Research and Development Abstracts* ,1990      **A.I.D. Research and Development Abstracts** United States. Agency for International Development,1993      Evaluating Capacity Development Douglas Horton,2003 The perspective that informs this important book is that every evaluation of a capacity development

effort should itself contribute to the capacity development effort and ultimately to the organization's performance. This is a revolutionary idea in evaluation. With the idea have come the questions: Can it be done? And if it is done, what will be the consequences? This book elucidates and deepens the idea, shows it can be done, and examines the consequences, both intended and unintended, of engaging in capacity development evaluation.

**From Crisis to Renewal** Kempe Ronald Hope, 2021-10-11. This volume deals with crisis and renewal in African development policy and management. It digs deep into the past, takes stock of the present, and thoroughly analyzes the nature, impact, and future of development policy and management on the continent. It demonstrates the failure of post-independence policy and management in most of Africa, traces the emergence and results of reform measures, and advocates the lessons of success for the rest of Africa derived from Botswana's approach to sustainable development and its achievement of economic prosperity and the maintenance of political stability and good governance. It concludes rather optimistically that the prospects for sustainable development are much better now than they have ever been before, with the 21st century likely to be hailed as The African Century, bringing with it a durable peace and sustainable growth.
