Rorty Pragmatism The Philosopher Responds To His Critics

Silvia G. Dapía

Rorty Pragmatism The Philosopher Responds To His Critics:

Rorty & Pragmatism Richard Rorty, 1995 In *Rorty and Pragmatism* this highly influential and sometimes controversial philosopher responds to several of his most prominent critics representing a wide range of backgrounds and concerns Each of these critical challenges raises significant questions about Rorty's philosophical outlook Whether or not one agrees with all of his positions his replies are consequential They provide insight into Rorty's thought its development and his sense of the future of philosophy

Rorty and His Critics Robert Brandom, 2000-10-11 Essays written by thirteen of the most distinguished living philosophers together with Rorty's substantial replies to each and other new material by him offer by far the most thorough and thoughtful discussion of the work of the thinker who has been called the most interesting philosopher alive

Kierkegaard's Influence on Philosophy Jon Bartley Stewart, 2012 Tome III traces Kierkegaard's influence on Anglophone philosophy It has long been thought that Kierkegaard played no role in this tradition which for years was dominated by analytic philosophy In this environment it was common to dismiss Kierkegaard along with the then current European philosophers who were influenced by him However a closer look reveals that in fact there were several thinkers in the US Canada and Great Britain who were inspired by Kierkegaard even during the heyday of analytic philosophy Current thinking now suggests that Kierkegaard has made some serious inroads into mainstream Anglophone philosophy with many authors seeking inspiration in his works for current discussions concerning ethics personal identity philosophy of religion and philosophical anthropology

Humanism, Anti-Authoritarianism, and Literary Aesthetics Ulf Schulenberg, 2023-08-10 Presenting pragmatist humanism as a form of anti-authoritarianism this book sheds light on the contemporary significance of pragmatist aesthetics and the revival of humanism This interdisciplinary study shows that a mediation between pragmatist aesthetics which emphasizes the significance of creating making and inventing and Marxist materialist aesthetics which values form promises interesting results and that the former can learn from the latter In doing so Ulf Schulenberg discusses 3 layers of the multi-layered phenomenon that is the revival of humanism He first explains the potential of a pragmatist humanism clarifying the contemporary significance of humanism He then argues that pragmatist humanism is a form of anti-authoritarianism Finally he shows the possibility of bringing together the resurgence of humanism and a renewed interest in the work of aesthetic form by arguing that pragmatist aesthetics needs a more complex conception of form Establishing a transatlantic theoretical dialogue *Humanism Anti-Authoritarianism and Literary Aesthetics* brings together literary and aesthetic theory philosophy and intellectual history It discusses a broad range of authors from Emerson Whitman James Nietzsche Proust and Dewey to Wittgenstein Lukács Adorno Jameson Latour and Rorty to illuminate how humanism pragmatism and anti-authoritarianism are interlinked

Reason, Truth, and Theology in Pragmatist Perspective Paul D. Murray, 2004 In this work Paul Murray explores which style of rationality is most appropriate to Christian theology in the contemporary pluralist postfoundationalist postmodern context At its heart is a fresh consideration of the American

pragmatist tradition focussing on the writings of Richard Rorty and Nicholas Rescher Where Rorty correctly diagnoses the failures of foundationalist objectivism Rescher's pragmatic idealism is presented as healing the ills in Rorty's own neo pragmatism The significant resonance between Rescher's view of rationality and Christian understanding of the trinity is explored In turn Donald MacKinnon's influential writings are presented as exemplifying just such an approach to theology Murray both articulates an enriched form of Christian postliberalism committed to receiving and learning from other traditions of thought and practice and probes the claim that the dynamics of human rationality can be expected to reflect the Trinitarian dynamics of God's being Paul Murray presents us here with an exhaustive and insightful study of recent pragmatic theory in which he sets up rhythms of healing and completion as well as interrogation particularly remarkable is his exploration of Christianity as the deep and in some sense final interlocutor of pragmatic tradition I strongly recommend this book Olivier Davis Professor of Christian Doctrine King's College London This is a mature wide ranging work that by uniting the intellectual and the practical carries both rational and ethical conviction It does equal justice to the classic teachings of Christianity and to the challenges to rethink them in dialogue with modern and postmodern approaches The result is a conception of Christianity both generously orthodox and deeply engaged with contemporary life and thought It is especially good to see the profound contribution of Donald MacKinnon understood and developed with such perception and relevance David F Ford Regius Professor of Divinity University of Cambridge Paul Murray is currently Lecturer in Systematic Theology within the Department of Theology at the University of Durham England He has previously held posts at St Cuthbert's Seminary Ushaw College Durham and Newman College of Higher Education Birmingham Essays of his exploring issues in philosophical theology science and theology and contemporary Roman Catholic theology have appeared in leading journals and edited collections This is his first monograph

