Explainable Human-AI Interaction Sarath Sreedharan,Anagha Kulkarni,Subbarao Kambhampati,2022-05-31 From its inception artificial intelligence AI has had a rather ambivalent relationship with humans swinging between their augmentation and replacement Now as AI technologies enter our everyday lives at an ever increasing pace there is a greater need for AI systems to work synergistically with humans One critical requirement for such synergistic human AI interaction is that the AI systems behavior be explainable to the humans in the loop To do this effectively AI agents need to go beyond planning with their own models of the world and take into account the mental model of the human in the loop At a minimum AI agents need approximations of the human's task and goal models as well as the human's model of the AI agent's task and goal models The former will guide the agent to anticipate and manage

the needs desires and attention of the humans in the loop and the latter allow it to act in ways that are interpretable to humans by conforming to their mental models of it and be ready to provide customized explanations when needed The authors draw from several years of research in their lab to discuss how an AI agent can use these mental models to either conform to human expectations or change those expectations through explanatory communication While the focus of the book is on cooperative scenarios it also covers how the same mental models can be used for obfuscation and deception The book also describes several real world application systems for collaborative decision making that are based on the framework and techniques developed here Although primarily driven by the authors own research in these areas every chapter will provide ample connections to relevant research from the wider literature The technical topics covered in the book are self contained and are accessible to readers with a basic background in AI

Greek-Latin Philosophical Interaction Sten Ebbesen, 2017-05-15 Sten Ebbesen has contributed many works in the field of ancient and medieval philosophy over many decades of dedicated research His style is crisp and lucid and his philosophical penetration and exposition of often difficult concepts and issues is both clear and intellectually impressive Ashgate is proud to present this three volume set of his collected essays all of them thoroughly revised and updated Each volume is thematically arranged Volume One *Greek Latin Philosophical Interaction* explores issues of relevance to the history of logic and semantics and in particular connections and or differences between Greek and Latin theory and scholarly procedures with special emphasis on late antiquity and the Middle Ages

Harmful Interaction between the Living and the Dead in Greek Tragedy Bridget Martin, 2020-04-18 Fifth century Greek tragedy contains some of the most fascinating and important stage ghosts in Western literature whether the talkative Persian king Darius who is evoked from the Underworld in Aeschylus *Persians* or the murdered Trojan prince Polydorus who seeks burial for his exposed corpse in Euripides *Hecuba* These manifest figures can tell us a vast amount about the abilities of the tragic dead particularly in relation to the nature extent and limitations of their interaction with the living through for example ghost raising ceremonies and dreams Beyond these manifest dead tragedy presents a wealth of invisible dead whose anger and desire for revenge bubble up from the Underworld and whose honour and dishonour occupy the minds and influence the actions of the living Combining both these manifest and invisible dead this book examines harmful interaction between the living and the dead i e how the living can harm the dead and how the dead can harm the living This includes discussions on the extent to which the dead are aware of and can react to honourable or dishonourable treatment by the living the social stratification of the Underworld the consequences of corpse exposure and mutilation for both the living and the dead and how the dead can use and collaborate with avenging agents such as the gods the living and the Erinyes

Dogs and People in Social, Working, Economic or Symbolic Interaction L. Snyder, 2016-07-29 This the final title to be published from the sessions of the 2002 ICAZ conference focuses on the role of man s best friend As worker or companion the dog has enjoyed a unique relationship with its human master and the depth and variety of the papers in

this fascinating collection is a testament to the interest that this symbiotic arrangement holds for many scholars working in archaeology today The book covers an eclectic range of subjects such as considering dogs as animals of sacrifice and animal components of ancient and modern religious ritual and practice dogs as human companions subject to loving care visual symbolic representation deliberate or accidental breed manipulation as working dogs and finally as co inhabitants of human dwelling paces and co consumers of human food resources While many of the papers in this volume have a predominant focus they also demonstrate that the relationships between humans and dogs are rarely if ever singular or simple Instead these relationships are complex often combining the practical the ideological and the symbolic
