Of Men And Marshes:

Of Men and Marshes Paul Errington, 2012-10-15 Standing with such environmental classics as Loren Eiseley's *The Immense Journey* his friend and mentor Aldo Leopold's *A Sand County Almanac* and Joseph Wood Krutch's *The Voice of the Desert* Paul Errington's *Of Men and Marshes* remains an evocative reminder of the great beauty and intrinsic value of the glacial marshland. Prescient and stirring, steeped in insights from Errington's biological fieldwork, his experiences as a hunter and trapper, and his days exploring the marshes of his rural South Dakota childhood, this vibrant work of nature writing reveals his deep knowledge of the marshland environments he championed. Examining the marsh from a dynamic range of perspectives, Errington begins by inviting us to consider how immense spans of time coupled with profound geological events shaped the unique marshland ecosystems of the Midwest. He then follows this wetland environment across seasons and over the years, creating a compelling portrait of a natural place too little appreciated and too often destroyed. Reminding us of the intricate relationships between the marsh and the animals who call it home, Errington records his experiences with hundreds of wetland creatures. He follows minks and muskrats, snapping turtles and white pelicans, red foxes and blue-winged teals, all the while underscoring our responsibility to preserve this remarkable and fragile environment and challenging us to change the way we think about and value marshlands. This classic of twentieth-century nature writing, a landmark work that is still a joy to read, offers a stirring portrait of the Midwest's endangered glacial marshland ecosystems by one of the most influential biologists of his day. A cautionary book whose advice has not been heeded, a must-read of American environmental literature, *Of Men and Marshes* should inspire a new generation of conservationists. **Of Men and Marshes** Paul Lester Errington, 2012

Of Wilderness and Wolves
Paul L. Errington, 2015-11-15
I was a predator myself and lived close to the land. With these words Paul L. Errington begins this lost classic. Now in print for the first time, the book celebrates a key predator: the wolf. One of the most influential biologists of the twentieth century, Errington melds his expertise in wildlife biology with his love for natural beauty to create a visionary and often moving re-examination of humanity's relationship with these magnificent and frequently maligned animals. Tracing his own relationship with wolves from his rural South Dakota upbringing through his formative years as a professional trapper to his landmark work as an internationally renowned wildlife biologist, Errington delves into our irrational fear of wolves. He forthrightly criticizes what he views as humanity's prejudice against an animal that continues to serve as the very emblem of the wilderness we claim to love but that too often falls prey to our greed and ignorance. A friend of Aldo Leopold, Errington was an important figure in the conservation efforts in the first half of the twentieth century. During his lifetime, wolves were considered vicious, wantonly destructive predators. By the mid-1900s, they had been almost completely eliminated from the lower forty-eight states. Their reintroduction to their historical range today remains controversial. Lyrical yet unsentimental, *Of Wilderness and Wolves* provides a strong and still timely dose of ecological realism for the abusive mismanagement of our natural resources. It is a testament to our shortsightedness and to Errington's vision that this book, its publication so long delayed, still speaks directly to our environmental crises.

The History Of Imbanking and Drayning Of Divers Fenns and Marshes, Both in Forein Parts And In This Kingdom; And of the Improvements Thereby
William Dugdale, 1662

The Bulldozer in the Countryside
Adam Rome, 2001-04-23
The concern today about suburban sprawl is not new. In the decades after World War II, the spread of tract house construction changed the nature of millions of acres of land, and a variety of Americans began to protest against the environmental costs of suburban development. By the mid-1960s, indeed, many of the critics were attempting to institutionalize an urban land ethic. *The Bulldozer in the Countryside* was the first scholarly work to analyze the successes and failures of the varied efforts to address the environmental consequences of suburban growth from 1945 to 1970. For scholars and students of American history, the book offers a compelling insight into two of the great stories of modern times: the mass migration to the suburbs and the rise of the environmental movement. The book also offers a valuable historical perspective for participants in contemporary debates about the alternatives to sprawl.

