Odic Force Or Letters On Od Magnetism 1926:

The Odic Force Karl Von Reichenbach, 2000 Odic force is a vital energy or life force that permeates all living plants animals and humans The author was the first person to approach this force scientifically having conducted hundreds of careful experiments He worked with people who were sensitive enough to accurately detect the polarity of magnets because they could actually see it These people also saw the human aura an energy field connected to the human body plus detected an energy related color spectrum that was linked to metals and minerals This is a simplified version of a more advanced text making it perfect for those wishing to grasp the subject *Western Esotericism and the Science of Religion* International Association for the History of Religions. Congress, International Association for the History of Religions, 1998 This volume is based upon papers read during the innovative section Western Esotericism and the Science of Religion organized at the 17th International Congress of the International Association for the History of Religions IAHR in Mexico City August 5-12 1995 The section was created in order to fill a long standing hiatus in the academic study of religions whereas phenomena such as gnosticism and hermetism in antiquity and even the occult sciences of that period have long been recognized as subjects worthy of serious investigation the history of similar and related phenomena in more recent periods has hardly received the same measure of scholarly attention and recognition The present volume is devoted to the academic emancipation of these areas as constituting a legitimate domain of research which may be referred to by the generic label western esotericism Preceded by an introductory essay on the birth of this new discipline in the study of religion the volume provides a sample of current research in the field and devotes special attention to some central methodological questions **Wearable Objects and Curative Things** Dawn Woolley, Fiona Johnstone, Ellen Sampson, Paula Chambers, 2023-11-28 This book explores the intersections between wearable objects and human health with particular emphasis on how artists and designers are creatively responding to and rethinking these relations Addressing a rich range of wearable artefacts from mobility aids and prosthetics to clothing and accessories to digital health tracking devices its themes include care and cure wellness culture and the commoditization of health and the complex interactions between human bodies and non human objects With a theoretical framework inspired by the work of materialist thinkers including Sherry Turkle Bruno Latour and Jane Bennett and bringing the disciplinary fields of fashion studies art and design practice and medical and health humanities into dialogue for the first time this volume draws attention to the complex agencies entangled in the things we wear and situates fashion and art in relation to broader cultural and historical contexts of health illness and disability **Reformed Ethics : Volume 2 (Reformed Ethics)** Herman Bavinck, 2021-12-07 Herman Bavinck's four volume Reformed Dogmatics is one of the most important theological works of the twentieth century The English translation was edited by leading Bavinck expert John Bolt who now brings forth a recently discovered manuscript from Bavinck that is being published for the first time Serving as a companion to Reformed Dogmatics Reformed Ethics offers readers Bavinck's mature reflections on ethical

issues This book the second of three planned volumes covers the duties of the Christian life and includes Bavinck's exposition of the Ten Commandments
