## **Of Revelation And Revolution Vol 1 Christianity Colonialism And Consciousness In South Africa:**

**Of Revelation and Revolution, Volume 1** Jean Comaroff, John L. Comaroff, 2008-04-15 Of Revelation and Revolution is at once a highly imaginative richly detailed history of colonialism Christianity and consciousness in South Africa and a theoretically challenging consideration of the most difficult questions posed by the nature of social experience Although primarily concerned with the nineteenth and early twentieth centuries Of Revelation and Revolution also looks forward to the age of apartheid and beyond *Gaining Ground?* Deborah James, 2007-03-12 Mugabe's policy of land seizures in Zimbabwe raised concerns in South Africa Set amidst these conflicts Gaining Ground shows how land reform policy and practice in post apartheid South Africa has been produced and contested Winner of the inaugural Elliott P Skinner Book Award of the Association of Africanist Anthropology 2008 Cross-Cultural Heritage Jonas Van Mulder, Thomas Coomans, Dries Vanysacker, 2025-04-09 For centuries Christian missions have intervened in local religious communities practices and ideas across the globe generating encounters between Indigenous and Western cultures that have ranged from hostile confrontation to intercultural osmosis While primarily intended as a strategy for evangelisation forms of inculturation also led to the emergence of new hybrid cultural and religious expressions These creative processes were rarely unidirectional instead they involved reciprocal cultural transactions in which local communities exerted significant agency Cross Cultural Heritage deepens our understanding of the intricate relationships between missions and missionised communities These are reflected in the material and immaterial legacies of missionary histories in various contexts in South America Africa Asia the Pacific and Europe Often they remain deeply rooted in landscapes memories and practices today **History beyond apartheid** Thula Simpson, 2023-04-18 This edited volume encompasses a range of themes and approaches relevant to the field of South African history today as viewed from the perspective of practicing historians at the cutting edge of research in the discipline The collection features the historians offering critical reflection on the theoretical and methodological aspects of their work This involves them both looking back at the inherited historiographical tradition in the respective areas of their research while also pointing forwards to possible future directions for scholarly engagement **The Pariah Problem** Rupa Viswanath, 2014-07-29 Once known as Pariahs Dalits are primarily descendants of unfree agrarian laborers They belong to India's lowest castes face overwhelming poverty and discrimination and continue to be a source of public anxiety Drawing on a wealth of previously untapped sources this book follows the conception and evolution of the Pariah problem in public consciousness in the 1890s It shows how high caste landlords state officials and well intentioned missionaries conceived of Dalit oppression and prevented substantive solutions to the Pariah Problem with consequences that continue to be felt today The book begins with a description of the everyday lives of Dalit laborers in the 1890s and highlights the systematic efforts made by the state and Indian elites to protect Indian slavery from public scrutiny Protestant missionaries were the first non Dalits to draw attention to their plight However their vision of the Pariahs suffering as a result of Hindu religious prejudice

obscured the fact that the entire agrarian political economic system depended on Pariah labor The Indian public as well as colonial officials came to share a view compatible with missionary explanations which meant all subsequent welfare efforts directed at Dalits focused on religious and social transformation rather than on structural reform Methodologically theoretically and empirically this book breaks new ground to demonstrate how events in the early decades of state sponsored welfare directed at Dalits laid the groundwork for the present day where the postcolonial state and well meaning social and religious reformers continue to downplay Dalits landlessness violent suppression and political subordination *Violent Conversion* Linda van de Kamp, 2016 Examines Pentecostal conversion as a force of change revealing new insights into its dominant role in global Christianity today There has been an extraordinary growth in Pentecostalism in Africa with Brazilian Pentecostals establishing new transnational Christian connections initiating widespread changes not only in religious practice but in society This book describes its rise in Maputo capital of Mozambique and the sometimes dramatic impact of Pentecostalism on women Here large numbers of urban women are taking advantage of the opportunities Pentecostalism offers to overcome restrictions at home pioneer new life spaces and change their lives through the power of the Holy Spirit Yet conversion can also mean a violent rupturing with tradition with family and with social networks As the pastors encourage women to cut their ties with the past including ancestral spirits they come to see their kin and husbands as imbued with evil powers and many leave their families Conquering spheres that used to be forbidden to them they often live alone as unmarried women sometimes earning more than men of a similar age They are also expected to donate huge sums to the churches often money that they can ill afford bringing new hardships Linda van de Kamp is Assistant Professor in the Department of Sociology University of Amsterdam The Netherlands **Church, State and Society in Kenya** Galia Sabar, 2012-12-06 This volume offers a debate on the role of Christianity in post colonial Kenya charting the role of the church state and society in the transformation of Kenya and the relationship between the three It shows how the church initiated health education and economic activities showing it to be a major instrument of transformation **Mighty England Do Good** Steven S. Maughan, 2014-08 In late Victorian and Edwardian England says Steven Maughan foreign missions had a broad resonance and significance not adequately explored by historians of English culture **Mighty England Do Good** fills that lacuna by examining the rapid growth of foreign missions in the Church of England between 1850 and 1915 culminating at the height of the missionary enterprise in Britain Maughan s book bridges the gaps between religious cultural and imperial history to give a full picture of the movement s importance Maughan explores Anglicanism as a microcosm of the larger religious culture of Britain particularly in light of the expanding British empire This book provides a multidimensional reassessment of the power that foreign missions had to shape belief institutions culture and practice not only within the Church of England but also in the broader culture of the time Gender and Conversion Narratives in the Nineteenth Century Kirsten Rüther, Angelika Schaser, 2016-03-03 Addressing an important social and political issue which is

