Epic Arts in Renaissance France Phillip John Usher, 2014 Epic Arts in Renaissance France examines the relationship between art and literature in 16th century France and considers how the epic genre became public via realisations in various other art forms

Ronsard's Hymnes Philip Ford, 1997 **The Renaissance Epic and the Oral Past** Anthony Welch, 2012-11-27 This book explores why Renaissance epic poetry clung to fictions of song and oral performance in an age of growing literacy Sixteenth and seventeenth century poets Anthony Welch argues came to view their written art as newly distinct from the oral cultures of their ancestors Welch shows how the period's writers imagined lost civilizations built on speech and song from Homeric Greece and Celtic Britain to the Americas and struggled to reconcile this oral inheritance with an early modern culture of the book Welch's wide ranging study offers a new perspective on Renaissance Europe's epic literature and its troubled relationship with antiquity

Transformations of Memory and Forgetting in Sixteenth-Century France Nicolas Russell, 2011-04-29 This book proposes that in a number of French Renaissance texts produced in varying contexts and genres we observe a shift in thinking about memory and forgetting Focusing on a corpus of texts by Marguerite de Navarre Pierre de Ronsard and Michel de Montaigne it explores several parallel transformations of and challenges to traditional discourses on the human faculty of memory Throughout Classical Antiquity and the Middle Ages a number of influential authors described memory as a powerful tool used to engage important human concerns such as spirituality knowledge politics and ethics This tradition had great esteem for memory and made great efforts to cultivate it in their pedagogical programs In the early sixteenth century this attitude toward memory started to be widely questioned The invention of the printing press and the early stages of the scientific revolution changed the intellectual landscape in ways that would make memory less important in intellectual endeavors Sixteenth century writers began to question the reliability and stability of memory They became wary of this mental faculty which they portrayed as stubbornly independent mysterious unruly and uncontrollable an attitude that became the norm in modern Western thought

as is illustrated by the works of Descartes Locke Freud Proust Foucault and Nora for example Writing in this new intellectual landscape Marguerite de Navarre Ronsard and Montaigne describe memory not as a powerful tool of the intellect but rather as an uncontrollable mental faculty that mirrored the uncertainty of human life Their characterization of memory emerges from an engagement with a number of traditional ideas about memory Notwithstanding the great many differences in concerns of these writers and in the nature of their texts they react against or transform their classical and medieval models in similar ways They focus on memory's unruly side the ways that memory functions independently of the will They associate memory with the fluctuations of the body the organic soul rather than the stability of the mind the intellectual soul In their descriptions of memory these authors both reflect and contribute to a modern understanding of and attitude towards this mental faculty Published by University of Delaware Press Distributed worldwide by Rutgers University Press **An**

Introduction to 16th-century French Literature and Thought Neil Kenny, 2014-02-25 The age of Shakespeare Cervantes Erasmus Luther and Machiavelli produced in France too some of Europe's greatest ever literature and thought Montaigne's Essays Rabelais comic fictions Ronsard's poetry Calvin's theology These and numerous other extraordinary writings emerged from and contributed to cultural upheavals the movement usually known as the Renaissance which sought to revive ancient Greek and Roman culture for present day purposes religious reform including the previously unthinkable rejection of Catholicism by many in the Reformation culminating in decades of civil war in France the French language's transformation into an instrument for advanced abstract thought This book introduces this vibrant literature and thought via an apparent paradox Most writers were profoundly concerned to improve life in the here and now socially politically morally spiritually Yet they often tried to do so by making detours in their writing to other times and places antiquity heaven and hell the hidden recesses of Nature the cosmos or the future the remote location of an absent loved one the newly discovered Americas The point was to show readers that the only way to live in the here and now was to connect it to larger realities cosmic spiritual and historical **The Judgment of Palaemon** Philip Ford, 2013 In Virgil's third Eclogue Palaemon concludes the poetry competition between Menalcas and Damoetas by saying that he cannot choose between them a judgment that is emblematic of the contest between Neo Latin and vernacular poetry in Renaissance France Both forms of poetry draw on similar roots both are equally accomplished and the contest between them is largely amicable The Judgment of Palaement illustrates the almost symbiotic relationship between Renaissance Latin and French poetry while exploring poets motivation for choosing one language over another the different challenges each form of writing involved and the extent of the collaboration between different language communities It focuses on some of the major writers of the period as well as less known ones and on genres specific to humanist poetry It shows that composing in Latin was often considered more natural than writing in the vernacular at a time when many Frenchmen's mother tongue was a non standard French dialect or distinct language Book jacket

