Mapping an Empire Matthew H. Edney, 2024-05-31 In this fascinating history of the British surveys of India Matthew H Edney relates how imperial Britain used modern survey techniques to not only create and define the spatial image of its Empire but also to legitimate its colonialist activities There is much to be praised in this book It is an excellent history of how India came to be painted red in the nineteenth century But more importantly Mapping an Empire sets a new standard for books that examine a fundamental problem in the history of European imperialism D Graham Burnett Times Literary Supplement Mapping an Empire is undoubtedly a major contribution to the rapidly growing literature on science and empire and a work which deserves to stimulate a great deal of fresh thinking and informed research David Arnold Journal of Imperial and Commonwealth History This case study offers broadly applicable insights into the relationship between ideology technology and politics Carefully read this is a tale of irony about wishful thinking and the limits of knowledge Publishers Weekly

Map to Illustrate the Siamese Question, 1893

Owners of the Map Claudio Sopranzetti, 2018 On May 19 2010 the Royal Thai Army deployed tanks snipers and war weapons to disperse the thousands of Red Shirts protesters who had taken over the commercial center of Bangkok to demand democratic elections and an end to inequality Key to this mobilization were motorcycle taxi drivers who slowed down filtered and severed mobility in the area claiming a prominent role in national politics and ownership over the city and challenging state hegemony Four years later on May 20 2014 the same army general who directed the dispersal staged a military coup unopposed by protesters How could state power have been so fragile and open to challenge in 2010 and yet so seemingly sturdy only four years later How could protesters who had once fearlessly resisted military attacks now remain silent Owners of the Map provides answers to these questions central to contemporary political mobilizations around the globe through an ethnographic study of motorcycle taxi drivers in Bangkok Claudio Sopranzetti explores the unresolved tensions in the drivers everyday lives their migration trajectories consumer desires and political demands amidst the restructuring of Thai capitalism after the 1997 economic crisis Reconstructing the entanglements between their everyday mobility and political mobilization Sopranzetti reveals mobility not

just as a strength of contemporary capitalism but also as one of its fragile spots always prone to disruption by the people who sustain its channels but remain excluded from their benefits In so doing Owners of the Map advances an analysis of power that focuses not on the sturdiness of hegemony or the ubiquity of everyday resistance but on its potential fragility as well as the work needed for its maintenance Official Catalogue of Exhibitors ,1904
