Roma And The Transition In Central And Eastern Europe:

Roma and the Transition in Central and Eastern Europe Dena Ringold, 2000-01-01 This report brings together the available evidence from primary and secondary sources including household surveys and results of recent qualitative studies to develop a picture of the development challenges facing Roma populations in Central and Eastern Europe While living standards have declined for all population groups during the transition to a market economy there are growing indications that conditions have deteriorated more severely for Roma than for others and that Roma are poorly positioned to take advantage of emerging economic opportunities This report focuses on five countries in Central and Eastern Europe Hungary Bulgaria Romania the Czech Republic and the Slovak Republic The first chapter of the report provides the historical context and an overview of the methodological issues and main data sources chapter two presents the available evidence on welfare status and living conditions examining poverty housing education employment and health chapter three considers issues relating to access to social services and the final chapter reviews the opportunities for Roma participation in the design and implementation of community development policies and programmes and outlines policy implications Central and East European Politics Zsuzsa Csengeri, Daina S. Eglitis, Paula M. Pickering, 2021-06-22 Now in a fully revised and updated edition this essential text provides a comprehensive introduction to Central and Eastern Europe including the Baltics and Ukraine Broad but nuanced it offers a reader friendly overview of the globally and regionally significant changes and challenges the region faces Divided into two parts the book first presents thematic chapters on key issues including nationalism and challenges to democratic institutions and practices the contentious politics of memory debates over demography and migration in a region with a shrinking population and Russian efforts to retain regional influence through hard and soft power The case study chapters that follow highlight key political developments after communism as well as providing a strong foundation for readers on regional history and the political and economic experiences of the communist years Each covers the foundational topics of political history political competition economic development social problems relationships with European institutions and threats to good governance For students and specialists alike this book will be an invaluable resource on this dynamic region of Europe Transitional Jurisprudence and the ECHR Antoine Buyse, Michael Hamilton, 2011-08-11 The European Convention on Human Rights has been a standard setting text for transitions to peace and democracy in states throughout Europe This book analyses the content role and effects of the jurisprudence of the European Court relating to societies in transition It features a wide range of transitional challenges from killings by security forces in Northern Ireland to property restitution in East Central Europe and from political upheaval in the Balkans to the position of religious minorities and Roma Has the European Court developed a specific transitional jurisprudence How do politics affect the ways in which the Court's judgments are implemented Does the Court's case law itself become woven into narratives of struggle in transitional societies This book seeks to answer these questions by highlighting the unique role of

Europe's main guardian of human rights the Court in Strasbourg. It includes a comparison with the Inter American and African human rights systems.

Interpreting Emotions in Russia and Eastern Europe Mark D. Steinberg, Valeria Sobol, 2011-06-01 Bringing together important new work by an international and interdisciplinary group of leading scholars. Interpreting Emotions in Russia and Eastern Europe approaches emotions as a phenomenon complexly intertwined with society, culture, politics, and history. The stories in this book involve sensitive aristocrats, committed revolutionaries, aggressive nationalists, political leaders, female victims of sexual violence, perpetrators and victims of Stalinist terror, citizens in the former Yugoslavia in the wake of war, workers in post-socialist Romania, Balkan Romani Gypsy musicians, and veterans of the Afghan and Chechen wars. These essays explore emotional perception and expression not only as private inward feeling but also as a way of interpreting and judging a troubled world acting in it and perhaps changing it. Essential reading for those interested in new perspectives on the study of Russia and Eastern Europe, past and present, this volume will appeal to scholars across the social sciences and humanities who are seeking new and deeper approaches to understanding human experience, thought, and feeling.

Minority Integration in Central Eastern Europe, 2009-01-01 The book presents a timely examination on a range of issues present in the discussions on the integration of ethnic minorities in Central Eastern Europe: norm setting, equality, promotion, multiculturalism, nation building, social cohesion, and ethnic diversity. It insightfully illustrates these debates by assessing them diachronically rather than cross-nationally from the legal, political, and anthropological perspective. The contributors unpack concepts related to minority integration, discuss progress in policy implementation, and scrutinize the outcomes of minority integration in seven countries from the region. The volume is divided into three sections taking a multi-variant perspective on minority integration and equality. The volume starts with an analysis of international organizations setting standards and promoting minority rights norms on ethnic diversity and equal treatment. The second and third sections address state policies that provide fora for minority groups to participate in policy making as well as the role of society and its various actors, their development, and enactment of integration concepts. The volume aims to assess the future of ethnic diversity and equality in societies across Central Eastern European states.

