The Faltering Transition Mark Gilbert, Gianfranco Pasquino, 2000. In 1999 Italy experienced another year of political uncertainty. The centre-left coalition government was weakened by infighting throughout the year and paid a high electoral price for its failure to present a common front to the electorate. In June Silvio Berlusconi's Liberty Pole coalition won substantial victories in local elections including a symbolic triumph in Bologna, a stronghold of the Italian left. In December bickering inside his parliamentary majority forced Massimo D'Alema, the prime minister, to reshuffle his cabinet. This was the first government crisis to be handled by Carlo Azeglio Ciampi, who became the tenth President of the Republic in May 1999. In the autumn Giulio Andreotti, a seven-times prime minister, was acquitted of having colluded with the Sicilian Mafia and with having ordered the murder

Continuity and Change in Contemporary Capitalism Herbert Kitschelt, 1999-01-13. In the early 1980s many observers argued that powerful organized economic interests and social democratic parties created successful mixed economies promoting economic growth, full employment and a modicum of social equality. The present book assembles scholars with formidable expertise in the study of advanced capitalist politics and political economy to reexamine this account from the vantage point of the second half of the 1990s. The authors find that the conventional wisdom no longer adequately reflects the political and economic realities. Advanced democracies have responded in path-dependent fashion to such novel challenges as technological change, intensifying international competition, new social conflict and the erosion of established patterns of political mobilization. The book rejects, however, the currently widespread expectation that internationalization makes all democracies converge on similar political and economic institutions and power relations. Diversity among capitalist democracies persists, though in a different fashion than in the Golden Age of rapid economic growth after World War II.
