Post-editing of Machine Translation Laura Winther Balling,Michael Carl,Sharon O'Brian,2014-03-17 Post editing is possibly the oldest form of human machine cooperation for translation It has been a common practice for just about as long as operational machine translation systems have existed Recently however there has been a surge of interest in post editing among the wider user community partly due to the increasing quality of machine translation output but also to the availability of free reliable software for both machine translation and post editing As a result the practices and processes of the translation industry are changing in fundamental ways This volume is a compilation of work by researchers developers and practitioners of post editing presented at two recent events on post editing The first Workshop on Post editing Technology and Practice held in conjunction with the 10th Conference of the Association for Machine Translation in the Americas held in San Diego in 2012 and the International Workshop on Expertise in Translation and Post editing Research and Application held at the Copenhagen Business School in 2012

Health Resources and Services Availability Monitoring System (HeRAMS) ,2021-02-26 Disruptions to health systems often result in hindered access to essential health services exposing affected communities to increased morbidity and mortality The Health Resources and Services Availability Monitoring System HeRAMS approach aims to improve overall access to health care by helping to elaborate a commonly agreed upon picture of health needs gaps and priorities **Routledge Handbook of Climate Change Impacts on Indigenous**

Peoples and Local Communities Victoria Reyes-García, 2023-12-26 This Handbook examines the diverse ways in which climate change impacts Indigenous Peoples and local communities and considers their response to these changes. While there is well established evidence that the climate of the Earth is changing the scarcity of instrumental data oftentimes challenges scientists ability to detect such impacts in remote and marginalized areas of the world or in areas with scarce data. Bridging this gap this Handbook draws on field research among Indigenous Peoples and local communities distributed across different climatic zones and relying on different livelihood activities to analyse their reports of and responses to climate change impacts. It includes contributions from a range of authors from different nationalities disciplinary backgrounds and positionalities thus reflecting the diversity of approaches in the field. The Handbook is organised in two parts Part I examines the diverse ways in which climate change alone or in interaction with other drivers of environmental change affects Indigenous Peoples and local communities. Part II examines how Indigenous Peoples and local communities are locally adapting their responses to these impacts. Overall this book highlights Indigenous and local knowledge systems as an untapped resource which will be vital in deepening our understanding of the effects of climate change. The Routledge Handbook of Climate Change Impacts on Indigenous Peoples and Local Communities will be an essential reference text for students and scholars of climate change anthropology environmental studies ethnobiology and Indigenous studies. Valuation in Welfare Markets Linus Johansson Krafve, 2015-05-13 This thesis takes an interest in how values attain a specific meaning in market reforms of welfare provision. The study builds on exploring how values are enacted rather than treating them as universal and stable. The aim of the thesis is to contribute conceptually to the understanding of how market making activities in the welfare state bureaucracy handle the values at play in welfare reform. The empirical case is the governance of a so called care choice system in a Swedish county council. The methodology for the study is shadowing of public officials working to formulate a so called rulebook for care centres. The analysis describes how these officials handle a variety of values when designing the rulebook. How they choose to organize their work the methods used to collect data about care centre performance what governance tools they employ how they arrange their work roles and how they construct the rulebook leads to value shifts and determines the meaning of values in practice. The officials work

practice is political in the sense that it actively shapes the values enacted in the care choice reform Therefore it is of great importance to spur a broader debate about the organization of such governance practices while there is a need to problematize simplistic images of what market reforms of welfare entails in practice The thesis proposes that an ecological i e a situated reflexive and malleable approach to handling of contending values may contribute to such debates Avhandlingen intresserar sig f r hur v rden f r sin praktiska inneh rd i marknadsreformer av v lf rdstj nster Studien bygger p att unders ka hur v rden blir lokalt iscensatta snarare n att behandla dem som universella och stabila Syftet med studien r att utveckla begrepp f r att f rst hur marknadsskapande styrning av v lf rd hanterar de motstridiga v rden som st r p spel i v lf rdsreform Det empiriska fallet utg rs av styrningen av det s k v rdvalet i ett svenska landsting Metoden r skuggning av tj nstem n som jobbar med att formulera en s k regelbok f r v rdcentraler Analysen beskriver hur dessa tj nstem n arbetar med att hantera olika typer av v rden n r de konstruerar regelboken Hur de v ljer att organisera sitt arbete vilka metoder de anv nder f r att samla in data om v rdcentralernas prestationer vilka verktyg de anv nder f r styrning hur de ordnar sina arbetsroller samt hur de konstruerar regelboken leder till v rdef rskjutningar och styr vilka uttryck de olika v rderna f r i praktiken Tj nstem nnens arbete r politiskt s tillvida att det aktivt formar de v rden som f r utrymme i v rdvalsreformen D rf r r det av stor vikt att skapa en bredare debatt kring organisering av s dan styrning samtidigt som det kr ver att man problematiserar f renklade bilder av vad marknadsreformer i v lf rden betyder i praktiken Avhandlingen f resl r att ett ekologiskt dvs ett situerat reflexivt och f r nderligt perspektiv p hanteringen av motstridiga v rden i marknadsreformer kan bidra till en s dan debatt
