The OECD Jobs Study, 1994 The OECD Jobs Study Organisation for Economic Co-operation and Development, 1995
Employment unemployment **The OECD Jobs Study**, 1994 **Models of Capitalism** Evelyne Huber, 2002 Latin American societies have undergone fundamental changes in the past two decades moving from capitalist economies with very wide ranging state intervention to more market driven systems After a prolonged period of recession these changes produced some successes in economic growth in the 1990s but they also exacerbated many problems especially poverty and inequality *Models of Capitalism* examines why some societies with market economies perform much better than others in combining growth and equity and what the less successful countries can learn from the more successful ones The contributors look at different models of capitalism in Latin America Northeast and Southeast Asia and advanced industrial countries asking which patterns of economic and social policies governments in the more successful societies pursued and which configurations of institutions made pursuing such policies possible The investigation focuses on economic policies designed to stimulate growth on labor market policies designed to promote a qualified labor force and increase productivity and wages and on social policies designed to improve general human capital and to distribute life chances in an equitable way The volume is innovative in explicitly connecting the discussion of growth policies with an analysis of labor market and social policies and in going beyond comparison of Latin American with East Asian approaches to include reference to equity oriented policies in North America and Western Europe as well This approach helps demonstrate how important policy design is in determining distributive outcomes at any given level of development The contributors are Antonio Alas Renato Baumann Ha Joon Chang Carlos H Filgueira Fernando Filgueira Robert Grosse Thomas Janoski John Myles T J Pempel Wilson Peres David Brian Robertson John Sheahan John D Stephens Victor E Tokman and Bridget Welsh Sponsored by the Joint Committee on Latin American Studies of the Social Science Research Council and the American Council of Learned Societies "From Welfare to Work" Volker Eick, 2003 **OECD Health Policy Studies Help Wanted? Providing and Paying for Long-Term Care** Colombo Francesca, Llena-Nozal Ana, Mercier Jérôme, Tjadens Frits, 2011-05-18 This book examines the challenges countries are facing with regard to providing and paying for long term care Dimensions of Inequality in Canada David A. Green, Jonathan R. Kesselman, 2011-11-01 Is Canada becoming a more polarized society Or is it a kind hearted nation that takes care of its disadvantaged This volume closely examines these differing views through a careful analysis of the causes trends and dimensions of inequality to provide an overall assessment of the state of inequality in Canada Contributors include economists sociologists philosophers and political scientists and the discussion ranges from frameworks for thinking about inequality to original analyses using Canadian data to assessments of significant policy issues methodologies and research directions What emerges is the most detailed picture of inequality in Canada to date and disturbingly one that shows signs of us becoming a less just society An invaluable source of information for policy makers researchers and students from a broad

variety of disciplines Dimensions of Inequality in Canada will also appeal to readers interested or involved in public debates over inequality The OECD Jobs Strategy Implementing the OECD Jobs Strategy Assessing Performance and Policy

OECD,1999-09-21 This study puts the spotlight on groups at the margin of the labour market and looks at the policies required to better integrate them **From the Nation State to Europe** Anand Menon,Vincent Wright,2001-02-15 The relationship between the European Union and its member states is complex and continually evolving This book seeks to explore not only the nature of this relationship but the broader implications of European integration for the ways in which politics in Europe is studied It addresses three major questions How has European integration affected national politics and public policies To what extent has the existence of the EU challenged existing approaches to the study of national politics How appropriate is it to attempt to study the EU using the analytical tools traditionally used to study nation states The intention is to consider the impact of European integration both on the nature and the study of politics in western Europe These questions are addressed by a group of distinguished academics from both Europe and North America Their findings will be of great interest to all those interested in the European Union and in West European politics more generally

Commitment to Full Employment Aaron W. Warner,Mathew Forstater,Sumner Rosen,Robert Heilbroner,2015-05-20 The 15 papers collected in this book encompass important macroeconomic theories and policies espoused by 1996 Nobel laureate economist William S Vickrey and his associates Vickrey wrote a number of papers in the last few years of his life elucidating his commitment to full employment as a prerequisite for a decent standard of living for all Drawing on the foundation of Vickrey s work the contributors expand and elaborate on issues relative to full employment theory and policy and on related macro policy issues *From Victims of Change to Agents of Change* Martin Johnson,Joe Hallgarten,2002 Implementing

