

QUALITATIVE RESEARCH

Qualitative research is an investigative approach that aims to understand and interpret social phenomena through subjective experiences, meanings, and perspectives.

OVERVIEW

Qualitative research emphasizes exploring the depth and complexity of human behavior, attitudes, and interactions rather than quantifiable measurements. This research method relies on methods such as interviews, observations, and analysis of textual or visual data to gather rich and detailed insights.

EXAMPLES

- **Grounded Theory:** Grounded theory allows patterns and themes to emerge from the data rather than imposing preconceived theories.
- **Ethnography:** Ethnography involves immersing researchers in a social group to understand their behaviors, beliefs, and values through participant observation.

Research Methods in Early Childhood Penny Mukherji, Deborah Albon, 2018-01-27

Research is something many Early Childhood Studies students find intimidating. As a result, this book has been designed with early childhood students in mind to help them through the research process. The book covers the whole research journey, exploring the different methodologies, principles, as well as how to undertake a research project, making it a whole course companion. Following a linear and progressive structure, it logically helps students work through their course and introduces the topics to beginners in simple and clearly explained terms. Once students have gained confidence, they are able to delve into the further reading suggestions and the research in focus boxes, which look at international published examples of research to understand the real world effects and implications. Activities throughout help cement knowledge, and case studies giving examples and scenarios of real student research show readers how to present their own findings. A brand new reader guide to research to aid navigation and a new chapter on research proposals are now also included. This new Third Edition is also complemented by online resources that offer valuable additional resources for both instructors and students, including Videos per chapter relating to chapter outcomes, supported by critical questions, Flashcard glossary to consolidate learning, MCQs to test understanding, Testbank of questions for assignment setting, Free journal articles for wider reading, PowerPoint slides. Penny Mukherji and Deborah Albon will be discussing ideas from *Research Methods in Early Childhood in Doing Your Early Years Research Project*, a SAGE Masterclass for early years students and practitioners in collaboration with Kathy Brodie.

The Bloomsbury Handbook of Early Childhood Transitions Research Aline-Wendy Dunlop, Sally Peters, Sharon Lynn Kagan, 2024-09-19. Research into early childhood transitions has become a field in its own right. It is increasingly understood that a positive start in any new setting can influence the child's engagement, sense of belonging, well-being, progression in learning, and agency, and may be dependent on the insight of educators and families. And yet, there is no research methodology or research methods book dedicated to this growing field of study. Including 27 chapters written by researchers from the UK, New Zealand, the USA, Sweden, Iceland, Australia, and Canada, this handbook presents an overview of the field, exploring its current debates, reflects on its history, and offers suggestions for the future of the field. This book is an essential reference point for anyone studying or undertaking research into transitions in early childhood.
