**John C. Miller**

## **Odd Byways In American History:**

*Odd Byways in American History* Charles Warren, 1942      *Odd Byways in American History* Charles Warren (of the American Bar.), 1942      **Jefferson's Second Revolution** Susan Dunn, 2018-06-01 An excellent history of the tumultuous early years of American government and a constitutional crisis sparked by the Electoral College Booklist In the election of 1800 Federalist incumbent John Adams and the elitism he represented faced Republican Thomas Jefferson Jefferson defeated Adams but through a quirk in Electoral College balloting tied with his own running mate Aaron Burr A constitutional crisis ensued Congress was supposed to resolve the tie but would the Federalists hand over power peacefully to their political enemies to Jefferson and his Republicans For weeks on end nothing was certain The Federalists delayed and plotted while Republicans threatened to take up arms In a way no previous historian has done Susan Dunn illuminates this watershed moment in American history She captures its great drama gives us fresh finely drawn portraits of the founding fathers and brilliantly parses the enduring significance of the crisis The year 1800 marked the end of Federalist elitism pointed the way to peaceful power shifts cleared a place for states rights in the political landscape and set the stage for the Civil War Dunn a scholar of eighteenth century American history has provided a valuable reminder of an election in which the stakes were truly enormous and the political vituperation was far more poisonous than the relatively moderate attacks heard today An excellent work that effectively explains this critical contest that shaped the history of the new republic Booklist Dunn does a superb job of recounting the campaign its cast of characters and the election's bizarre conclusion in Congress That tense standoff could have plunged the country into a disastrous armed conflict Dunn explains but instead cemented the legitimacy of peaceful if not smooth transfers of power Publishers Weekly Dunn simultaneously teaches and enthralls with her eloquent five sensed descriptions of the people and places that shaped our democracy Entertainment Weekly      **Odd Byways in American History** Charles WARREN (of the Boston Bar.), 1942      *Widener Library Shelflist: American history* Harvard University. Library, 1967      *Colonial America and the War for Independence* US Army Military History Research Collection, Joyce L. Eakin, 1976      **The Americans: The National Experience** Daniel J. Boorstin, 2010-07-07 This second volume in The Americans trilogy deals with the crucial period of American history from the Revolution to the Civil War Here we meet the people who shaped and were shaped by the American experience the versatile New Englanders the Transients and the Boosters Winner of the Francis Parkman Prize      **Political Parties in American History: 1789-1828** Winfred E. A. Bernhard, Felice A. Bonadio, Paul L. Murphy, 1974 This three volume series of comprehensive anthologies probes the growth and evolution of American political parties through the writing of leading contemporary historians and scholars

**The Cholera Years** Charles E. Rosenberg, 2024-05-31 A history of the nineteenth century epidemic and a skillful absorbing presentation of the background and the effects of this dread disease The New York Times Cholera was the classic epidemic disease of the nineteenth century as the plague had been for the fourteenth Its defeat was a reflection not only of

progress in medical knowledge but of enduring changes in American social thought In this book Charles Rosenberg has focused his study on New York City the most highly developed center of this new society Carefully documented full of descriptive detail yet written with an urgent sense of the drama of the epidemic years this narrative is as absorbing for general audiences as it is for the medical historian In a new afterword Rosenberg also discusses changes in historical method and concerns since the original publication of *The Cholera Years* A major work of interpretation of medical and social thought I B Cohen *The New York Times* A masterful analysis Steven Shapin *Times Literary Supplement* In a way that is all too rarely done Rosenberg has skillfully interwoven medical social and intellectual history to show how medicine and society interacted and changed during the 19th century The history of medicine here takes its rightful place in the tapestry of human history John B Blake *Science* *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1972 *The Pacific Historical Review* Anna Marie Hager, 1976 *Special Bibliographic Series* US Army Military History Research Collection, 1976 *The American Senate* Neil MacNeil, Richard A. Baker, 2013-07-18 Neil MacNeil and Richard A Baker present an authoritative comprehensive single volume history of the U S Senate The two authors have observed and written about the Senate for a combined total of more than one hundred years **Thomas Jefferson and the New Nation** Merrill D. Peterson, 1986-09-11 The definitive life of Jefferson in one volume this biography relates Jefferson s private life and thought to his prominent public position and reveals the rich complexity of his development As Peterson explores the dominant themes guiding Jefferson s career democracy nationality and enlightenment and Jefferson s powerful role in shaping America he simultaneously tells the story of nation coming into being *The Publishers Weekly*, 1903 [Alexander Hamilton and the Growth of the New Nation](#) John C. Miller, 2023-01-06 Probably no American statesman displayed more constructive imagination than did Alexander Hamilton Prodigal of ideas bursting with plans for diversifying the economy and obsessed by a determination to make the United States a powerful nation under a centralized government he left an imprint upon this country that time has not effaced Alexander Hamilton and the Growth of the New Nation is the premier biography of Alexander Hamilton written by one of the foremost scholars of early American history Hamilton s career was at times contradictory born in John Adams s words the bastard brat of a Scotch peddler he rose to high social political and military position in the newly born country He dreaded divisiveness yet his strategies and actions aggravated political sectionalism Miller weaves together the complex facets of Hamilton s life to make a vivid absorbing biography **The Jefferson Lies** David Barton, 2012-04-10 America in so many ways has forgotten Its roots its purpose its identity all have become shrouded behind a veil of political correctness bent on twisting the nation s founding and its founders to fit within a misshapen modern world The time has come to remember again In *The Jefferson Lies* prominent historian David Barton sets out to correct the distorted image of a once beloved founding father Thomas Jefferson To do so Barton tackles seven myths head on including Did Thomas Jefferson really have a child by his young slave girl Sally Hemings Did he write his own Bible excluding the parts

