Of mice and magic; a history of American animated cartoons L. Maltin, 1980 *Drawing the Line* Tom Sito, 2006-10-06 Some of the most beloved characters in film and television inhabit two dimensional worlds that spring from the fertile imaginations of talented animators The movements characterizations and settings in the best animated films are as vivid as any live action film and sometimes seem more alive than life itself In this case Hollywood's marketing slogans are fitting animated stories are frequently magical leaving memories of happy endings in young and old alike However the fantasy lands animators create bear little resemblance to the conditions under which these artists work Anonymous animators routinely toiled in dark cramped working environments for long hours and low pay especially at the emergence of the art form early in the twentieth century In *Drawing the Line* veteran animator Tom Sito chronicles the efforts of generations of working men and women artists who have struggled to create a stable standard of living that is as secure as

the worlds their characters inhabit The former president of America s largest animation union Sito offers a unique insider s account of animators struggles with legendary studio kingpins such as Jack Warner and Walt Disney and their more recent battles with Michael Eisner and other Hollywood players Based on numerous archival documents personal interviews and his own experiences Sito s history of animation unions is both carefully analytical and deeply personal Drawing the Line stands as a vital corrective to this field of Hollywood history and is an important look at the animation industry s past present and future Like most elements of the modern commercial media system animation is rapidly being changed by the forces of globalization and technological innovation Yet even as pixels replace pencils and bytes replace paints the working relationship between employer and employee essentially remains the same In Drawing the Line Sito challenges the next wave of animators to heed the lessons of their predecessors by organizing and acting collectively to fight against the enormous pressures of the marketplace for their class interests and for the betterment of their art form

Leaders General Stanley McChrystal, Jeff Eggers, Jay Mangone, 2018-10-23 An instant national bestseller Stanley McChrystal the retired US Army general and bestselling author of Team of Teams profiles thirteen of history s great leaders including Walt Disney Coco Chanel and Robert E Lee to show that leadership is not what you think it is and never was Stan McChrystal served for thirty four years in the US Army rising from a second lieutenant in the 82nd Airborne Division to a four star general in command of all American and coalition forces in Afghanistan During those years he worked with countless leaders and pondered an ancient question What makes a leader great He came to realize that there is no simple answer McChrystal profiles thirteen famous leaders from a wide range of eras and fields from corporate CEOs to politicians and revolutionaries He uses their stories to explore how leadership works in practice and to challenge the myths that complicate our thinking about this critical topic With Plutarch s Lives as his model McChrystal looks at paired sets of leaders who followed unconventional paths to success For instance Walt Disney and Coco Chanel built empires in very different ways Both had public personas that sharply contrasted with how they lived in private Maximilien Robespierre helped shape the French Revolution in the eighteenth century Abu Musab al Zarqawi led the jihadist insurgency in Iraq in the twenty first We can draw surprising lessons from them about motivation and persuasion Both Boss Tweed in nineteenth century New York and Margaret Thatcher in twentieth century Britain followed unlikely roads to the top of powerful institutions Martin Luther and his future namesake Martin Luther King Jr both local clergymen emerged from modest backgrounds to lead world changing movements Finally McChrystal explores how his former hero General Robert E Lee could seemingly do everything right in his military career and yet lead the Confederate Army to a devastating defeat in the service of an immoral cause Leaders will help you take stock of your own leadership whether you re part of a small team or responsible for an entire nation

Hollywood on the Hudson Richard Koszarski, 2008 Thomas Edison invented his motion picture system in New Jersey in the 1890s and within a few years most American filmmakers could be found within a mile or two of the Hudson River They planted themselves here

because they needed the artistic and entrepreneurial energy that D W Griffith realized New York had in abundance But as the going rate for land and labor skyrocketed and their business grew more industrialized most of them moved out The way most historians explain it the role of New York in the development of American film ends here In Hollywood on the Hudson Richard Koszarski rewrites an important part of the history of American cinema During the 1920s and 1930s film industry executives had centralized the mass production of feature pictures in a series of gigantic film factories scattered across Southern California while maintaining New York as the economic and administrative center But as Koszarski reveals many writers producers and directors also continued to work here especially if their independent vision was too big for the Hollywood production line East Coast filmmakers Oscar Micheaux Rudolph Valentino Ben Hecht Charles MacArthur Paul Robeson Gloria Swanson Max Fleischer and others quietly created a studio system without back lots long term contracts or seasonal production slates They substituted newsreel photography for Hollywood glamour targeted niche audiences instead of middle American families ignored accepted dramatic conventions and pushed the boundaries of motion picture censorship Rebellious and unconventional they saw the New York studios as laboratories not factories and used them to pioneer the development of new technologies from talkies to television new genres new talent and ultimately an entirely new vision of commercial cinema *Records & Briefs* , The Edinburgh Review ,1928 Of Mice and Magic David

Farland,2022-04-20 Neglected by his mom and forgotten by his friends Ben just wants a pet but his new mouse turns up with magical powers and an attitude She changes Benjamin into a mouse like herself and forces him to join her on a reckless quest But she is not the only one with magic Ben is a familiar and so powerful other magicians are desperate to possess him including Nightwing an evil bat obsessed with world domination Now Ben finds himself caught between two mages who both want to control him His best hope is joining forces with a mouse who hates him but Nightwing needs only to divide them and Ben will never be human again You ll love this tale Ben s epic quest will make you laugh make you cry and feel like you re smiling out loud Enjoy it now David Farland once again proves himself to be a Wizard at Storytelling Publisher s Weekly on Wizardborn This excellent blend of sf and fantasy belongs in most libraries Library Journal **The Comics Journal** ,1980

Small Worlds Elliott West,Paula Petrik,1992 Thirteen essays treat children from the pre Civil War generation to 1950 as active influential participants in society The essays are organized into four topics cultural and regional variation toys and play family life and the ways evolving memories of childhood shape how adults think of themselves Doing Their Bit Michael S. Shull,David E. Wilt,1987 The golden age of animation stretched from the early 1930s to the mid1950s with movie cartoons reaching an extraordinarily high level of artistry and technique far higher than today's TV cartoons for instance Nearly 1 000 cartoons were produced by the seven major animation studios in the U S between January 1 1939 and September 30 1945 the immediate pre World War II period up to the cessation of hostilities More than a quarter of the cartoons substantially refer to the war and thereby are invaluable in helping to understand American attitudes and

Hollywood's reflection of them **Hollywood Rhapsody** Gary Marmorstein, 1997 Hollywood Rhapsody is a history of American movie music from the days of the silent movies to the maverick productions of the seventies. It tells the story of how talented if sometimes invisible musicians, composers and lyricists have created some of the most memorable music of our time. The stirring slashing music from *Psycho*, the sweeping score for *Gone with the Wind*, the swooning notes of *As Time Goes By* from *Casablanca*, these and so many more are imprinted on our cultural memory. Gary Marmorstein delves into various genres of motion pictures from cowboy pictures to pioneering animation and rock n roll to show how music has enhanced the movies. He also discusses the end of the classic era of film scoring and its impact on American music. *Hollywood Rhapsody* combines history and biography for an entertaining trip through the world of movie music. *Filmmakers*, 1979 **You're the Critic**, 1962 **The Magic Kingdom** Steven Watts, 1997 Filled with colorful sketches of life at the Disney studio and tales about the creation of Disneyland and Disney World, *The Magic Kingdom* offers the definitive biography of Walt Disney, the 20th century's most celebrated creator of popular culture. **The Art of the Animated Image** Charles Solomon, 1987
