Fitness & Nutrition Christopher Hovius, 2014-09-02 Do you ever wish you were stronger thinner

more athletic healthier Most of us would change at least one thing about ourselves if we could But real health and happiness aren't dependent on matching yourself against the unrealistic ideals of a model thin body or a pumped up body builder's bulging muscles Instead fitness and good nutrition are the two factors that can lead to physical and emotional health When you were younger your parents told you what to eat They probably encouraged you to eat the foods that would provide you with the various nutrients you needed to grow They may have also encouraged you to get regular exercise But you're older now You've begun to make your own decisions about what you eat and how active you are Learning what your body needs to be healthy is an important part of becoming a responsible adult Taking care of yourself makes sense if you want to be happy and enjoy life This book will tell you how to be the best you can be **Live and Die Like a Man** Farha
