The Constitution and the New Deal G. Edward White,2000-12-15 In a powerful new narrative G Edward White challenges the reigning understanding of twentieth century Supreme Court decisions particularly in the New Deal period He does this by rejecting such misleading characterizations as liberal conservative and reactionary and by reexamining several key topics in constitutional law Through a close reading of sources and analysis of the minds and sensibilities of a wide array of justices including Holmes Brandeis Sutherland Butler Van Devanter and McReynolds White rediscovers the world of early twentieth century constitutional law and jurisprudence He provides a counter story to that of the triumphalist New Dealers The deep conflicts over constitutional ideas that took place in the first half of the twentieth century are sensitively recovered and the morality play of good liberals vs mossbacks is replaced This is the only thoroughly researched and fully realized history of the constitutional thought and practice of all the Supreme Court justices during the turbulent period that made America modern

*A Commonwealth of Hope* Alan Lawson,2006-07-24 Was the New Deal an aberration in American history This look at its origins and legacy is truly refreshing the author makes a good case for his ideas Journal of Economic History Did the New Deal represent the true American way or was it an aberration that would last only until the old order could reassert itself This original and thoughtful study tells the story of the New Deal explains its origins and assesses its legacy Alan Lawson explores how the circumstances of the Great Depression and the distinctive leadership of Franklin D Roosevelt combined to bring about unprecedented economic and policy reform Challenging conventional wisdom he argues that the New Deal was

not an improvised response to an unexpected crisis but the realization of a unique opportunity to put into practice Roosevelt's long developed progressive thought. Lawson focuses on where the impetus and plans for the New Deal originated, how Roosevelt and those closest to him sought to fashion a cooperative commonwealth and what happened when the impulse for collective unity was thwarted. He describes the impact of the Great Depression on the prevailing system and traces the fortunes of several major social sectors as the drive to create a cohesive plan for reconstruction unfolded. He continues the story of these main sectors through the last half of the 1930s and traces their legacy down to the present as crucial challenges to the New Deal have arisen. Drawing from a wide variety of scholarly texts, records of the Roosevelt administration, Depression era newspapers and periodicals, and biographies and reflections of the New Dealers, Lawson offers a comprehensive conceptual base for a crucial aspect of American history.

**The Triangle Fire, Protocols Of Peace** Richard Greenwald, 2011-02-07 America searched for an answer to The Labor Question during the Progressive Era in an effort to avoid the unrest and violence that flared so often in the late nineteenth and early twentieth century. In the ladies garment industry, a unique experiment in industrial democracy brought together labor, management, and the public. As Richard Greenwald explains, it was an attempt to square free market capitalism with ideals of democracy to provide a fair and just workplace. Led by Louis Brandeis, this group negotiated the Protocols of Peace. But in the midst of this experiment, 146 mostly young immigrant women died in the Triangle Factory Fire of 1911. As a result of the fire, a second interrelated experiment, New York's Factory Investigating Commission (FIC) led by Robert Wagner and Al Smith, created one of the largest reform successes of the period. The Triangle Fire, the Protocols of Peace, and Industrial Democracy in Progressive Era New York uses these linked episodes to show the increasing interdependence of labor, industry, and the state. Greenwald explains how the Protocols and the FIC best illustrate the transformation of industrial democracy and the struggle for political and economic justice.
