Royal World Of Animals:

Royal World of Animals Beatrice Cayzer, 1990 Art for Animals J. Keri Cronin, 2018-04-09 Animal rights activists today regularly use visual imagery in their efforts to shape the public's understanding of what it means to be kind and humane toward animals. Art for Animals explores the early history of this form of advocacy through the images and the people who harnessed their power. Following in the footsteps of earlier formed organizations like the RSPCA and ASPCA, animal advocacy groups such as the Victoria Street Society for the Protection of Animals from Vivisection made significant use of visual art in literature and campaign materials. But enabled by new and improved technologies and techniques, they took the imagery much further than their predecessors did, turning toward vivid, pointed and at times graphic depictions of human-animal interactions. Keri Cronin explains why the activist community embraced this approach, details how the use of such tools played a critical role in educational and reform movements in the United States, Canada, and England, and traces their impact in public and private spaces. Far from being peripheral illustrations of points articulated in written texts or argued in impassioned speeches, these photographs, prints, paintings, exhibitions, magic lantern slides, and films were key components of animal advocacy at the time, both educating the general public and creating a sense of shared identity among the reformers. Uniquely focused on imagery from the early days of the animal rights movement and filled with striking visuals, Art for Animals sheds new light on the history and development of modern animal advocacy. Animals, Ethics and Trade Joyce D'Silva, Jacky Turner, 2012-05-16 Modern urban life cuts us off from direct connection with the animal world, yet daily the lives of millions of animals are affected by what we consume and wear and what we trade in. The use of animals for food, labour, and pleasure pursuits has long been justified with the assumption that unlike humans, animals aren't fully sentient beings. In recent years, however, science has revealed an astonishing array of complex animal behaviour, and scientists and policy makers now accept that the animals we make use of are indeed conscious with preferences and intentions. The implications for our culture of factory farming, fast food, and rainforest liquidation are staggering. In this powerful book, internationally renowned experts on animal behaviour and agriculture such as Jane Goodall, Tim Lang, and Vandana Shiva are brought together with ethicists, religious scholars, international industry, and regulators for the first time to debate these critical issues and tackle the profound implications of animal sentience. The first sections discuss scientific and ethical perspectives on the consciousness, emotions, and mental abilities of animals. Later sections address how human activities such as science, law, religion, farming, food production, trade, development, and education respect or ignore animals' sentience and welfare, and review the options for changes in our policies, our practices, and our thinking. The result is nothing less than a stark and necessary look into the heart of humanity and the ethics that govern our animal-powered society. **New Worlds, New Animals** R. J. Hoage, William A. Deiss, 1996-05-07 Illustrated with nearly 100 photographs, *New Worlds, New Animals* gives readers a new respect for and understanding of the role of zoos in social and cultural history. **Proceedings of the**

Kalof,2007-08-15 From the first cave paintings to Britta Jaschinski s provocative animal photography it seems we have been describing and portraying animals in some form or another for as long as we have been human This book provides a broad historical overview of our representations of animals from prehistory to postmodernity and how those representations have altered with changing social conditions Taking in a wide range of visual and textual materials Linda Kalof unearths many surprising and revealing examples of our depictions of animals She also examines animals in a broad sweep of literature narrative and criticism from Pliny the Elder s Natural History to Donna Haraway s writings on animal human machine interaction and from accounts of the Black Plague and histories of the domestic animal and zoos to the ways that animal stereotypes have been applied to people to highlight hierarchies of gender race and class Well researched and scholarly yet very accessible this book is a significant contribution to the human animal story Featuring more than 60 images Looking at Animals in Human History brings together a wealth of information that will appeal to the wide audience interested in animals as well as to specialists in many disciplines Linda Kalof is professor of sociology at Michigan State University Her books include The Earthscan Reader in Environmental Values and The Animals Reader The Essential Classic and Contemporary Writings

The Royal Remains Eric L. Santner,2024-05-31 The king is dead Long live the king In early modern Europe the king s body was literally sovereign and the right to rule was immediately transferrable to the next monarch in line upon the king s death In The Royal Remains Eric L Santner argues that the carnal dimension of the structures and dynamics of sovereignty hasn t disappeared from politics Instead it migrated to a new location the life of the people where something royal continues to linger in the way we obsessively track and measure the vicissitudes of our flesh Santner demonstrates the ways in which democratic societies have continued many of the rituals and practices associated with kingship in displaced distorted and usually unrecognizable forms He proposes that those strange mental activities Freud first lumped under the category of the unconscious which often manifest themselves in peculiar physical ways are really the uncanny second life of these royal remains now animated in the body politic of modern neurotic subjects Pairing Freud with Kafka Carl Schmitt with Hugo von Hofmannsthal and Ernst Kantorowicz with Rainer Maria Rilke Santner generates brilliant readings of multiple texts and traditions of thought en route to reconsidering the sovereign imaginary Ultimately The Royal Remains locates much of modernity from biopolitical controversies to modernist literary experiments in this transition from subjecthood to secular citizenship This major new work will make a bold and original contribution to discussions of politics psychoanalysis and modern art and literature

Victorian Pets and Poetry Kevin Morrison,2021-05-09 Some of the most celebrated poets of the Victorian era wrote at times movingly or humorously about their pets They did so in a wider literary context for poetry about pets was ubiquitous in the period Animal welfare organizations utilized poems about canine and feline suffering in

institutional publications to call attention to various abuses Elegies and epitaphs over the loss of a beloved cat songbird or dog were printed on funeral cards tombstones and appeared in mass produced poetry collections as well as those intended for an intimate circle of friends Yet poems about pets as well as attendant issues such as breeding and overpopulation have not received the kind of critical analysis devoted to fictional works and short stories With an introduction afterword and eight essays offering new perspectives on significant as well as lesser known poems Victorian Pets and Poetry remedies this omission *The Royal Treatment* Barbara Royal, Anastasia Royal, 2013-06-25 A natural health holistic medicine guide for your pet written by an innovative veterinarian with a background in zoo and wildlife medicine **Zoological Lectures**