Jorge Luis Borges, Post-Analytic Philosophy, and Representation Silvia G. Dapía, 2015-08-20 Making an important contribution to studies in Literature and Philosophy this book reads Jorge Luis Borges philosophically particularly in reference to his use of representation and reality Rather than attempting to subordinate Borges to a set of philosophical constructs to reduce Borges texts to mere exemplifications or illustrations of philosophical theories the book uses Borges's short stories to demonstrate how philosophical questions related to representation develop out of literature and actually serve as precursors to the various strains of post analytic philosophy that later developed in the United States The volume discusses American post analytic philosophers Richard Rorty Hilary Putnam Donald Davidson Nelson Goodman and Arthur Danto as well as a wide ranging set of philosophical ideas including reflections on Keynes Hayek Schopenhauer and many others Chapters offer detailed readings of Borges texts extending from 1939 to 1983 locating where he thematizes issues of representation and pursuing the logic of Borges's text toward its philosophical implications without neglecting their literary value The book argues that Borges exploration of the relationship between representation and reality places him unmistakably in the position of a precursor to the post analytic

philosophers Illuminating the role that language plays in the creation of reality and representation this volume makes significant contributions not only to Borges scholarship but also post structuralism post analytic studies of language semiotics comparative literature and Latin American literature **The Oxford Handbook of Political Theory** John S Dryzek,Bonnie Honig,Anne Phillips,2008-06-12 Oxford Handbooks of Political Science are the essential guide to the state of political science today With engaging contributions from 51 major international scholars the Oxford Handbook of Political Theory provides the key point of reference for anyone working in political theory and beyond The Pragmatic Turn in Philosophy William Egginton,Mike Sandbothe,2012-02-01 The Pragmatic Turn in Philosophy explores how the various discursive strategies of old and new pragmatisms are related and what their pertinence is to the relationship between pragmatism and philosophy as a whole The contributors bridge the divide between analytic and continental philosophy through a transcontinental desire to work on common problems in a common philosophical language Irrespective of which side of the divide one stands on pragmatic philosophy has gained ascendancy over the traditional concerns of a representationalist epistemology that has determined much of the intellectual and cultural life of modernity This book details how contemporary philosophy will emerge from this recognition and that in fact this emergence is already underway

Truth: A Contemporary Reader Douglas Edwards,2019-09-05 For the first time Truth A Contemporary Reader brings together essays that have shaped two aspects of a fundamental philosophical topic the nature of truth and the value of truth Featuring 22 essays this up to date reader includes seminal work by leading figures in contemporary analytic philosophy It charts the development of the central grand proposals about the nature of truth and subsequently how their influence gradually diminished in face of new theories developed in the 20th and 21st centuries The reader also demonstrates how truth is often taken to be valuable in various ways in particular as the norm of correctness for belief and assertion and the relationship between truth and other epistemic values With introductory overviews to each group of related papers complemented by guides to further reading this reader introduces the central debates familiarizes students with the most important work in the field and covers pivotal theories of truth including correspondence theories coherentism pragmatism verificationism deflationary primitivist and pluralist theories Moreover by showing how thoughts about truth and value bear heavily on one another Truth A Contemporary Reader provides new opportunities for understanding and advancing the link between these central topics This is an essential collection for anyone studying or working in metaphysics epistemology and the philosophy of language today *Collingwood and the Metaphysics of Experience* Giuseppina D'Oro,2003-08-29 Giuseppina D Oro explores Collingwood s work in epistemology and metaphysics uncovering his importance beyond his better known work in philosophy of history and aesthetics This major contribution to our understanding of one of the most important figures in history of philosophy will be essential reading for scholars of Collingwood and all students of metaphysics and the history of philosophy