The Judgment of Palaemon Philip Ford, 2013 In Virgil's third Eclogue Palaemon concludes the poetry competition between Menalcas and Damoetas by saying that he cannot choose between them a judgment that is emblematic of the contest between Neo Latin and vernacular poetry in Renaissance France Both forms of poetry draw on similar roots both are equally accomplished and the contest between them is largely amicable The Judgment of Palaement illustrates the almost symbiotic relationship between Renaissance Latin and French poetry while exploring poets motivation for choosing one language over another the different challenges each form of writing involved and the extent of the collaboration between different language communities It focuses on some of the major writers of the period as well as less known ones and on genres specific to humanist poetry It shows that composing in Latin was often considered more natural than writing in the vernacular at a time when many Frenchmen's mother tongue was a non standard French dialect or distinct language Book jacket

Performance, Poetry and Politics on the Queen's Day Virginia Scott, Sara Sturm-Maddox, 2017-03-02 This

collaborative interdisciplinary study explores a variety of issues in theatrical and literary history that converge in two performances given at the palace of Fontainebleau on 13 February 1564 Part of the fabled F tes de Fontainebleau this carnival Sunday entertainment was produced at the behest of Catherine de M dicis and created by courtiers and artists including Pierre de Ronsard the greatest lyric poet of the French sixteenth century While focused on the text and production of Ronsard s *Bergerie* and the choice and production of the tale of Ginevra from Ariosto s *Orlando furioso* the study also examines the urgent circumstances of the festival the moment shortly after the end of the First War of Religion was critical and highly charged as well as its political program and the rhetorical strategies employed by Catherine and Ronsard to promote harmony among the opposing factions of nobles The authors exploration of the Queen s Day also leads them to consider a range of questions pertaining to Renaissance and early modern court performance practices and literary cultural traditions The book is distinctive in that it crosses disciplinary and national boundaries and in that a number of the issues it addresses have received little or no previous scholarly attention

Selected Poems Pierre Ronsard, 2002-08-29 Ronsard is considered one of France s greatest love poets yet his poetic achievements are not restricted to his verses of love wine and nature A true Renaissance figure his themes ranged from politics science and philosophy to the bawdy and risqu Using Greco Roman and Italian poetic models and drawing on the rich images of classical mythology Ronsard revolutionised the tradition of French poetry In the 20th century Ronsard s poetry was influential for W B Yeats translated by Sylvia Plath and illustrated by Henri Matisse He stands as one of the most innovative and diverse voices in the history of European poetry

Mendacity and the Figure of the Liar in Seventeenth-Century French Comedy Emilia Wilton-Godberfforde, 2017-06-14 The first book length study devoted to this topic *Mendacity and the Figure of the Liar in Seventeenth Century French Comedy* offers an important contribution to scholarship on the theatre as well as on early modern attitudes in France specifically on the subject of lying and deception Unusually for a scholarly work on seventeenth century theatre it is particularly alert to plays as performed pieces and not simply printed texts The study also distinguishes itself by offering original readings of Moli re alongside innovative analyses of other playwrights The chapters offer fresh insights on well known plays by Moli re and Pierre Corneille but also invite readers to discover lesser known works of the time by writers such as Benserade Thomas Corneille Dufresny and Rotrou Through comparative and sustained close readings including a linguistic and speech act approach a historical survey of texts with an analysis of different versions and a study of irony the reader is shown the manifest ways in which different playwrights incorporate the comedic tropes of lying and scheming confusion and unmasking Drawing particular attention to the levels of communicative or mis communicative exchanges on the character to character axis and the character to audience axis this work examines the process whereby characters in the comedies construct narratives designed to trick misdirect dazzle confuse or exploit their interlocutors In the different incarnations of seducer parasite cross dresser duplicitous narrator messenger and deluded mythomaniac the author underscores the way in which

the figure of the liar both entertains and troubles making it a fascinating subject worthy of detailed investigation
