**American Luthier** Quincy Whitney, 2016-04-12 From the time of Stradivari the mysterious craft of violinmaking has been a closely guarded lucrative and entirely masculine preserve In the 1950s Carleen Maley Hutchins was a grade school science teacher amateur trumpet player and New Jersey housewife When musical friends asked her to trade a trumpet for a 75 viola she decided to try making one thus setting in motion a surprising career A self taught genius who went head to head with a closed and ancient guild Hutchins carved nearly 500 stringed instruments over the course of half a century and collaborated on more than 100 experiments in violin acoustics In answer to a challenge from a composer she built the first violin octet a family of eight violins ranging in size from an eleven inch treble to a seven foot contrabass and in register across the gamut of the piano keyboard She wrote more than 100 technical papers including two benchmark Scientific American cover articles founded an international society devoted to violin acoustics and became the only American and the only woman to be honored in Cremona Italy the birthplace of Stradivari Hutchins died in 2009 at the age of ninety eight The most innovative violinmaker of the modern age she set out to explore two worlds she knew virtually nothing about violins and acoustical physics American Luthier chronicles the life of this unsung woman who altered everything in a world that had changed little in three centuries *American Lutherie* ,2006 The Luthier's Art, 1997 ,1997-01-01 Journal of the American Musical Instrument Society American Musical Instrument Society,1999 *American Book Publishing Record* ,1998 **Handbook of Research on Computational Arts and Creative Informatics** Braman, James,Vincenti, Giovanni,Trajkovski, Goran,2009-05-31 This book looks at the combination of art creativity and expression through the use and combination of computer science and how technology can be used creatively for self expression using different approaches Provided by publisher **The Official Vintage Guitar Magazine Price Guide** Alan Greenwood,Gil Hembree,2009-10-01 Uses market research and analysis to provide values for vintage or collectible instruments including information on more than eighteen hundred brands accompanied by eleven hundred photographs *Directory of Published Proceedings* ,2004 **New York and the International Sound of Latin Music, 1940-1990** Benjamin Lapidus,2020-12-28 New York City has long been a generative nexus for the transnational Latin music scene Currently there is no other place in the Americas where such large numbers of people from throughout the Caribbean come together to make music In this book Benjamin Lapidus seeks to recognize all of those musicians under one mighty musical sound especially those who have historically gone unnoticed Based on archival research oral histories interviews and musicological analysis Lapidus examines how interethnic collaboration among musicians composers dancers instrument builders and music teachers in New York City set a standard for the study creation performance and innovation of Latin music Musicians specializing in Spanish Caribbean music in New York cultivated a sound that was grounded in tradition including classical jazz and Spanish Caribbean folkloric music For the first time Lapidus studies this sound in detail and in its context He offers a fresh understanding of how

musicians made and formally transmitted Spanish Caribbean popular music in New York City from 1940 to 1990 Without diminishing the historical facts of segregation and racism the musicians experienced Lapidus treats music as a unifying force By giving recognition to those musicians who helped bridge the gap between cultural and musical backgrounds he recognizes the impact of entire ethnic groups who helped change music in New York The study of these individual musicians through interviews and musical transcriptions helps to characterize the specific and identifiable New York City Latin music aesthetic that has come to be emulated internationally Guitar Makers Kathryn Marie Dudley, 2014-11-10 It whispers it sings it rocks and it howls It expresses the voice of the folk the open road freedom protest and rebellion youth and love It is the acoustic guitar And over the last five decades it has become a quintessential American icon Because this musical instrument is significant to so many in ways that are emotional cultural and economic guitar making has experienced a renaissance in North America both as a popular hobby and for some a way of life In Guitar Makers Kathryn Marie Dudley introduces us to builders of artisanal guitars their place in the art world and the specialized knowledge they've developed Drawing on in depth interviews with members of the lutherie community she finds that guitar making is a social movement with political implications Guitars are not simply made they are born Artisans listen to their wood respond to its liveliness and strive to endow each instrument with an unforgettable tone Although professional luthiers work within a market society Dudley observes that their overriding sentiment is passion and love of the craft Guitar makers are not aiming for quick turnover or the low cost reproduction of commodities but the creation of singular instruments with unique qualities and face to face transactions between makers buyers and dealers are commonplace In an era when technological change has pushed skilled artisanship to the margins of the global economy and in the midst of a capitalist system that places a premium on ever faster and more efficient modes of commerce Dudley shows us how artisanal guitar makers have carved out a unique world that operates on alternative more humane and ecologically sustainable terms
