Health Care Financing Review, 1983 Community Care Demonstrations, 1987 *Community Resources for Older Adults* Robbyn R. Wacker, Karen A. Roberto, 2007-12-17 How have programs for older adults evolved Who uses these resources How are they delivered And what challenges do service providers face in meeting the needs of the aging baby boom generation *Community Resources for Older Adults Programs and Services in an Era of Change* Third Edition answers these and other critical questions by providing a theoretical framework for understanding the forces that shape older adults likelihood to seek assistance *A Systematic Comparison of Community Care Demonstrations* Peter Kemper, 1987 **The Heart of Long Term Care** Rosalie A. Kane, Robert L. Kane, Richard C. Ladd, 1998 Long term care in the United States has taken the nursing home as its benchmark but the monetary social and psychological costs of nursing home care are all too high This book challenges the current dominance of nursing homes as the principal institution of long term care It offers a series of alternative models where both services and housing can be provided in a way that allows long term consumers to enjoy dignified normal lifestyles It addresses the political and economic consequences of making this decision The authors start with the premise that long term care is designed to assist people who lack the capacity to function fully independently They argue that no disabled person of any age should be required to forsake his her humanity in exchange for care The book rejects the artificial dichotomy between social and medical care asserting that both play important roles in psychological and physical well being of long term care patients The authors consider the need for competent and compassionate medicine and discuss the methods for improving both its coordination of care and its effectiveness The book redefines the meaning of safety and protection in long term care and how this goal can be accomplished without sacrificing quality of living As the new millennium and the aging of baby boomers approaches more creative approaches to providing better long term care are required This volume outlines a useful framework for the provision of effective and humane community based programs that are both feasible and affordable It will be an invaluable guide for geriatricians public health professionals family physicians nurses and others who care for elderly patients **Reprint - Institute for Research on Poverty** University of Wisconsin. Views and Estimates of Committees of the House (together with Supplemental and Minority Views) on the Congressional Budget for Fiscal Year ... United States. Congress. House. Committee on the Budget, 2014. Journal of Human Services Abstracts, 1982. *Health Care of the Elderly* Marilyn D. Petersen, Diana L. White, 1989-03. The literature focusing on major barriers to health care of the elderly is critically reviewed in this book. Each chapter focuses on a specific problem, examining in depth the existing information on a particular area of concern. Following an explicit and rigorous methodology known as information synthesis, contributors examine three categories of issues: elements, organization, and delivery services in the long-term care system, social support programmes for the elderly, and clinical care issues and physician education. **Matching Resources to Needs in Community Care** Bleddyn Davies, David Challis, 2018-08-09. First published in 1986. Matching Resources to Needs describes the PSSRU's community care approach and analyses the first of the community care projects, a seminal set of experiments in the care of the elderly at high risk of institutional long-term care. The experiments create field structures which provide incentives to improve efficiency, decentralised power over resources, being balanced by enhanced accountability. The first part explains the approach, analyses the causes of inefficiency in British social care, and reviews British and American evidence about the relationships between resources, recipient characteristics, and outcomes. The approach is compared with some two dozen American experiments hitherto unknown in the UK. It describes the design of the project and its evaluation. The authors then examine the experimental results. They show that cost and welfare effects are better, and the costs of outcomes are lower for recipients of community care. The third part of the book uses observational and other data to explore the relationships between structures, assumptive worlds, causal processes, and outcomes, and their costs. It also analyses the performance of the core tasks of entrepreneurial case management for types of case. The book concludes with a discussion of the broader implications of this approach to community care. **International Perspectives on State and Family Support for the Elderly** Scott Bass, Jill Norton, Robert Morris *Deceased*, 2013-12-02.
