Roman Glass Reflections Of Everyday Life:

ROMAN GLASS STUART JAMES. FLEMING, 1997 *Roman Glass* Stuart James Fleming, 1999 Drawing analogies between the Roman society and our own Fleming U of Pennsylvania Museum presents the path of development followed by the Roman glassworking industry and illustrates the aesthetic and technical response of an industry to changes in personal taste Where written sources were lacking he uses images such as manuscripts and mosaics relief decoration on silverware and coffins and so forth In the foreword he states that when he talks of glass reflecting the Roman culture he means that it reflects the way people behaved towards one another Contains many color illustrations Annotation copyrighted by Book News Inc Portland OR *Roman Glass* Stuart J. Fleming, 1997-01-29 This lavishly illustrated book places glass in its social setting within the Roman household The volume was written to accompany the traveling exhibition *Roman Glass Reflections on Cultural Change* Through a series of vignettes the author tells the story of the development of the glass industry in the Roman Empire and the role of glass in the daily routines of the ancient Romans During the reign of Rome's first emperor Augustus 27 B C A D 14 as several well established industries such as pottery and textile making were being expanded the craft of glassmaking was adopted from the East turned into an industry and adapted to Roman taste By the mid first century A D glass rivaled pottery in the domestic marketplace It was used for tableware and storage containers to hold everything from preserved fish to fine perfumes Glass featured strongly in the Roman daily routine from the early morning when maids would apply perfumed lotions to their mistress in preparation for her social rounds to the late afternoon when slaves would bring platters of food bowls of fruit and jugs of wine all of glass to the supper table And there was a place for glass even in Roman funerary ritual because it was custom to include all manner of domestic items among the grave furnishings to add comfort to the afterlife **Making Senses of the Past** Jo Day, 2013-03-19 Since the nineteenth century museums have kept their artifacts in glass cases to better preserve them and drawings and photographs have become standard ways of presenting the past These practices have led to an archaeology dominated by visual description even though human interaction with the surrounding world involves the whole body and all of its senses In the past few years sensory archaeology has become more prominent and *Making Senses of the Past* is one of the first collected volumes on this subject This book presents cutting edge research on new theoretical issues The essays presented here take readers on a multisensory journey around the world and across time In ancient Peru a site provides sensory surprises as voices resound beneath the ground and hidden carvings slowly reveal their secrets In Canada and New Zealand the flicker of reflected light from a lake dances on the faces of painted rocks and may have influenced when and why the pigment was applied In Mesopotamia vessels for foodstuffs build a picture of a past cuisine that encompasses taste and social activity in the building of communities While perfume and flowers are examined in various cultures in the chamber tombs of ancient Roman Palestine we are reminded that not all smells are pleasant *Making Senses of the Past* explores alternative ways to perceive

