critiques of the 1920s machine age city are replaced in films of the 1930s and 1940s by a new critical theory of agitated urban modernity articulated against the backdrop of turbulent economic and social settings and the initial practices of urban renewal in the post war period Written for postgraduates and researchers in the fields of film history and urban studies with 40 black and white illustrations to work alongside the text this book is an engaging study into cinematic representations of New York City

Climate Fiction and Cultural Analysis Gregers Andersen, 2019-09-25 *Climate Fiction and Cultural Analysis* argues that the popularity of the term climate fiction has paradoxically exhausted the term s descriptive power and that it has developed into a black box containing all kinds of fictions which depict climatic events and has consequently lost its true significance Aware of the prospect of ecological collapse as well as our apparent inability to avert it we face geophysical changes of drastic proportions that severely challenge our ability to imagine the consequences This book argues that this crisis of imagination can be partly relieved by climate fiction which may help us comprehend the potential impact of the crisis we are facing Strictly assigning climate fiction to fictions that incorporate the climatological paradigm of anthropogenic global warming into their plots this book sets out to salvage the term s speculative quality It argues that climate fiction should be regarded as no less than a vital supplement to climate science because climate fiction makes visible and

conceivable future modes of existence within worlds not only deemed likely by science but which are scientifically anticipated Focusing primarily on English and German language fictions *Climate Fiction and Cultural Analysis* shows how Western climate fiction sketches various affective and cognitive relations to the world in its utilization of a small number of recurring imaginaries or imagination forms This book will be of great interest to students and scholars of ecocriticism the environmental humanities and literary and culture studies more generally

**Cli-Fi and Class** Debra J. Rosenthal, Jason de Lara Molesky, 2023-10-09 Since its emergence in the late twentieth century climate fiction or cli fi has concerned itself as much with economic injustice and popular revolt as with rising seas and soaring temperatures Indeed with its insistent focus on redressing social disparities cli fi might reasonably be classified as a form of protest literature As environmental crises escalate and inequality intensifies literary writers and scholars alike have increasingly scrutinized the dual exploitations of the earth's ecosystems and the socioeconomically disadvantaged *Cli Fi and Class* focuses on the representation of class dynamics in climate change narratives With fifteen essays on the intersection of the economic and the ecological addressing works ranging from the novels of Joseph Conrad Cormac McCarthy and Octavia Butler to the film *Black Panther* and the Broadway musical *Hadestown* this collection unpacks the complex ways economic exploitation impacts planetary well being and the ways climatic change shapes those inequities in turn

**Becoming Belafonte** Judith E. Smith, 2014-09-15 This biography of the singer actor and fearless anti racism activist is so engaging that readers will crave a sequel *Kirkus Reviews* A son of poor Jamaican immigrants who grew up in Depression era Harlem Harry Belafonte became the first black performer to gain artistic control over the representation of African Americans in commercial television and film Forging connections with an astonishing array of consequential players on the American scene in the decades following World War II from Paul Robeson to Ed Sullivan John Kennedy to Stokely Carmichael Belafonte established his place in American culture as a hugely popular singer matinee idol internationalist and champion of civil rights black pride and black power In *Becoming Belafonte* Judith E Smith presents the first full length interpretive study of this multitalented artist She sets Belafonte's compelling story within a history of American race relations black theater and film history McCarthy era hysteria and the challenges of introducing multifaceted black culture in a moment of expanding media possibilities and constrained political expression Smith traces Belafonte's roots in the radical politics of the 1940s his careful negotiation of the complex challenges of the Cold War 1950s and his full flowering as a civil rights advocate and internationally acclaimed performer in the 1960s In Smith's account Belafonte emerges as a relentless activist a questing intellectual and a tireless organizer and a performer who never shied away from the dangerous crossroads where art and politics meet

**I Died a Million Times** Robert Miklitsch, 2021-01-11 In the 1950s the gangster movie and film noir crisscrossed to create gangster noir Robert Miklitsch takes readers into this fascinating subgenre of films focused on crime syndicates crooked cops and capers With the Senate's organized crime hearings and the brighter than bright myth of the American Dream as a backdrop Miklitsch examines the

style and history and the production and cultural politics of classic pictures from *The Big Heat* and *The Asphalt Jungle* to lesser known gems like *711 Ocean Drive* and post Fifties movies like *Ocean's Eleven* Miklitsch pays particular attention to trademark leitmotifs including the individual versus the collective the family as a locus of dissension and rapport the real world roots of the heist picture and the syndicate as an octopus with its tentacles deep into law enforcement corporate America and government If the memes of gangster noir remain prototypically dark the look of the films becomes lighter and flatter reflecting the influence of television and the realization that under the cover of respectability crime had moved from the underworld into the mainstream of contemporary everyday life
