Memory, Historic Injustice, and Responsibility W. James Booth, 2019-11-05 What is it to do justice to the absent victims of past injustice given the distance that separates us from them Grounded in political theory and guided by the literature on historical justice W James Booth restores the dead to their central place at the heart of our understanding of why and how to deal with past injustice Testimonies and accounts from the race war in the United States the Holocaust post apartheid South Africa Argentina's Dirty War and the conflict in Northern Ireland help advance and defend Booth's claim that caring for the

dead is a central part of addressing past injustice Memory Historic Injustice and Responsibility is an insightful and original book on the relationship of past and present in thinking about what it means to do justice A valuable addition to the currently available literature on historical justice the volume will be of great interest to students and scholars of political science philosophy history and law **Three Mile an Hour God** Kosuke Koyama,2021-08-31 Love has its speed It is a spiritual speed It is a different kind of speed from the technological speed to which we are accustomed It goes on in the depth of our life whether we notice or not at three miles an hour It is the speed we walk and therefore the speed the love of God walks Once we grasp that in Christ God chooses to walk amongst us it changes our whole understanding of the speed of love and the speed of theology In Three Mile an Hour God renowned Japanese theologian Kosuke Koyama reflects beautifully on a theme lost to western theology and western culture in general the need for slowness With a new foreword from John Swinton

Peter Singer and Christian Ethics Charles C. Camosy, 2012-04-12 This book explores a number of important issues to illuminate the common ground between Peter Singer and Christian ethics Peter Singer Under Fire Jeffrey A. Schaler, 2011-09-30 One of the leading ethical thinkers of the modern age Peter Singer has repeatedly been embroiled in controversy Protesters in Germany closed down his lectures mistakenly thinking he was advocating Nazi views on eugenics Conservative publisher Steve Forbes withdrew generous donations to Princeton after Singer was appointed professor of bioethics His belief that infanticide is sometimes morally justified has appalled people from all walks of life Peter Singer Under Fire gives a platform to his critics on many contentious issues Leaders of the disability rights group Not Dead Yet attack Singer's views on disability and euthanasia Economists criticize the effectiveness of his ideas for solving global poverty Philosophers expose problems in Singer's theory of utilitarianism and ethicists refute his position on abortion Singer s engaging Intellectual Autobiography explains how he came by his controversial views while detailed replies to each critic Times bestselling author delivers a big authentic novel of the professional and personal challenges of three young doctors The New York Times Three young men from different backgrounds have graduated from medical schools and become surgical fellows at a leading teaching hospital in Boston They learn to become surgeons to communicate with patients and families and to be observed and appraised by their peers and professors on daily rounds And each month sometimes with dry mouth and rapid pulse each attends the meeting of the Mortality Conference known to all as the Death Committee which examines every patient loss for possible human error in order to prevent it from happening again How the Death Committee affects and is affected by the lives loves and ambitions of three new doctors is the theme of this intriguing and profoundly moving novel The Ethics of Inheritable Genetic Modification John Rasko, Gabrielle O'Sullivan, Rachel Ankeny, 2006-01-26 Is inheritable genetic modification the new dividing line in gene therapy The editors of this searching investigation representing clinical medicine public health and biomedical ethics have established a distinguished team of scientists and

