Dualisms Ricardo J. Quinones,2007-01-01 Dualism is a motif that runs through literature of all genres and historical contexts inspiring argumentation at the highest level and showing the formation of ideas in association as a creative exchange It arises with special pertinence in western literature since the Renaissance and Reformation In *Dualisms* noted

scholar Ricardo J Quinones considers four major intellectual encounters Erasmus and Luther Voltaire and Rousseau Turgenev and Dostoevsky and Sartre and Camus These four instances Quinones argues are important for what they are and what they represent major intellectual contests that created the modern era and remain the agons of our time Through in depth analysis this study looks at the clarifications that emerged from four famous polemics Discerning an itinerary of their encounters Quinones suggests a shared paradigm of development that is true for each of the examples of dualism In all four cases the two participants represented the vanguard of their time and all of the debates started from shared intellectual positions until subsequent events revealed substantially different temperaments It is the inescapable tension and connection between prior affinities and the discord of debate that continue to intrigue us Dualisms is a tour de force encompassing intellectual history philosophy theology and literary criticism It provides fresh perspectives on some of the most famous intellectual debates in all of literature and considers the implications that they continue to have for the study of the humanities in the modern world

Thomas Jefferson's Qur'an Denise Spellberg,2014-07-01 In this original and illuminating book Denise A Spellberg reveals a little known but crucial dimension of the story of American religious freedom a drama in which Islam played a surprising role In 1765 eleven years before composing the Declaration of Independence Thomas Jefferson bought a Qur'an This marked only the beginning of his lifelong interest in Islam and he would go on to acquire numerous books on Middle Eastern languages history and travel taking extensive notes on Islam as it relates to English common law Jefferson sought to understand Islam notwithstanding his personal disdain for the faith a sentiment prevalent among his Protestant contemporaries in England and America But unlike most of them by 1776 Jefferson could imagine Muslims as future citizens of his new country Based on groundbreaking research Spellberg compellingly recounts how a handful of the Founders Jefferson foremost among them drew upon Enlightenment ideas about the toleration of Muslims then deemed the ultimate outsiders in Western society to fashion out of what had been a purely speculative debate a practical foundation for governance in America In this way Muslims who were not even known to exist in the colonies became the imaginary outer limit for an unprecedented uniquely American religious pluralism that would also encompass the actual despised minorities

of Jews and Catholics The rancorous public dispute concerning the inclusion of Muslims for which principle Jefferson's political foes would vilify him to the end of his life thus became decisive in the Founders' ultimate judgment not to establish a Protestant nation as they might well have done As popular suspicions about Islam persist and the numbers of American Muslim citizenry grow into the millions Spellberg's revelatory understanding of this radical notion of the Founders is more urgent than ever Thomas Jefferson's Qur'an is a timely look at the ideals that existed at our country's creation and their fundamental implications for our present and future

Women Write Back Stephanie M. Hilger, 2009-01-01 *Women Write Back* explores the late eighteenth and early nineteenth century women's responses to texts written by well-known Enlightenment figures Hilger investigates the authorial strategies employed by Karoline von Gunderode, Ellis Cornelia Knight, Julie de Krudener, and Helen Maria Williams whose works engage Voltaire's Mahomet, Johnson's Rasselas, Goethe's Werther, and Rousseau's Julie The analysis of these women's texts sheds light on the literary culture of a period that deemed itself not only enlightened but also egalitarian

Islamophobia and Surveillance James Renton, 2020-06-29 The War on Terror has established a new global order of political structures, legislation, and technologies designed to spy on the world's Muslims This book explains the origins and trajectories of this political system The contributors argue that a constellation of Western ideas about Muslims have evolved over time to produce an insatiable desire for all-pervasive ever-expanding surveillance in our contemporary moment The book posits that the surveillance order is not however only the result of conceptions of Muslims It is rather the outcome of centuries of European thought regarding religion, governance, and revolution *Islamophobia and Surveillance* traverses the existential desire for wakeful vigilance, the religious wars of early modern Europe, colonial India, the Balkan frontier of the EU, and the walls of the United States-Mexico border The consequences of the new surveillance order transcend the West's Muslim Question and threaten the very existence of the liberal democratic state This book will therefore be of interest to those studying a range of subjects related to international co-operation, modern political systems, and security studies as well as Islamophobia *Islamophobia and Surveillance* was originally published as a special issue of *Ethnic and Racial Studies*

The Enlightenment Qur'an Ziad Elmarsafy, 2014-10-01 Iconoclastic and fiercely rational, the European Enlightenment witnessed the birth of modern Western society and thought Reason was sacrosanct and for the first time religious belief and institutions were open to widespread criticism In this groundbreaking book Ziad Elmarsafy challenges this accepted wisdom to argue that religion was still hugely influential in the era But the religion in question wasn't Christianity it was Islam Charting the history of Qur'anic translations in Europe during the 18th and early 19th Centuries Elmarsafy shows that a number of key enlightenment figures including Voltaire, Rousseau, Goethe, and Napoleon drew both inspiration and ideas from the Qur'an Controversially placing Islam at the heart of the European Enlightenment, this lucid and well-argued work is a valuable window into the interaction of East and West during this pivotal epoch in human history
