men and the Left in post-war Britain Lucy Robinson, 2013-07-19 Available in paperback for the first time his book demonstrates how the personal became political in post war Britain and argues that attention to gay activism can help us to fundamentally rethink the nature of post war politics While the Left were fighting among themselves and the reformists were struggling with the limits of law reform gay men started organising for themselves first individually within existing organisations and later rejecting formal political structures altogether Culture performance and identity took over from economics and class struggle as gay men worked to change the world through the politics of sexuality Throughout the post war years the new cult of the teenager in the 1950s CND and the counter culture of the 1960s gay liberation feminism the Punk movement and the miners strike of 1984 all helped to build a politics of identity There is an assumption among many of today s politicians that young people are apathetic and disengaged This book argues that these politicians are looking in the wrong place People now feel that they can impact the world through the way in which they live shop have sex and organise their private lives Robinson shows that gay men and their politics have been central to this change in the post war world

When Music Migrates Jon Stratton,2016-02-17 When Music Migrates uses rich material to examine the ways that music has crossed racial faultlines that have developed in the post Second World War era as a consequence of the movement of previously colonized peoples to the countries that colonized them This development which can be thought of in terms of diaspora can also be thought of as postmodern in that it reverses the modern flow which took colonizers and sometimes

settlers from European countries to other places in the world Stratton explores the concept of song careers referring to how a song is picked up and then transformed by being revisioned by different artists and in different cultural contexts The idea of the song career extends the descriptive term cover in order to examine the transformations a song undergoes from artist to artist and cultural context to cultural context Stratton focuses on the British faultline between the post war African Caribbean settlers and the white Britons Central to the book is the question of identity For example how African Caribbean people have constructed their identity in Britain can be considered through an examination of when Police on My Back was written and how it has been revisioned by Lethal Bizzle in its most recent iteration At the same time this song written by the Guyanese migrant Eddy Grant for his mixed race group The Equals crossed the racial faultline when it was picked up by the punk rock group The Clash Conversely Johnny Reggae originally a pop ska track written about a skinhead by Jonathan King and performed by a group of studio artists whom King named The Piglets was revisioned by a Jamaican studio group called The Roosevelt Singers After this the character of Johnny Reggae takes on a life of his own and appears in tracks by Jamaican toasters as a Rastafarian Johnny s identity is then totally transformed It is this migration of music that will appeal not only to those studying popular music but
