Emerald City Matthew W. Kingle, 2008-10-01 At the foot of the snow capped Cascade Mountains on the forested shores of Puget Sound Seattle is set in a location of spectacular natural beauty Boosters of the city have long capitalized on this splendor recently likening it to the fairytale capital of L Frank Baum s The Wizard of Oz the Emerald City But just as Dorothy Toto and their traveling companions discover a darker reality upon entering the green gates of the imaginary Emerald City those who look more closely at Seattle s landscape will find that it reveals a history marked by environmental degradation and urban inequality This book explores the role of nature in the development of the city of Seattle from the earliest days of its settlement to the present Combining environmental history urban history and human geography Matthew Kingle shows how attempts to reshape nature in and around Seattle have often ended not only in ecological disaster but also in social inequality The price of Seattle s centuries of growth and progress has been high Its wildlife especially the famous Pacific salmon and its poorest residents have paid the highest price Kingle proposes a bold new way of understanding the interdependence between nature and culture and he argues for what he calls an ethic of place Using Seattle as a compelling case study he offers important insights for every city seeking to live in harmony with its natural landscape Provided by publisher

Cities and Nature in the American West Char Miller, 2010-09-28 In less than a century the American West has transformed from a predominantly rural region to one where most people live in metropolitan centers *Cities and Nature in the American West* offers provocative analyses of this transformation Each essay explores the intersection of environmental urban and western history providing a deeper understanding of the complex processes by which the urban West has shaped and been shaped by its sustaining environment The book also considers how the West's urban development has altered the human experience and perception of nature from the administration and marketing of national parks to the consumer roots of popular environmentalism the politics of land and water use and the challenges of environmental inequities A number of essays address the cultural role of wilderness nature and such activities as camping Others examine the increasingly pervasive power of the West's urban areas and urbanites to redefine the very foundations and future of the American West

The Postmodern Short Story Farhat Isfahani, Joseph Boyden, Mary Rohrberger, Jaie Claudet, 2003-12-30 Short stories are usually defined in terms of characteristics of modernism in which the story begins in the middle develops according to a truncated plot and ends with an epiphany This approach tends to ignore postmodernism a movement often characterized by a negation of objective reality where plots are seemingly abandoned surfaces are extraordinary and symbols turn inward on themselves This book examines postmodern forms and characteristic themes by analyzing a group of short stories that make use of postmodern narrative strategies including nonfictional fiction gender profiling and death as an image The volume begins with a discussion of the blurred lines between fiction and nonfiction in the short story and imaginative personal essay It then looks at the role of women in works by such authors as Sandra Cisneros Leslie Marmon Silko Joyce Carol Oates and Lorrie Moore This is followed by a section of chapters on postmodern masculinity and short fiction The next section focuses on death as an image and theme in works by Richard Ford Richard Brautigan and James Joyce The final set of chapters considers postmodern short fiction from South Africa and Canada