of Christianity with which he disagreed Was he a racist who opposed civil rights and equality for black Americans Did he in his pursuit of separation of church and state advocate the secularizing public life Through Jefferson s own words and the eyewitness testimony of contemporaries Barton repaints a portrait of the man from Monticello as a visionary an innovator a man who revered Jesus a classical Renaissance man and a man whose pioneering stand for liberty and God given inalienable rights fostered a better world for this nation and its posterity For America the time to remember these truths again is now

**If This Be Treason** Jeremy Duda,2016-10-15 Treason is the only crime explicitly defined in America s Constitution Relatively few Americans have been convicted of it Far more have had the poisonous word thrown at them Through the cases of Americans who whether acting in defense of their country for personal gain or simply when society had redefined treasonous activity were accused of betraying their country though not charged with the ultimate crime against one s nation If This Be Treason tackles the complicated question of where dissent ends and betrayal begins Jeremy Duda covers the gamut of American history from the earliest days of the republic when George Logan s act of unauthorized diplomacy kept his fledgling country out of war with France but so outraged his enemies that Congress passed a law to prevent it from ever happening again to today as Edward Snowden remains an international fugitive for exposing the government s spying on its own citizens Among other examples are diplomatic envoy Nicholas Trist who betrayed his president s order to return home so he could negotiate a just treaty with a vanquished foe former congressman Clement Vallandigham who was exiled from his own country for speaking out against Lincoln s prosecution of the Civil War and Richard Nixon who scuttled a peace deal to end the war in Vietnam If this be treason make the most of it So proudly declared Patrick Henry accused of treason for opposing the Stamp Act imposed by Great Britain on its American colonies Throughout history Americans have toed the line between treason and dissent Exactly where that line is has remained difficult to ascertain But these cases serve as a fascinating way to explore and interpret where dissent ends and betrayal begins Separation of Church and State Philip HAMBURGER,2009-06-30 In a powerful challenge to conventional wisdom Philip Hamburger argues that the separation of church and state has no historical foundation in the First Amendment The detailed evidence assembled here shows that eighteenth century Americans almost never invoked this principle Although Thomas Jefferson and others retrospectively claimed that the First Amendment separated church and state separation became part of American constitutional law only much later Hamburger shows that separation became a constitutional freedom largely through fear and prejudice Jefferson supported separation out of hostility to the Federalist clergy of New England Nativist Protestants ranging from nineteenth century Know Nothings to twentieth century members of the K K K adopted the principle of separation to restrict the role of Catholics in public life Gradually these Protestants were joined by theologically liberal anti Christian secularists who hoped that separation would limit Christianity and all other distinct religions Eventually a wide range of men and women called for separation Almost all of these Americans feared ecclesiastical authority particularly that of the Catholic Church and in

response to their fears they increasingly perceived religious liberty to require a separation of church from state American religious liberty was thus redefined and even transformed In the process the First Amendment was often used as an instrument of intolerance and discrimination     *Against All Odds* Paul Porwoll,2014-02-03 The tranquility of the magnificently restored Saint Andrews Parish Church surrounded by stately oaks and ancient gravestones belies a tumultuous past If its walls could talk they would tell a story as old as the human condition Founded in the forest of a new colony this simple Anglican church served planters and their slaves during the heyday of rice and indigo Before the Civil War ministry shifted to the slaves and afterward to freed men and women Following years of decline and neglect Saint Andrews rose like the phoenix The history of the oldest surviving church south of Virginia and the only remaining colonial cruciform church in South Carolina is one of wealth and poverty acclaim and anonymity slavery and freedom war and peace quarrelling and cooperation failure and achievement It is the story of a church that has refused to die against all odds

## **Odd Byways In American History** Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has been much more apparent than ever. Its ability to stir emotions, provoke thought, and instigate transformation is really remarkable. This extraordinary book, aptly titled "**Odd Byways In American History**," compiled by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
