Pyramid Odyssey:

Pyramid Odyssey William R. Fix, 1978-01-01 Applies behavioral science mathematics archaeology and history to an exploration of the facts fantasies and theories involving the Great Pyramid of Egypt *Pyramid Quest* Robert M. Schoch, Robert Aquinas McNally, 2005-06-02 The Egyptologist acclaimed for re dating the Great Sphinx at Giza sets his sights on one of the true mysteries of antiquity the Great Pyramid of Giza What is the Great Pyramid of Giza Ask that basic question of a traditional Egyptologist and you get the basic traditional answer a fancy tombstone for a self important pharaoh of the Old Kingdom This Egyptologists argue is the sole finding based on the data and the only deduction supported by science By implication anyone who dissents from this point of view is unscientific and woolly minded a believer in magic and ghosts Indeed some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them Yet from beneath the obvious terms of this controversy a deeper more significant question arises how is it that the Great Pyramid exercises such a gripping hold on the human psyche adding cryptic grace to the back of the one dollar bill and framing myriad claims of New Age pyramid power In *Pyramid Quest* Robert M Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid and develop a stunning hypothesis This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought extending far back into a little known time In tracing that story we come to understand not only the Great Pyramid but also our own origins as civilized beings **The Giza Power Plant** Christopher Dunn, 1998-08-01 Did a highly advanced civilization exist in prehistory Is the Giza Pyramid a remnant of their technology Then what was the power source that fueled such a civilization The technology of harmonic resonance claims renowned master craftsman and engineer Christopher Dunn In a brilliant piece of reverse engineering based on twenty years of research Dunn reveals that the Great Pyramid of Giza was actually a large acoustical device By its size and dimensions this crystal edifice created a harmonic resonance with the Earth and converted Earth s vibrational energies to microwave radiation The author shows how the pyramid s numerous chambers and passageways were positioned with the deliberate precision to maximize its acoustical qualities This may be the same technology discovered by Nikola Tesla and the solution to our own clean energy needs

From the Ashes of Angels Andrew Collins, 2001-09-01 Provides convincing evidence that angels demons and fallen angels were flesh and blood members of a giant race predating humanity spoken of in the Bible as the Nephilim Indicates that the earthly paradise of Eden was a realm in the mountains of Kurdistan By the author of *Gateway to Atlantis* Our mythology describes how beings of great beauty and intelligence who served as messengers of gods fell from grace through pride These angels also known as Watchers are spoken of in the Bible and other religious texts as lusting after human women who lay with them and gave birth to giant offspring called the Nephilim These religious sources also record how these beings revealed forbidden arts and sciences to humanity transgressions that led to their destruction in the Great Flood Andrew

Collins reveals that these angels demons and fallen angels were flesh and blood members of a race predating our own He offers evidence that they lived in Egypt prior to the ancient Egyptians where they built the Sphinx and other megalithic monuments before leaving the region for what is now eastern Turkey following the cataclysms that accompanied the last Ice Age Here they lived in isolation before gradually establishing contact with the developing human societies of the Mesopotamian plains below Humanity regarded these angels described as tall white haired beings with viperlike faces and burning eyes as gods and their realm the paradise wherein grew the tree of knowledge Andrew Collins demonstrates how the legends behind the fall of the Watchers echo the faded memory of actual historical events and that the legacy they have left humanity is one we can afford to ignore only at our own peril

Welcome to Infinity Kathlyn Hinesley,2002 Writing in an entertaining autobiographical style Kathlyn Hinesley combines research in anthropology history and science with personal psychic experience and metaphysical theory She tackles questions related to life after death spirit communication shamanism alien visitations out of body travel time travel sacred sites and the nature of reality of itself She enlightens the reader by showing how many of these topics are related and why Welcome to Infinity presents us with an intriguing view of the universe one that is home to a variety of otherworldly beings existing at different frequencies of vibration Ms Hinesley explores ancient and modern techniques for communicating and collaborating with these beings and traveling to their realms She describes the importance placed on human spirit collaboration by ancient and native peoples who viewed such contact as critical to the maintenance of harmony on earth The author argues for a return to our roots for a future in which humans and otherworldly beings work together for the good of the universe Kathlyn Hinesley deciphers our interactions with the higher vibrations of our ecosystem This is the hard science of the future Rick Ramsey Kozmic Engine

The Giza Prophecy Scott Creighton,Gary Osborn,2012-01-25 A detailed study of the proportions of the Giza pyramids and how they reveal shifts in the Earth s axis in the remote past and near future Debunks the pyramids as tombs theory and shows how they are recovery vaults to ensure the rebirth of civilization after a global disaster Explains in detail how the angles and geometry of the Great Pyramid record a shift of the world s axis in 3980 BCE and predict more to come Uncovers the location of an additional as yet undiscovered recovery vault on the Giza plateau as revealed in the myth of Osiris Offering a radical new perspective on the Great Pyramid of Giza and all the structures surrounding it including the Sphinx Scott Creighton and Gary Osborn show how the designers of Giza intentionally arranged these massive structures to create an astronomical timeline recording catastrophic events in the past as well as warning later generations of the precise times of future catastrophes They reveal how the Old Kingdom pyramids of Giza were created not as tombs for the pharaohs and their queens but as recovery vaults to ensure the rebirth of the Kingdom of Egypt after a global disaster by acting as storehouses for ancient Egyptian culture its tools seeds art and sacred texts Through the use of photos maps and diagrams of the Giza plateau the authors explain in detail how the angles and geometry of the Great Pyramid align with the stars of Orion s Belt to encode an important message

