of clothing whether for everyday use or special occasions for their families and households And she concludes with an analysis of the clothes themselves what pieces made up an outfit how outfits differed for men women and children and what colors fabrics and design elements were popular Further and perhaps more basically she asks how we know what we know about Renaissance fashion and looks to both Florence s sumptuary laws which defined what could be worn on the streets and the depiction of contemporary clothing in Florentine art for the answer For Florence s elite appearance and display were intimately bound up with self identity Dressing Renaissance Florence enables us to better understand the social and cultural milieu of Renaissance Italy

Renaissance Humanism, Volume 1 Albert Rabil, Jr., 2016-11-11 This book is a volume in the Penn Press Anniversary Collection To mark its 125th anniversary in 2015 the University of Pennsylvania Press rereleased more than 1 100 titles from Penn Press s distinguished backlist from 1899 1999 that had fallen out of print Spanning an entire century the Anniversary Collection offers peer reviewed scholarship in a wide range of subject areas

Constantinople and the West Deno John Geanakoplos, 1989 Deno John Geanakoplos demonstrates the fusion of Byzantine and Latin cultural and ecclesiastical relations in the Renaissance

Bellini, Giorgione, Titian, and the Renaissance of Venetian Painting David Alan Brown, Sylvia Ferino-Pagden, Jaynie Anderson, Deborah Howard, Kunsthistorisches Museum (Vienne), National Gallery of Art (U.S.), Kunsthistorisches Museum (Wenen), 2006-01-01 Presents a survey of sixty Venetian Renaissance paintings of the calibre of Bellini and Titian s Feast of the Gods in Washington and Giorgione s Laura and Three Philosophers in Vienna

The Expanding Discourse Norma Broude, 2018-02-23 A sequel to the pioneering volume *Feminism and Art History Questioning the Litany* published in 1982 The Expanding Discourse contains 29 essays on artists and issues from the Renaissance to the present representing some of the best feminist art historical writing of the past decade Chronologically arranged the essays demonstrate the abundance diversity and main conceptual trends in recent feminist scholarship

Netherlandish and Italian Female Portraiture in the Fifteenth Century Elisabetta Torenò, 2025-10-01 This book investigates the aesthetic and conceptual characteristics of fifteenth century female portraiture on panel Portraits of women increased substantially during this century They formed part of a material and a visual culture borne out of the rapid rise of an oligarchy from entrepreneurial activities that was especially advanced in the urbanised territories of Italy and Flanders For this reason the portraits in this book are by Netherlandish and Italian painters They are simultaneously illustrative of the emancipation of the genre from its medieval idiom and of the responses to the matrix of patriarchy under which society was organised Patriarchy is an androcentric structure that places women in a paradoxical situation of legal and social disenfranchisement on the account of purported

psychophysical inadequacy whilst making them the catalysts through arranged marriages for the success of the spheres of power which are controlled by men Thus these portraits are also a window into women s lives in this structure This book is the first systematic study of their sign system and of the feminine experience of seeing and being seen at the intersection of disciplines that include art history anthropology legal history philosophy The surprising results suggest new interpretations of form and function in female portraiture women s active role in the imaging process and the early instances of a pro women ideology