scholars to address the issues from the perspectives of biological and social science law and ethics including an intriguing Foreword from Peter Singer Their purpose is to consider how society might deal with the ethical concerns raised by inheritable genetic modification and to re examine prevailing views about whether these procedures will ever be ethically and socially justifiable The book also provides background to define the field and discusses the biological and technological potential for inheritable genetic modification its limitations and its connection with gene therapy cloning and other reproductive interventions For scientists bioethicists clinicians counsellors and public commentators this is an essential contribution to one of the critical debates in current genetics Physician-Assisted Suicide and Euthanasia Sheldon Rubenfeld, Daniel P. Sulmasy, 2020-11-03 Unlike Nazi medical experiments euthanasia during the Third Reich is barely studied or taught Often even asking whether euthanasia during the Third Reich is relevant to contemporary debates about physician assisted suicide PAS and euthanasia is dismissed as inflammatory Physician Assisted Suicide and Euthanasia Before During and After the Holocaust explores the history of euthanasia before and during the Third Reich in depth and demonstrate how Nazi physicians incorporated mainstream Western philosophy eugenics population medicine prevention and other medical ideas into their ideology This book reveals that euthanasia was neither forced upon physicians nor wantonly practiced by a few fanatics but widely embraced by Western medicine before being sanctioned by the Nazis Contributors then reflect on the significance of this history for contemporary debates about PAS and euthanasia While they take different views regarding these practices almost all agree that there are continuities between the beliefs that the Nazis used to justify euthanasia and the ideology that undergirds present day PAS and euthanasia This conclusion leads our scholars to argue that the history of Nazi medicine should make society wary about legalizing PAS or euthanasia and urge caution where it has been legalized Naming the Frame Jonathan Ingleby, 2011-12 Living in context is worth doing if it reminds us that we are in a battle indeed in a struggle for survival It is worth doing if it tunes us into the world's suffering and our part in it as followers of the suffering servant It is worth doing if it gives us a new sense of urgency The end of all things is near as the Apostle Peter says be serious and discipline yourselves Above all it challenges us to be better disciples of Jesus in this present age As Christians in the 21st century what is our context Global megatrends postmodernism globalisation postcolonialism international migration and environmental catastrophe may appear to be too vast for us to contemplate let alone formulate a Christian response to yet we cannot ignore them as they profoundly affect who we are how we read the Bible and how we see the world In Naming the Frame Jonathan Ingleby challenges us to commit ourselves to a deeper understanding of what is going on in the world and what is going on in our lives and to speak and act prophetically as faithful servants of God into these situations The Ethnomusicology of Western Art Music Laudan Nooshin, 2013-10-23 Since the late 1980s the boundaries between the musicologies have become increasingly blurred Most notably a growing number of musicologists have become interested in the ideas and methodologies of ethnomusicology and in particular in

applying one of the central methodological tools of ethnomusicology ethnography to the study of Western art music a tradition which had previously been studied primarily through scores recordings and other historical sources Alongside this since the 1970s a small number of ethnomusicologists have also written about Western art music thus complicating the idea of ethnomusicology as the study of other music Indeed there has been a growth in this area of scholarship in recent years Approaching western art music through the perspectives of ethnomusicology can offer new and enriching insights to the study of this musical tradition as shown in the writings presented in this book The current volume is the first collection of essays on this topic and includes work by authors from a range of musicological and ethnomusicological backgrounds exploring a variety of issues including music in orchestral outreach programmes new audiences for classical music concerts music and conflict transformation ethnographic study of the rehearsal process and the politics of a high profile music festival This book was originally published as a special issue of Ethnomusicology Forum **Sexual Knowledge** Britta McEwen, 2012 Vienna's unique intellectual political and religious traditions had a powerful impact on the transformation of sexual knowledge in the early twentieth century Whereas turn of the century sexology as practiced in Vienna as a medical science sought to classify and heal individuals during the interwar years sexual knowledge was employed by a variety of actors to heal the social body the truncated diseased and impoverished population of the newly created Republic of Austria Based on rich source material this book charts cultural changes that are hallmarks of the modern era such as the rise of the companionate marriage the role of expert advice in intimate matters and the body as a source of pleasure and anxiety These changes are evidence of a dramatic shift in attitudes from a form of scientific inquiry largely practiced by medical specialists to a social reform movement led by and intended for a wider audience that included workers women and children

Chatterjee, 2004-04-08 As globalization has deepened worldwide economic integration moral and political philosophers have become increasingly concerned to assess duties to help needy people in foreign countries The essays in this volume present ideas on this important topic by authors who are leading figures in these debates At issue are both the political responsibility of governments of affluent countries to relieve poverty abroad and the personal responsibility of individuals to assist the distant needy.