Antoni Verger,Hulya K. Altinyelken,Mario Novelli,2013-03-28 Exploring the interplay between globalization education and international development this book surveys the impact of global education policies on local policy in developing countries With chapters written by leading international scholars drawing on a full range of theoretical perspectives and offering a diverse selection of case studies from Africa Asia and South America this book considers such topics as How are global education agendas and policies formed and implemented What is the impact of such policy priorities as public private partnerships child centred pedagogies and school based management What are the effects of political and economic globalization on educational reform and change How do mediating institutions affect the translation of global policies to

particular educational contexts What are the limitations of globalised policy solutions and what problems do they encounter at local levels From students of education development and globalization to practitioners working in developing contexts this book is an important resource for those seeking to understand how global forces and local realities meet to shape education policy in the developing world **The Dynamics of Full Employment** G_nther Schmid, Bernard Gazier, 2002-01-01

Persistent unemployment is recognized as one of the main mechanisms of social and political exclusion The Dynamics of Full Employment provides a new and fresh approach to the question of full employment in contemporary society It offers an international **Institutions in Perspective** Rudolf Richter, 2006 Rudolf Richter is one of the leading pioneers in the field of the New Institutional Economics in Germany The articles in this Festschrift were written by renowned scholars from Germany and other countries In addition to general perspectives on the New Institutional Economics the Festschrift also contains articles on the theory of the firm economic contract theory on pricing and competition macroeconomics and monetary economics and on various aspects of law and economics Public Employment Services and European Law Mark

Freedland FBA, Paul Craig QC FBA, Catherine Jacqueson, Nicola Kountouris, 2007-09-27 How can the EU s community of welfare states adapt their public policies to economic globalization What happens when the economic and social aims of the EU come into conflict This book examines the developing legal regimes and regulation of public services in the UK and other European countries Public services are examined through a case study of the complex area of public employment services These are job placement and vocational training services which aim to maximize employment and minimize unemployment within EU member States Active Labour Market policies Employment services are at the centre of a complex web of rules in both hard and soft forms of law deriving from the EU national public law and from private and at times contractual agreements They also lie at the crossroads of a series of trends in regulation and priorities have been inspired by an array of conflicting policy rationales These policy rationales include the establishment of an open and competitive European internal market the establishment of an efficient welfare state the scaling down of state administrative machinery the fulfilment of core public service responsibilities and the creation of public private partnerships Public employment services provide a highly informative and novel case study of the interaction and conflict between the economic and social aims of the EU and between regulation at national and supranational levels and the changing forms which this regulation has taken

Welfare-to-Work Andreas Cebulla, 2018-01-18 There has been a major transformation in labour market policy in the United Kingdom since the mid 1990s The obligation of unemployed people to actively seek employment has been strengthened and the receipt of social security benefit has been tied to participation in active job search and job placement programmes The experience of the United States in experimenting with and implementing welfare to work programmes dating back to the early 1980s has been pivotal in shaping labour market and welfare reform programmes in the UK In this timely work the authors track the influence of US ideology and experience on New Labour s reforms They present the results

of their pioneering examination of over fifty policy experiments in the US checking whether the correct lessons were learned An interview based study of what British policy makers actually used from US experience builds upon this analysis and the book draws US and UK experiences together to understand what kind of programmes work most effectively for which groups Welfare to Work offers readers a unique combination of policy evaluation and the analysis of policy making *The Triumph of the Flexible Society* Manuel Hinds,2003-11-30 Hinds takes offers a fresh perspective on the social political and economic disturbances now affecting our world This book looks at those disturbances not as separate problems but rather as the coherent symptoms of a deep technological revolution that is changing the shape of society on the scale of the Industrial Revolution the Connectivity Revolution the basis of the New Economy Analyzing the resistance to change that erupted violently in response to that last major economic upheaval Hinds shows how Communism Nazism and fundamentalism owe their triumphs not to the prevalence of poverty or oppression but to the rigidity of societies threatened by profound social changes prompted by rapid technological progress Demonstrating that their rigidity was caused by the same kind of state intervention in the economy that is now being proposed to stop globalization he argues persuasively that only a horizontal flexible society can smoothly manage change in such a way that the pain of transformation and therefore the risk of giving birth to new varieties of destructive regimes is minimized **Fighting Unemployment** David R. Howell,2005 Critically assessing the widely accepted view that the cause of unemployment is excessive labor market regulation and overly generous welfare state benefits this book s chapters include both cross country statistical analyses and country case studies World Economic Outlook, May 1999 International Monetary Fund. Research Dept.,1999-05-28 The World Economic Outlook published twice a year in English French Spanish and Arabic presents IMF staff economists analyses of global economic developments during the near and medium term Chapters give an overview of the world economy consider issues affecting industrial countries developing countries and economies in transition to market and address topics of pressing current interest Annexes boxes charts and an extensive statistical appendix augment the text
