

others in the hope that he would prove of great value to the cause of European Protestantism, still others in the expectation of present or future reward. They were at his service; they wanted to be sure they were sending him what he desired; they were grateful for his friendship and for benefits received.

Sidney did not, after all, become a great man in the councils of Elizabeth. Dr. Osborn is inclined to blame his lack of advancement upon the Queen's flightiness, her dislike of interventionist policy in the Low Countries to which Sidney was committed, and her mistaken(?) opinion that he was too ambitious. Whatever the reason for his failure to fulfill the hopes that Languet and the crowd of foreign correspondents had in him we must owe to it the leisure that produced that poetic Sidney of whose existence the letters offer no hint.

There are novelties, too, though of a different kind, in Professor Kimbrough's contribution to the Twayne series of introductions to English authors. This is no capsule distillation of standard criticism for the beginning reader, and the author is, in fact, at considerable pains to distinguish his response to Sidney's writings from those of other commentators. He is quite sure, for example, that when Musidorus (in the *Old Arcadia*) succumbs to a passion that might, had circumstances permitted, have robbed the sleeping Pamela of 'her dearest Jewell' he sought to take from her no more than a kiss. For the episode in which Pyrocles and Philoclea spend the night in each other's arms, Kimbrough provides an unusual interpretation, not only of Sidney's story, but also of the ways of young lovers of our own culture: 'and "embracement," in spite of the dirty minds of generations of readers, is the right word; for these young lovers have done only what young lovers have always longed to do: spent the night in each other's arms without indulging in the pleasure of intercourse.'

Sensibility and Female Poetic Tradition, 1780-1860 Claire Knowles, 2016-04-01 Arguing that the end of the eighteenth century witnessed the emergence of an important female poetic tradition Claire Knowles analyzes the poetry of several key women writing between 1780 and 1860 Knowles provides important context by demonstrating the influence of the Della Cruscan in exposing the constructed and performative nature of the trope of sensibility a revelation that was met with critical hostility by a literary culture that valorised sincerity This sets the stage for Charlotte Smith who pioneers an autobiographical approach to poetic production that places increased emphasis on the connection between the poet's physical body and her body of work Knowles shows the poets Susan Evance Letitia Elizabeth Landon and Elizabeth Barrett Browning advancing Smith's poetic strategy as they seek to elicit a powerful sympathetic response from readers by highlighting a connection between their actual suffering and the production of poetry From this environment a specific tradition in female poetry arises that is identifiable in the work of twentieth century writers like Sylvia Plath and continues to pertain today Alongside this new understanding of poetic tradition Knowles provides an innovative account of the central role of women writers to an emergent late eighteenth century mass literary culture and traces a crucial discursive shift that takes place in poetic production during this period She argues that the movement away from the passionate discourse of sensibility in the late eighteenth century to the more contained rhetoric of sentimentality in the early nineteenth had an enormous effect not only on female poets but also on British literary culture as a whole *Dissolution of Character in Late Romanticism, 1820 - 1839* Jonas Cope, 2018-03-14 The *Dissolution of Character in Late Romanticism* studies texts written by contemporary poets novelists essayists journalists philosophers phrenologists sociologists gossip mongers and anonymous correspondents

Women, Love, and Commodity Culture in British Romanticism Professor Daniela Garofalo, 2013-05-28 Offering a new understanding of canonical Romanticism Daniela Garofalo suggests that representations of erotic love in the period have been largely misunderstood Commonly understood as a means for transcending political and economic realities love for several canonical Romantic writers offers instead a contestation of those realities Garofalo argues that Romantic writers show that the desire for transcendence through love mimics the desire for commodity consumption and depends on the same dynamic of delayed fulfillment that was advocated by thinkers such as Adam Smith As writers such as William Blake Lord Byron Sir Walter Scott John Keats and Emily Bront engaged with the period's concern with political economy and the nature of desire they challenged stereotypical representations of women either as self denying consumers or as intemperate participants in the market economy Instead their works show the importance of women for understanding modern economics with women's desire conceived as a force that not only

undermines the political economy's emphasis on productivity growth and perpetual consumption but also holds forth the possibility of alternatives to a system of capitalist exchange
