*PJ Harvey and Music Video Performance* Abigail

Gardner, 2016-03-09 PJ Harvey's performances are premised on the core contention that she is somehow causing trouble Just how this trouble can be theorised within the context of the music video and what it means for a development of the ways we might conceptualise disruption and think about music video lies at the heart of this book Abigail Gardner mixes feminist theory and critical models from film and video scholarship as a rich means of interrogating Harvey's work and redefining her disruptive strategies The book presents a rethinking of the masquerade that allies it to cultural memory precipitated by Gardner's claim that Harvey's performances are conversations with the past specifically with visualised memories of archetypes of femininity Harvey's masquerades emerge from her conversations and renegotiations with both national and transatlantic musical visual and lyrical heritages It is the first academic book to present analysis of Harvey's music videos and opens up fresh avenues into exploring what is at stake in the video work of one of Britain's premier singer songwriters It extends the discussion on music video to consider how to make sense of the rapidly developing digital environment in which it now sits The interdisciplinary nature of the book should attract readers from a range of subject areas including popular music studies cultural studies media and communication studies and gender studies

When Children Kill Children David A. Green, 2012-01-20 This title examines the role of political culture and penal populism in the response to the emotive subject of child on child homicide Green explores the reasons underlying the vastly differing responses of the English and Norwegian criminal justice systems to the cases of James Bulger and Silje Redergard respectively Whereas James Bulger's killers were subject to extreme press and public hostility and held in secure detention for nine months before being tried in an adversarial court and served eight years in custody a Redergard's killers were shielded from public antagonism and carefully reintegrated into the local community This book argues that English adversarial political culture creates far more incentives to politicize high profile crimes than Norwegian consensus political culture Drawing on a wealth of empirical research Green suggests that the tendency for politicians to justify punitive responses to crime by invoking harsh political attitudes is based upon a flawed understanding of public opinion In a compelling study Green proposes a more deliberative response to crime is possible by making English culture less adversarial and by making informed public judgment more assessable
