Mukhopadhyay, Volker D. Burkert, 2014-03-14 The Workshop N Physics and non perturbative QCD was held at the European Center for Theoretical Studies and Related Areas ECT in Trento Italy during May 18-29 1998 Previous workshops of the series on N Physics took place at the Florida State University 1994 at CEBAF 1995 at the Institute for Nuclear Theory in Seattle 1996 and at the George Washington University 1997 The Workshop was devoted to a summary of recent experimental and the oretical research on N physics and special emphasis was given to the information that photo and electro production of nucleon resonances can provide on the non perturbative regime of Quantum Chromodynamics The idea was to stimulate discussions among experimentalists and theoreticians in order to pursue the interpretation of the huge amount of forthcoming data from several laboratories in the world It was therefore decided to have both experimental and theoretical lectures on the main topics like among the others single and double pion production TJ and K meson production the GDH sum rule the spin of the proton etc Thanks to the unusual two week extension of the Workshop the allotted time for the lectures was extended up to one hour in order to allow the invited lecturers to give a detailed presentation of their topics Finally various short contributions were selected to sharpen the discussion about selected items Quantum Chromodynamics Anne Mosher, 1980 Workshop on Non-Perturbative Quantum Chromodynamics K.
