DeJong, 2019-05-28 Praise for earlier editions I have been using this textbook as a required reading for my research class since 2004 because I found the text's coverage of research concepts to be in depth and easy to read without the technicalities. Ziblim Abukari PhD MSW Assistant Professor Department of Social Work Westfield State University Applied Social Research is thorough, well organized and clear, making it highly appreciated by my students. Barry Loneck PhD School of Social Welfare SUNY Albany The tenth edition of this classic text demonstrates how research skills are developed and used to facilitate best social work practices and improve client outcomes. New to this edition are additional examples and practitioner profiles demonstrating research-based practice, problem solving, extended vignettes, and broad inclusion of the 2015 CSWE competencies. The tenth edition also delivers directives for incorporating evidence-based practices into daily practice. Additional highlights include greater emphasis on conducting practice-informed research with minority and other disadvantaged populations. This engaging text for MSW and BSW students helps readers develop logic-based research skills that prepare them to be scientific practitioners who can use research-informed practice to improve clients' lives. Emphasized throughout is the application of research methods in assessing and monitoring client functioning and outcomes. Additional features include robust instructor resources. The print version of the book includes free searchable digital access to the entire contents. New to the Tenth Edition: Practitioner Profiles recounting interviews with actual practitioners; Evaluating Competency boxes highlighting the connections between text concepts and CSWE competencies; Emphasis on conducting research with disadvantaged populations; Enhanced instructor resources including updated test bank with multiple choice, short answer, and essay questions and PowerPoints. Key Features: Demonstrates the crucial connection between research and practice to improve client outcomes; Develops critical thinking and logic-based research skills; Helps students to measure and monitor client functions and outcomes and critically evaluate practices, programs, and services; Emphasizes scaling measures to assess client functioning; Includes unique chapter on preparing and presenting data.

*Interrogating and Innovating Comparative and International Education Research*, 2019-12-16 Conversations related to epistemology and methodology have been present in comparative and international education (CIE) since the field's inception. How CIE phenomena are studied, the questions asked, the tools used, and ideas about knowledge and reality that they reflect shape the nature of the knowledge produced, the valuing of that knowledge, and the implications for practice in diverse societies. This book is part of a growing conversation in which the ways that standardized practices in CIE research have functioned to reproduce problematic hierarchies, silences, and exclusions of diverse peoples' societies' knowledges and realities. Argued is that there must be recognition and understanding of the negative consequences of hegemonic onto-epistemologies and methodologies in CIE, dominantly sourced in European social science traditions that continue to shape and influence the design, implementation, and dissemination/application of CIE research knowledge. Yet while critical reflection is necessary, it alone is insufficient to realize the transformative change called for. As students, researchers, practitioners, and policymakers, we must

hear and heed calls for concrete action to challenge resist and transform the status quo in the field and work to further realize a more ethical and inclusive CIE Interrogating and Innovating Comparative and International Research presents a series of conceptual and empirically based essays that critically explore and problematize the dominance of Eurocentric epistemological and methodological traditions in CIE research As an action oriented volume the contributions do not end with critique rather suggestions are made and orientations modelled from different perspectives about the possibilities for change in CIE Contributors are Emily Anderson Supriya Baily Gerardo L Blanco Alisha Braun Erik Jon Byker Meagan Call Cummings Brendan J DeCoster D Brent Edwards Jr Sothy Eng Ameena Ghaffar Kucher Jeremy Gombin Sperling Kelly Grace Radhika Iyengar Huma Kidwai L Minh H ng Caroline Manion Patricia S Parker Leigh Patel Timothy D Reedy Karen Ross Betsy Scotto Lavino Payal P Shah Derrick Tu and Matthew A Witenstein
