Houwink ten Cate, 2024-08-05 **Practicing Linguistic Historiography** E. F. K. Koerner, 1989-01-01 This collection contains 24 articles on the history of linguistics written between 1978 and 1988 divided into three parts 1 Methods and Models in Linguistic Historiography 2 Tradition and Transmission of Linguistic Notions 3 Schools and Scholars in the History of Linguistics Three articles are written in German two in French and one in Italian The remaining eighteen articles are in English The Nostratic Macrofamily Allan R. Bomhard, John C. Kerns, 2011-05-12 No detailed description available for The Nostratic Macrofamily Historical, Indo-European, and Lexicographical Studies Hans H. Hock, 2011-06-24 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints High quality standards are ensured through anonymous reviewing Bookseller's catalogues Thornton J. and son, 1883 *Toward Proto-Nostratic* Allan R. Bomhard, 1984-01-01 This book represents the culmination of the author's work to date it incorporates and updates previous articles and adds much new material This book is not nor was it ever intended to be a comparative grammar of either the Indo European or the Afroasiatic language families It is rather a comparison of Proto Indo European with Proto Afroasiatic While this is not the first attempt to demonstrate that Proto Indo

European and Proto Afroasiatic are genetically related it is the first to use the radical revision of the Proto Indo European consonantal system proposed by Thomas V Gamkrelidze Paul J Hopper and Vja eslav V Ivanov Moreover unlike previous endeavors this is the first to make extensive use of data from the non Semitic branches of Afroasiatic The assumptions underlying this investigation of the possibility of the common genetic origin of Proto Indo European and Proto Afroasiatic differ considerably from the assumptions made in other works on Nostratic the methodological approach followed in this monograph has been one of rigorous adherence to the time honored principles of comparative reconstruction
