Global Perspectives on Effective Assessment in English Language Teaching Fernández Álvarez, Miguel, Montes, Amanda Lira Gordenstein, 2023-08-25 English language programs depend on the effective assessment of the measure of student proficiency for purposes of placement, advancement and completion. A variety of approaches may be adopted depending on the program, its objectives and the students it serves. Teachers and administrators in many contexts may also be required to meet institutional accountability expectations often externally imposed and related to accreditation standards. The need for appropriate and accurate assessment of student learning, whether internally sought or externally required, provides the opportunity for teachers and administrators to consider current practices, implement reforms and, because of ongoing assessment findings, improve student learning through curricular change, teacher training and modification of classroom practice. *Global Perspectives on Effective Assessment in English Language Teaching* explores approaches, models, principles and techniques related to effective assessment at the classroom and program levels. Covering topics such as language program evaluation, curriculum alignment and alternative assessment methods, this book is ideal for classroom teachers, administrators, researchers and students.
