ROMANCING THE CATHEDRAL

Gothic Architecture in
Fin-de-Siècle French Culture

ELIZABETH EMERY

Romancing the Cathedral explores the late-nineteenth-century French passion for Gothic architecture, particularly the cathedral. Though maligned in the seven-teenth and eighteenth centuries and vandalized during the French Revolution, by World War I the cathedral was considered "the genius of the French nation," a privileged and patriotic work of art that surpassed such other national artworks as Wagner's operas and the Parthenon. However, the moment at which the Gothic style finally reached near-universal acclaim in France also coincided with one of the most anti-clerical periods of French history, the years surrounding the separation of church and state.

Taking this contradiction as a starting point, Elizabeth Emery explores how the cathedral's popularity stemmed from its semantic richness as well as its glorification in the works of such writers and artists as Emile Zola, J.-K. Huysmans, Marcel Proust, Paul Claudel, Claude Monet, Auguste Rodin, and others. Using their works as a springboard, Emery examines the ways in which they responded and contributed to prevailing discourses about the cathedral. Interdisciplinary in nature, *Romancing the Cathedral* will appeal to those interested in Gothic art and architecture, European cultural studies, medievalism, and French literature.

"Emery successfully straddles both an academic and a more broad-based audience with an interest in French literature, history, or medievalism. Her style is accessible and the product of insightful, complex scholarship. Fin-de-siècle medievalism is a sadly understudied field. While scholars have taken on some of the themes that Emery charts in regard to individual authors and artists, none look comprehensively at the very prominent image of the cathedral in fin-de-siècle French culture."

—Laura Morowitz, coeditor of *Artistic Brotherhoods
in the Nineteenth Century*

Elizabeth Emery is Assistant Professor in the Department of French, German, and Russian at Montclair State University.

Romancing The Cathedral:

Romancing the Cathedral Elizabeth Emery, 2001-09-20 Through an analysis of political art historical and literary discourse this book considers French fascination with the Gothic cathedral *The Juggler of Notre Dame and the Medievalizing of Modernity*. Jan M. Ziolkowski, 2018-07-24 This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt he is saved when the statue delighted by his skill miraculously comes to life Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth century Paris before its translation into English in Britain and the United States The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today Volume 2 Medieval Meets Medievalism deals with the influence of the tale in nineteenth and early twentieth century Europe and America and the development of literary medievalism at this time The Juggler of Notre Dame and the Medievalizing of Modernity is a rich case study for the reception of the Middle Ages in modernity Spanning centuries and continents the medieval period is understood through the lens of its post modern reception in Europe and America Profound connections between the verbal and the visual are illustrated by a rich trove of images including book illustrations stained glass postage stamps architecture and Christmas cards Presented with great clarity and simplicity Ziolkowski's work is accessible to the general reader while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies medievalism philology literary history art history folklore performance studies and reception studies The Dream Émile Zola, 2018-09-20 Is it wrong to love whatever is beautiful and rich I love it precisely because it is beautiful because it is rich because I think it brings joy to my heart On Christmas day in the flurry of a snow storm the Huberts discover a ragged nine year old girl sheltering under the neighbouring cathedral porch Childless and pious the couple take in and raise Angelique as their own The girl is intensely passionate and given to rage and disobedience as well as love and religious fervour Inspired by The Golden Legend Angelique creates a dream world all of her own peopled with spirits As part of her dream vision she becomes convinced she will marry a rich and handsome young prince Her wish seemingly comes true when she falls in love with a lord's son The sixteenth novel in the Rougon Macquart series The Dream marks a departure by Zola from the conventions of realism Here Zola explores the persistence of mysticism but also blends elements of fairy tale with the naturalist techniques for which he had become known This edition contains a wide ranging introduction placing Zola's changing concerns in the context of his wider work and illuminates key themes in the novel such as architecture heraldry and the lives of the saints Financing Cathedral Building in the Middle Ages Wim

