Machiavellian Legacy:

Machiavelli's Legacy Timothy Fuller, 2016 Machiavelli's Legacy situates Machiavelli in general and The Prince in particular at the birth of modernity Joining the conversation with established Machiavelli scholars are political theorists Americanists and international relations scholars ensuring a diversity of viewpoints and approaches **The Machiavellian Legacy** J. Femia, 1998-10-19 What do classical elitists like Pareto and Mosca have in common with Marxists like Labriola and Gramsci In this collection of essays Joseph Femia argues that all four thinkers are united by the worldly humanism they inherited from Machiavelli Their distinctively Italian hostility to the metaphysical abstractions of natural law and Christian theology accounted for similarities in their thought that are obscured by the familiar terminology of left and right The collection includes critical essays on each of the four thinkers as well as an introductory chapter on their links with Machiavelli *Machiavelli's Legacy* Timothy Fuller, 2015-10-28 Niccolo Machiavelli's The Prince is one of the most celebrated and notorious books in the history of Western political thought It continues to influence discussions of war and peace the nature of politics and the relation of private ethics to public duties Ostensibly a sixteenth century manual of instruction on certain aspects of princely rule and behavior The Prince anticipates and complicates modern political and philosophical questions What is the right order of society Can Western politics still be the model for progress toward peace and prosperity or does our freedom to create our individual purposes and pursuits undermine our public responsibilities Are the characteristics of our politics markedly different for better or for worse than the politics of earlier eras Machiavelli argues that there is no ideal transcendent order to which one can conform and that the right order is merely the one that has the capacity to persist over time The Prince's emphasis on the importance of an effective truth over any abstract ideal marks it as one of the first works of modern political philosophy Machiavelli's Legacy situates Machiavelli in general and The Prince in particular at the birth of modernity Joining the conversation with established Machiavelli scholars are political theorists Americanists and international relations scholars ensuring a diversity of viewpoints and approaches Each contributor elucidates different features of Machiavelli's thinking from his rejection of classical antiquity and Christianity to his proposed dissolution of natural roles and hierarchies among human beings The essays cover topics such as Machiavelli's vision for a heaven sent redemptive ruler of Italy an argument that Machiavelli accomplished a profoundly democratic turn in political thought and a tough minded liberal critique of his realistic agenda for political life resulting in a book that is in effect a spirited conversation about Machiavelli's legacy Contributors Thomas E Cronin David Hendrickson Harvey Mansfield Clifford Orwin Arlene Saxonhouse Maurizio Viroli David Wootton Catherine Zuckert **Machiavelli, Marketing and Management** Phil Harris, Andrew Lock, Patricia Rees, 2025-06-30 This second fascinating and cutting edge text provides insight into the meaning and interpretation of Machiavelli and his works for management marketing and political thought and highlights their particular relevance to the manager and policymaker today By bringing together contributions from authors both

practices to this day *Machiavelliana* Michael Jackson, Damian Grace, 2018-06-05 In *Machiavelliana* Michael Jackson and Damian Grace offer a comprehensive study of the uses and abuses of Niccol Machiavelli's name in society generally and in academic fields distant from his intellectual origins. It assesses the appropriation of Machiavelli in didactic works in management, social psychology and primatology, scholarly texts in leaderships studies as well as novels, plays, commercial enterprises, television dramas, operas, rap music, Mach IV scales, children's books and more. The book audits, surveys, examines and evaluates this *Machiavelliana* against wider claims about Machiavelli. It explains the origins of Machiavelli's reputation and the spread of his fame as the foundation for the many uses and misuses of his name. They conclude by redressing the most persistent distortions of Machiavelli.

Machiavelli Miles Unger, 2012-06-12 This is an authoritative biography of Niccolò Machiavelli who changed the way we think about politics and even about human nature. He is one of the few figures in history whose name has become an adjective.

The Art of the Machiavellianist Onesimus Malatji, The Art of the Machiavellianist is an enthralling novel that centres on Joseph, a character deeply influenced by the political philosophies of Niccol Machiavelli, particularly as outlined in *The Prince*. The story begins with Joseph's early exposure to Machiavellian concepts and follows his ascent as he skilfully applies these principles in various spheres of his life. Joseph is portrayed as a complex figure with a keen understanding of human nature, navigating through challenging scenarios in politics, business and personal relationships. His journey highlights the practical application of Machiavellian tactics, ranging from subtle manipulations to overt power plays. The novel meticulously details his strategies for gaining influence, controlling outcomes and safeguarding his interests. As the plot progresses, the narrative delves into the psychological aspects of Machiavellianism, examining how traits like manipulation, moral flexibility and a focus on self-interest play out in Joseph's interactions and decisions. The story provides a rich exploration of the psychological underpinnings of this trait and its manifestation in different environments. A critical aspect of the novel is its exploration of the ethical implications of Machiavellian practices. It engages the reader in a philosophical debate over the morality of Joseph's actions, questioning whether the ends justify the means and the potential moral cost of such tactics on an individual and societal level. Through various subplots and interactions with other characters, the novel presents real-world parallels, drawing comparisons to historical and contemporary figures known for their Machiavellian tactics. These examples serve to ground Joseph's story in a broader context, offering insights into the pervasive influence of Machiavellianism in modern society. In conclusion, *The Art of the Machiavellianist* offers a comprehensive, thought-provoking examination of Machiavellianism through the lens of a captivating fictional narrative. It appeals to readers interested in psychology, philosophy, politics and the intricate dynamics of power and influence.