Hip Hop at Europe's Edge Milosz Miszczyński, Adriana Helbig, 2017-03-27 Essays examining the impact of hip hop music on pop culture and youth identity in post-Soviet Central and Eastern Europe. Responding to the development of a lively hip hop culture in Central and Eastern European countries, this interdisciplinary study demonstrates how a universal model of hip hop serves as a contextually situated platform of cultural exchange and becomes locally inflected. After the Soviet Union fell, hip hop became popular in urban environments in the region, but it has often been stigmatized as inauthentic due to an apparent lack of connection to African American historical roots and black identity. Originally strongly influenced by aesthetics from the United States, hip hop in Central and Eastern Europe has gradually developed unique local trajectories, a number of which are showcased in this volume. On the one hand, hip hop functions as a marker of Western cosmopolitanism and democratic

ideology but as the contributors show it is also a malleable genre that has been infused with so much local identity that it has lost most of its previous associations with the West in the experiences of local musicians audiences and producers Contextualizing hip hop through the prism of local experiences and regional musical expressions these valuable case studies reveal the broad spectrum of its impact on popular culture and youth identity in the post Soviet world The volume represents a valuable and timely contribution to the study of popular culture in central and eastern Europe Hip Hop at Europe s Edge will not only appeal to readers interested in contemporary popular culture in central and eastern Europe but also inspire future research on post socialism s unique local adaptations of global cultural trends The Soviet and Post Soviet Review The authors of this edited volume do not romanticize and heroize the genre by automatically equating it with political opposition a fate often suffered by rock before Instead the book has to be given much credit for presenting a very nuanced picture of hip hop s entanglement or non entanglement for that matter with politics in this wide stretch of the world past and present The Russian Review

Dynamics of National Identity and Transnational Identities in the Process of European Integration Elena Marushiakova, 2021-02-03 This collection was inspired by the international conference Dynamics of National Identity and Transnational Identities in the Process of European Integration organized by the Balkan Ethnology Department of the Ethnographic Institute and Museum at the Bulgarian Academy of Sciences and realized as project of the European Commission Jean Monnet Action Program for the support of Study and Research Centers The book opens a debate on the changing notions of identity in the region of Central and Eastern Europe on the base of analysis of social developments influenced by EU accession and EU integration process The most important aspect is the analysis of processes of breaking up the borders of national identity and transition towards new forms of transnational identities and emerging of consciousness of All European unity The book has a dual focus on general topics related to the study of national and transnational identities and on the process of European integration It brings together the work of researchers not only from different parts of Europe from France to Russia but from USA and Asia too This book is a starting point for East West discussion and brings new knowledge that will be an invaluable contribution to the common European research area

EU Anti-Discrimination Law Beyond Gender Uladzislau Belavusau, Kristin Henrard, 2018-11-15 The EU has slowly but surely developed a solid body of equality law that prohibits different facets of discrimination While the Union had initially developed anti discrimination norms that served only the commercial rationale of the common market focusing on nationality of a Member State and gender as protected grounds the Treaty of Amsterdam 1997 supplied five additional prohibited grounds of discrimination to the EU legislative palette in line with a much broader egalitarian rationale In 2000 two EU Equality Directives followed one focusing on race and ethnic origin the other covering the remaining four grounds introduced by the Treaty of Amsterdam namely religion sexual orientation disabilities and age Eighteen years after the adoption of the watershed Equality Directives it seems timely to dedicate a book to their limits and prospects to look at the progress made

and to revisit the rise of EU anti discrimination law beyond gender This volume sets out to capture the striking developments and shortcomings that have taken place in the interpretation of relevant EU secondary law Firstly the book unfolds an up to date systematic reappraisal of the five newer grounds of discrimination which have so far received mostly fragmented coverage Secondly and more generally the volume captures how and to what extent the Equality Directives have enabled or at times prevented the Court of Justice of the European Union from developing even broader and more refined anti discrimination jurisprudence Thus the book offers a glimpse into the past present and it is hoped future of EU anti discrimination law as despite all the flaws in the Union s Garden of Earthly Delights it offers one of the highest standards of protection in comparative anti discrimination law

The Political Economy of Hungary Adam Fabry, 2019-04-03 This book explores the political economy of Hungary from the mid 1970s to the present Widely considered a poster boy of neoliberal transformation in post communist Eastern Europe until the mid 2000s Hungary has in recent years developed into a model illiberal regime Constitutional checks and balances are non functioning the independent media trade unions and civil society groups are constantly attacked by the authorities there is widespread intolerance against minorities and refugees and the governing FIDESZ party led by Prime Minister Viktor Orb n controls all public institutions and increasingly large parts of the country s economy To make sense of the politico economical roller coaster that Hungary has experienced in the last four decades Fabry employs a Marxian political economy approach emphasising competitive accumulation class struggle both between capital and labour as well as different fractions of capital and uneven and combined development The author analyses the neoliberal transformation of the Hungarian political economy and argues that the drift to authoritarianism under the Orb n regime cannot be explained as a case of Hungarian exceptionalism but rather represents an outcome of the inherent contradictions of the variety of neoliberalism that emerged in Hungary after 1989

Europe Unbound Jan Zielonka, 2003-09-02 *Europe Unbound* provides an analysis of the enlargement of the European Union and examines from both a theoretical and a political approach issues such as Where does Europe end Should Europe s borders be open or closed How does the evolution of territorial politics impact on the course of European integration This book draws upon such diverse fields as History Sociology Political Science and International Relations and contains contributions from an international range of respected academics
