McLane, 2000-09-14 This study published in 2000 examines the dialogue between Romantic poetry and the human sciences of the period Maureen McLane reveals how Romantic writers participated in a new found consciousness of human beings as a species by analysing their work in relation to discourses on moral philosophy political economy and anthropology Writers such as Wordsworth Coleridge Mary Shelley and Percy Shelley explored the possibilities and limits of human being language and hope They engaged with the work of theorists of the human sciences Malthus Godwin and Burke among them The book offers original readings of canonical works including *Lyrical Ballads* *Frankenstein* and *Prometheus Unbound* to show how the Romantics internalised and transformed ideas about the imagination perfectibility immortality and population which so energised contemporary moral and political debates McLane provides a defence of poetry in both Romantic and contemporary theoretical terms reformulating the predicament of Romanticism in general and poetry in particular *The Art of Recollection in Jena Romanticism* Laurie Ruth Johnson, 2015-02-06 This exploration of Romantic depictions of memory as a faculty of body as well as of mind analyzes representations of remembrance in Jena Romantic texts When these texts pose questions about memory s employment and depiction in art about the aestheticization of recollection they reveal serious

doubt about the explanatory ability of the philosophical psychological and aesthetic discourses against which Romantic and modern thought is constructed

Romanticism Carmen Casaliggi, Porscha Fermanis, 2016-05-12 The Romantic period coincided with revolutionary transformations of traditional political and human rights discourses as well as witnessing rapid advances in technology and a primitivist return to nature As a broad global movement Romanticism strongly impacted on the literature and arts of the late eighteenth and early nineteenth centuries in ways that are still being debated and negotiated today Examining the poetry fiction non fiction drama and the arts of the period this book considers Important propositions and landmark ideas in the Romantic period Key debates and critical approaches to Romantic studies New and revisionary approaches to Romantic literature and art The ways in which Romantic writing interacts with broader trends in history politics and aesthetics European and Global Romanticism The legacies of Romanticism in the twentieth and twenty first centuries Containing useful reader friendly features such as explanatory case studies chapter summaries and suggestions for further reading this clear and engaging book is an invaluable resource for anyone who intends to study and research the complexity and diversity of the Romantic period as well as the historical conditions which produced it

At the Limits of Romanticism Mary A. Favret, Nicola J. Sexual Politics and the Romantic Author Sonia Hofkosh, 1998-06-18 Exploring a range of early nineteenth century cultural materials from canonical poetry and critical prose to women s magazines and gift book engravings Sexual Politics and the Romantic Author offers new perspectives on the role of gender in Romanticism s defining paradigms of authorship The Romantic author s claim to individual agency is complicated by its articulation in a market system perceived to be impelled in large part by fantasies of female desire by what women read and write what they buy and sell how they look and where they look for pleasure These studies in the contested public spaces of literary labour elaborate the fundamental if invisible function of the woman as embodiment of authorial ambivalence in writing by Austen Byron Coleridge William Hazlitt Sarah Hazlitt Leigh Hunt Keats Mary Shelley William Wordsworth and others

Romanticism and the Re-Invention of Modern Religion Alexander J. B. Hampton, 2019-01-17 Early German Romanticism sought to respond to a comprehensive sense of spiritual crisis that characterised the late eighteenth century The study demonstrates how the Romantics sought to bring together the new post Kantian idealist philosophy with the inheritance of the realist Platonic Christian tradition With idealism they continued to champion the individual while from Platonism they took the notion that all reality including the self participated in absolute being This insight was expressed not in the language of theology or philosophy but through aesthetics which recognised the potentiality of all creation including artistic creation to disclose the divine In explicating the religious vision of Romanticism this study offers a new historical appreciation of the movement and furthermore demonstrates its importance for our understanding of

religion today **Romanticism and Education** David Halpin, 2007-06-07 In this original book David Halpin argues that an understanding of the Romantic roots of progressive education is a necessary condition for restoring to critical consciousness some important but currently neglected basic ideas about teaching and learning ideas about the importance of imaginative experience and its promotion ideas about the high status that should be conferred on childhood ideas about the importance of love and friendship in schooling ideas about the positive role that heroism can play in making learning more effective and ideas about viewing teaching as a critical vocation These themes are pursued in separate chapters each of which is illuminated by reference to the literary and intellectual contributions of four nineteenth century English Romantic writers William Hazlitt William Wordsworth Samuel Coleridge and William Blake This well written and illuminating book will stimulate fresh thinking about pedagogic reform It will be interesting reading for those studying for Masters and Doctoral degrees in education as well as academics researchers and policy makers working in the same field