Vroom,2025-10-01 This first comprehensive overview of the process of commissioning and financing the construction of cathedrals in the Middle Ages reveals a financing system almost as monumental as the cathedrals themselves Here we follow the historian on a fascinating examination of construction accounts and other sources extant but never so minutely explored bringing the bishop and the chapter to account as it were The book is divided into two parts The first gives a broad overview of the resources on which medieval commissioners could draw including contributions from the bishop chapter sovereign city and above all the faithful of the diocese in which the cathedral was erected The second part is a case study of the financing of construction at Utrecht Cathedral whose archives are among the best preserved in Europe followed by a brief discussion of the financing of several other cathedral building projects throughout Europe and of the church of St Peter s in Rome

Medievalism David Matthews,2015 An accessibly written survey of the origins and growth of the discipline of medievalism studies The field known as medievalism studies concerns the life of the Middle Ages after the Middle Ages Originating some thirty years ago it examines reinventions and reworkings of the medieval from the Reformation to postmodernity from Bale and Leland to HBO s Game of Thrones But what exactly is it An offshoot of medieval studies A version of reception studies Or a new form of cultural studies Can such a diverse field claim coherence Should it be housed in departments of English or History or should it always be interdisciplinary In responding to such questions the author traces the history of medievalism from its earliest appearances in the sixteenth century to the present day across a range of examples drawn from the spheres of literature art architecture music and more He identifies two major modes the grotesque and the romantic and focuses on key phases of the development of medievalism in Europe the Reformation the late eighteenth century and above all the period between 1815 and 1850 which he argues represents the zenith of medievalist cultural production He also contends that the 1840s were medievalism s one moment of canonicity in several European cultures at once After that medievalism became a minority form rarely marked with cultural prestige though always pervasive and influential Medievalism a Critical History scrutinises several key categories space time and selfhood and traces the impact of medievalism on each It will be the essential guide to a complex and still evolving field of inquiry David

Matthews is Professor of Medieval and Medievalism Studies at the University of Manchester **The Mirror of Divinity**

Robert Ziegler,2004-05 Using a multidisciplinary approach this book argues that the operation of art as mirror is the key to the hidden unity of Huysmans fiction The author claims that only the elimination of Huysmans stylistic distortions enabled his art finally to become faithful and clear

and Architecture after the Middle Ages explores the endurance of and nostalgia for medieval monuments through their reception in later periods specifically illuminating the myriad ways in which tangible and imaginary artifacts of the Middle Ages have served to articulate contemporary aspirations and anxieties The essays in this interdisciplinary collection examine the afterlife of medieval works through their preservation restoration appropriation and commodification in America Great Britain and across Europe from the sixteenth to the twentieth century From the evocation of metaphors and tropes to monumental projects of restoration and recreation medieval visual culture has had a tremendous purchase in the construction of political religious and cultural practices of the Modern era The authors assembled here engage a diverse spectrum of works from Irish ruins and a former Florentine prison to French churches and American department stores and an equally diverse array of media ranging from architecture and manuscripts to embroidery monumental sculpture and metalwork With applications not only to the study of art and architecture but also encompassing such varied fields as commerce city planning education literature collecting and exhibition design this copiously illustrated anthology comprises a significant contribution to the study of medieval art and medievalism

Reims on Fire Thomas W. Gaehtgens, 2018-07-10 As the site of royal coronations Reims cathedral was a monument to French national history and identity But after German troops bombed the cathedral during World War I it took on new meaning The French reimagined it as a martyr of civilization as the rupture between the warring states Despite a history of mutual respect the bombing of the cathedral caused all social scientific artistic and cultural ties between Germany and France to be severed for decades The resulting battle of words and images stressed the differences between German Kultur and French civilisation Artists and intelligentsia caricatured this entrenched cultural dichotomy influencing portrayals of the two nations in the international press This book explores the structure's breadth of meaning in symbolic art historical and historical arenas including competing claims over the origins of Gothic art and architecture as national style and issues of monument preservation and restoration It highlights how vulnerable art is during war and how the destruction of national monuments can set the tone for international conflict once again a timely and pressing issue Thomas W Gaehtgens articulates how these nations began to mend their relationship in the decades after World War II starting with the courageous vision of Charles de Gaulle and Konrad Adenauer and how the cathedral of Reims was eventually transformed into a site of reconciliation and European unification
