Roman Ostia:

'Roman Ostia' Revisited Anna Gallina Zevi, Amanda Claridge, 1996 Dedicated to Russell Meiggs this volume offers some significant reassessments of views on Rome's major port based on recent excavation and research It follows the fortunes of the city from the archaic period through to its imperial nadir Town planning is an important theme in this book as is the city of Rome's relationship to the sea 4 papers in English 11 in Italian 1 in French and 1 in Spanish **Ostia: Aspects of Roman City Life** Gustav Hermansen, 1981 Gustav Hermansen provides a basis for constructive debate on the social and economic life of the Roman city of Ostia Ostia unveils ancient social history architecture city planning and community life and is complete with extensive floor plans photographs and line drawings [Roman Ostia](#) Russell Meiggs, 1960 **Imperial Cult and Commerce in John's Apocalypse** J. Nelson Kraybill, 1996-01-01 Drawing evidence from ancient literature coins inscriptions and artwork Kraybill points to the penetration of the Roman imperial cult emperor worship into commercial settings as a primary concern of the Apocalypse By the time John was on Patmos people in Asia Minor could not buy or sell without giving idolatrous allegiance to Rome Imperial cult and commerce blended in guild halls the banking industry and the market place John calls readers to come out from pagan loyalties of Roman imperial society and give full allegiance to a New Jerusalem of justice and equality under the rule of Christ *Negotiation, Collaboration and Conflict in Ancient and Medieval Communities* Christian Krötzl, Katariina Mustakallio, Miikka Tamminen, 2022-03-27 Focusing on forms of interaction and methods of negotiation in multicultural multi ethnic and multilingual contexts during Antiquity and the Middle Ages this volume examines questions of social and cultural interaction within and between diverse ethnic communities Toleration and coexistence were essential in all late antique and medieval societies and their communities However power struggles and prejudices could give rise to suspicion conflict and violence All of these had a central influence on social dynamics negotiations of collective or individual identity definitions of ethnicity and the shaping of legal rules What was the function of multicultural and multilingual interaction did it create and increase conflicts or was it rather a prerequisite for survival and prosperity The focus of this book is society and the history of everyday life examining gender status and ethnicity and the various forms of interaction and negotiation *Field Methods and Post-Excavation Techniques in Late Antique Archaeology*, 2016-04-26 Archaeologists working on late antique sites have not spent enough time thinking about methodology Their focus has been on recovering and cataloguing evidence or on the study of specific historical problems Digging has often been more important than publishing which has rarely extended beyond the basic summaries found in preliminary reports The re emergence of clearance excavation fuelled by the demands of tourism has further reduced the value of urban excavations in the East Mediterranean Here late antique levels have suffered in the hunt for photogenic early imperial architecture This volume attempts to address this situation by offering a critique of present practice and a series of exemplars alongside discussion articles on field technique and post excavation analysis The articles range from urban survey to the study of finds

The book also considers if we need to develop specific field methods appropriate to the study of late antiquity Contributors are John Bintliff Jeremy Evans Axel Gering Stefan Groh Yoshiki Hori Nikolaos D Karydis Veli K se Luke Lavan Zsolt Magyar Philip Mills John Pearce Steve Roskams Helga Sedlmayer Ellen Swift Itamar Taxel Douglas Underwood Lutgarde Vandeput and Joe Williams