The Prince of the Marshes
Rory Stewart, 2007-02-01
An adventurous diplomat's

engrossing and often darkly humorous memoir of working with Iraqis after the fall of Saddam Hussein Publishers Weekly In August 2003 at the age of thirty Rory Stewart took a taxi from Jordan to Baghdad A Farsi speaking British diplomat who had recently completed an epic walk from Turkey to Bangladesh he was soon appointed deputy governor of Amarah and then Nasiriyah provinces in the remote impoverished marsh regions of southern Iraq He spent the next eleven months negotiating hostage releases holding elections and splicing together some semblance of an infrastructure for a population of millions teetering on the brink of civil war The Prince of the Marshes tells the story of Stewart's year As a participant he takes us inside the occupation and beyond the Green Zone introducing us to a colorful cast of Iraqis and revealing the complexity and fragility of a society we struggle to understand By turns funny and harrowing moving and incisive it amounts to a unique portrait of heroism and the tragedy that intervention inevitably courts in the modern age *Tide Marshes of the United States* David Montgomery Nesbit, Samuel Lane Boardman, Eldridge Morse, 1885 *The Ghosts of Iraq's Marshes* Steve Lonergan, Jassim Al-Asadi, Keith Holmes, 2024-04-23 A FOREIGN AFFAIRS BEST BOOK OF 2024 The gripping history of the devastation and resurrection of the Marshes of Iraq an environmental treasure of the Middle East now a protected site The Mesopotamian Marshes in southern Iraq once the largest wetland system on the planet have been inhabited for thousands of years by the Ma dan or Marsh Arabs but they remain remote isolated and virtually unknown In the early 1990s the Saddam Hussein regime drained the Marshes and set out to destroy not only a critical ecosystem but a unique way of life as well It stands as one of the greatest environmental and humanitarian disasters of the twentieth century In the wake of the 2003 US invasion of Iraq local residents destroyed the earthen dams built to divert water from the wetlands and the Marshes were reflooded Their future however is in peril The Ghosts of Iraq's Marshes tells the history of the creation destruction and revitalization of the Marshes and their inhabitants against the backdrop of the dramatic events that have convulsed Iraq in the past fifty years It follows the life of Jassim al Asadi an irrigation engineer who was jailed and tortured under Saddam Hussein and who subsequently dedicated his life to the reflooding and restoration of the Marshes He eventually contributed to the Marshes being declared a UNESCO World Heritage site Jassim is eminently relatable and the stories of his life and other marsh dwellers are infused with pathos tragedy humor and passion **Notes and Queries**, 1875 *Wildlife Review*, 1958 *CliffsNotes on Tolkien's The Lord of the Rings & The Hobbit* Gene B Hardy, 2007-08-20 Join the journey through Middle earth in the study guide of these two epic fantasies suggestive of life in medieval days a classical battle between good and evil and the quest for a magical ring This guide covers all four volumes of this unforgettable fantasy *The History of Romney Marsh, from Its Earliest Formation to 1837. With a Glance at Its Adjacencies and Some Remarks on the Situation of the Ancient Anderida* William HOLLOWAY (of Rye, in Sussex.), 1849 **Life of George Bent** George E. Hyde, 2015-01-13 George Bent the son of William Bent one of the founders of Bent's Fort on the Arkansas near present La Junta Colorado and Owl Woman a Cheyenne began exchanging letters in 1905 with George E Hyde of Omaha concerning life at the fort his

experiences with his Cheyenne kinsmen and the events which finally led to the military suppression of the Indians on the southern Great Plains This correspondence which continued to the eve of Bent s death in 1918 is the source of the narrative here published the narrator being Bent himself Almost ninety years have elapsed since the day in 1930 when Mr Hyde found it impossible to market the finished manuscript of the Bent life down to 1866 The Depression had set in some months before He accordingly sold that portion of the manuscript to the Denver Public Library retaining his working copy which carries down to 1875 The account therefore embraces the most stirring period not only of Bent s own life but of life on the Plains and into the Rockies It has never before been published It is not often that an eyewitness of great events in the West tells his own story But Bent s narrative aside from the extent of its chronology 1826 to 1875 has very special significance as an inside view of Cheyenne life and action after the Sand Creek Massacre of 1864 which cost so many of the lives of Bent s friends and relatives It is hardly probable that we shall achieve a more authentic view of what happened as the Cheyennes Arapahos and Sioux saw it