past societies and offers a new way of wiring archaeology that incorporates the senses All Things Ancient Rome Anne Leen, 2023-06-15 Through roughly 160 alphabetically arranged reference entries this book surveys the material culture and social institutions of Ancient Rome Ancient Rome was one of the great civilizations of antiquity Honoring the contributions of their cultural forebearers who included Etruscans Asians and Egyptians as well as Greeks Roman artists writers and thinkers freely borrowed where tradition dictated and innovated where personal talent and imagination directed forging a unique creative experience that formed the basis of Western European artistic literary and philosophical production for 2 000 years While other reference works typically examine battles and politicians this book focuses on Roman social history and daily life painting a detailed picture of the material culture and social institutions of Ancient Rome A timeline highlights key events while an overview essay surveys the achievements of the Romans Reference entries provide objective information about art architecture literature commerce transportation government religion and other topics related to Roman life Each entry provides cross references and suggestions for further reading and some provide sidebars of interesting facts along with excerpts from primary source documents The book closes with a selected general bibliography of resources suitable for student research *Materiality in Roman Art and Architecture* Annette Haug, Adrian Hielscher, M. Taylor Lauritsen, 2021-12-31 The focus of this volume is on the aesthetics semantics and function of materials in Roman antiquity between the 2nd century B C and the 2nd century A D It includes contributions on both architectural spaces and their material design and objects types of artefacts that differ greatly in the way they were used perceived and loaded with cultural significance With respect to architecture the analysis of material aesthetics leads to a new understanding of the performance imitation and transformation of surfaces including the social meaning of such strategies In the case of objects surface treatments are equally important However object form a specific design category which can enter into tension with materiality comes into particular focus Only when materials are shaped do their various qualities emerge and these qualities are to a greater or lesser extent transferred to objects With a focus primarily on Roman Italy the papers in this volume underscore the importance of material design and highlight the awareness of this matter in the ancient world *From Vines to Wines in Classical Rome* David L. Thurmond, 2016-12-05 David L Thurmond s *From Vines to Wines in Classical Rome* is the first general handbook on winemaking in Rome in over 100 years In this work Thurmond surveys the biology of the vine the protohistory history viticulture winemaking distribution and modes of consumption of wine in classical Rome He uses a close reading of the relevant Latin texts along with a careful survey of relevant archaeology and comparative practices from modern viticulture and oenology to elucidate this essential element of Roman culture **Archaeological Artefacts and Material Culture** Linda Hurcombe, 2014-05-12 This book is an introduction to the study of artefacts setting them in a social context rather than using a purely scientific approach Drawing on a range of different cultures and extensively illustrated *Archaeological Artefacts and Material Culture* covers everything from recovery strategies and recording procedures to

interpretation through typology ethnography and experiment and every type of material including wood fibers bones hides and adhesives stone clay and metals With over seventy illustrations with almost fifty in full colour this book not only provides the tools an archaeologist will need to interpret past societies from their artefacts but also a keen appreciation of the beauty and tactility involved in working with these fascinating objects This is a book no archaeologist should be without but it will also appeal to anybody interested in the interaction between people and objects

Glass of the Roman World Justine Bayley, Ian Freestone, Caroline Jackson, 2015-07-31 Glass of the Roman World illustrates the arrival of new cultural systems mechanisms of trade and an expanded economic base in the early 1st millennium AD which in combination allowed the further development of the existing glass industry Glass became something which encompassed more than simply a novel and highly decorative material Glass production grew and its consumption increased until it was assimilated into all levels of society used for display and luxury items but equally for utilitarian containers windows and even tools These 18 papers by renowned international scholars include studies of glass from Europe and the Near East The authors write on a variety of topics where their work is at the forefront of new approaches to the subject They both extend and consolidate aspects of our understanding of how glass was produced traded and used throughout the Empire and the wider world drawing on chronology typology patterns of distribution and other methodologies including the incorporation of new scientific methods Though focusing on a single material the papers are firmly based in its archaeological context in the wider economy of the Roman world and consider glass as part of a complex material culture controlled by the expansion and contraction of the Empire The volume is presented in honor of Jenny Price a foremost scholar of Roman glass

Transparency Daniel Jütte, 2023-03-28 A wide ranging illustrated history of transparency as told through the evolution of the glass window Transparency is a mantra of our day It is key to the Western understanding of a liberal society We expect transparency from for instance political institutions corporations and the media But how did it become such a powerful and global idea From ancient glass to Apple's corporate headquarters this book is the first to probe how Western people have experienced conceptualized and evaluated transparency Daniel Jütte argues that the experience of transparency has been inextricably linked to one element of Western architecture the glass window Windows are meant to be unnoticed Yet a historical perspective reveals the role that glass has played in shaping how we see and interpret the world A seemingly pure material glass has been endowed throughout history with political social and cultural meaning in manifold and sometimes conflicting ways At the same time Jütte raises questions about the future of vitreous transparency its costs in terms of visual privacy but also its ecological price tag in an age of accelerating climate change