that changes in the tilt of the world's axis have occurred in the remote past most recently in 3980 BCE and will occur again in the near future Highlighting the ubiquitous appearance of 23.5 degree angles the most important of the precessional angles encoded in the Giza pyramids in classic works of art including the work of Leonardo da Vinci and portraits of John the Baptist and George Washington the authors reveal how this angle the Great Pyramid and its fateful message are tied to Freemasonry and other secret societies Concluding with the remarkable revelation triggered by the myth of Osiris that there may be an as yet undiscovered 14th recovery vault on the Giza plateau Creighton and Osborn show that the prophecy of Giza is a message of first importance to our own civilization

Beyond the Matrix Patricia Cori, 2010-08-31 Those concerned with the current eco crisis most often look only to scientists and politicians for solutions In this important book Patricia Cori invites another overlooked group perhaps the most important one to join the discussion Beyond the Matrix collects some of the most provocative forward thinking interviews conducted on Cori's radio show of the same name bringing together leaders in various fields of alternative thinking to propose new and exciting perspectives on the future of humanity as we approach the potentially life changing 2012 Beyond the Matrix offers a portrait of a refreshingly optimistic future in a time when we are bombarded with an apocalypse scenario as the future of our civilization The book features no holds barred in depth interviews with such renowned thinkers as New York Times best selling author and theoretical physicist Michio Kaku whom many call the Einstein of our times respected UFO and ET investigator Stanton Friedman radical Egyptologist Stephen Mehler former astronaut and the sixth man on the moon Dr Edgar Mitchell crop circle expert Andy Thomas intuitive physicist MaAnna Stephensen Paradigm Research Group director Stephen Bassett founder of bluevoice.org Hardy Jones and nine others The probing conversations cover a bracing range of subjects from string theory UFO and extraterrestrial life crop circles and ecology to healing Egyptian mysticism ascension and other significant topics that swirl in our minds as we face a new paradigm for human exploration where spirit and science finally merge With its blend of fascinating dialogue and higher ideals Beyond the Matrix offers both hope and reassurance in these challenging times

Cosmic Womb Chandra Wickramasinghe, Ph.D., Robert Bauval, 2017-12-19 Compelling evidence that life intelligence and evolution on Earth were seeded by comets and cosmic intelligence Explains how life first came from interstellar dust and comets and how later arrivals of cosmic dust and comets spurred evolution Explores the possibility that universal knowledge may be stored in human DNA and how ancient cultures may have known a way to retrieve this knowledge Reveals new discoveries about the dimensions of the Great Pyramid of Giza All ancient cultures link humanity's origins to the heavens The Egyptians for example were adamant that their ancestors came from the stars of Orion and Sirius Today however religion and science assert that life arose spontaneously here on Earth Did the ancients know our true cosmic origins Have they left us clues Expanding on the panspermia theory developed with the celebrated astronomer Sir Fred Hoyle namely that the building blocks of life were imported to Earth by comets in the distant past Chandra Wickramasinghe and Robert Bauval explore the

latest findings in support of a cosmic origin for humanity They detail the astrobiological discoveries of organic molecules deep in space how microbes are incredibly resistant to the harshest conditions of space enabling the transfer of genes from one star system to another and the recent recovery of microorganisms from comets still in space They argue that the universe was born and preset with the blueprint of life and that the cosmos must be teeming with lifeforms far older and perhaps far more developed than us They show how life arrived on our planet in the form of interstellar dust containing alien bacteria approximately 3.8 billion years ago and how later comets meteoroids and asteroids brought new bacterial and viral genetic material which was vital for evolution Using the latest advances in physics cosmology and neuroscience the authors explore how universal knowledge may be stored in human DNA and cells and they postulate that ancient cultures such as the pyramid builders of Egypt and the temple builders of India may have known a way to retrieve this knowledge Sharing new discoveries from experienced architects engineers and mathematicians they show how the Great Pyramid is a three dimensional mathematical equation in stone bearing a potent message for humanity across time and space about who we are and where we come from

Shadow Pasts William D. Rubinstein, 2014-09-11 For many intelligent people the stuff of history does not consist of the kind of dry as dust investigations of diplomatic economic or political history that most university historians research and write about but the famous topics of history's mysteries who was Jack the Ripper Was there a conspiracy to kill President Kennedy Did Richard III murder the Princes in the Tower What are the mysteries of the ancient Pyramids Not only have a great many books and articles been written on these and similar topics by so called amateur historians but they have generated societies conferences newsletters and television programmes Many people who are not academic historians take a keen interest in these topics and have in some cases made themselves real experts on them with interesting theories of their own Despite all of this however these topics are virtually ignored by academic historians and can be treated with contempt In Shadow Pasts William D Rubinstein a well known and widely published history professor examines seven of the most famous and interesting topics which have been discussed debated examined and written about by amateur historians Each of these mysteries and the theories surrounding them are examined in detail with Professor Rubinstein presenting his own original and sometimes surprising conclusions about what really happened