still much debated today this volume explores the connections between religious conversions and gendered identity against the backdrop of a world undergoing significant social transformations Adopting a collaborative approach to their research the authors explore the connections and differences in conversion experiences tracing the local and regional rootedness of individual conversions as reflected in conversion narratives in three different locations Germany and German missions in South Africa and colonial Australia at a time of massive social changes in the 1860s Beginning with the representation of religious experiences in so called conversion narratives the authors explore the social embeddedness of religious conversions and inquire how people related to their social surroundings and in particular to gender order and gender practices before during and after their conversion With a concluding reflective essay on comparative methods of history writing and transnational perspectives on conversion this book offers a fresh perspective on historical debates about religious change gender and social relations

**Return to Aztlan** Danna A. Levin Rojo, 2014-03-10 Long before the Spanish colonizers established it in 1598 the Kingdom of Nuevo M xico had existed as an imaginary world and not the one based on European medieval legend so often said to have driven the Spaniards ambitions in the New World What the conquistadors sought in the 1500s it seems was what the native Mesoamerican Indians who took part in north going conquest expeditions also sought a return to the Aztecs mythic land of origin Aztlan Employing long overlooked historical and anthropological evidence Danna A Levin Rojo reveals how ideas these natives held about their own past helped determine where Spanish explorers would go and what they would conquer in the northwest frontier of New Spain present day New Mexico and Arizona Return to Aztlan thus remaps an extraordinary century during which for the first time Western minds were seduced by Native American historical memories Levin Rojo recounts a transformation of an abstract geographic space the imaginary world of Aztlan into a concrete sociopolitical place Drawing on a wide variety of early maps colonial chronicles soldier reports letters and native codices she charts the gradual redefinition of native and Spanish cultural identity and shows that the Spanish saw in Nahua or Aztec civilization an equivalence to their own A deviation in European colonial naming practices provides the first clue that a transformation of Aztlan from imaginary to concrete world was taking place Nuevo M xico is the only place name from the early colonial period in which Europeans combined the adjective new with an American Indian name With this toponym Spaniards referenced both Mexico Tenochtitlan the indigenous metropolis whose destruction made possible the birth of New Spain itself and Aztlan the ancient Mexicans place of origin Levin Rojo collects additional clues as she systematically documents why and how Spaniards would take up native origin stories and make a return to Aztlan their own goal and in doing so overturns the traditional understanding of Nuevo M xico as a concept and as a territory A book in the Latin American and Caribbean Arts and Culture initiative supported by the Andrew W Mellon Foundation

*Unveiling Modernity in Twentieth-Century West African Islamic Reforms* Ousman Kobo, 2012-08-27 In this book Ousman Kobo analyzes the origins of Wahhabi inclined reform movements in two West African countries Commonly associated with recent Middle Eastern

influences reform movements in Ghana and Burkina Faso actually began during the twilight of European colonial rule in the 1950s and developed from local doctrinal contests over Islamic orthodoxy. These early movements in turn gradually evolved in ways sympathetic to Wahhabi ideas. Kobo also illustrates the modernism of this style of Islamic reform. The decisive factor for most of the movements was the alliance of secularly educated Muslim elites with Islamic scholars to promote a self-consciously modern religiosity rooted in the Prophet Muhammad's traditions. This book therefore provides a fresh understanding of the indigenous origins of Wahhabism.

**Religion** David Chidester, 2018-04-20 *Religion Material Dynamics* is a lively resource for thinking about religious materiality and the material study of religion. Deconstructing and reconstructing religion as material categories, social formations, and mobile circulations, the book explores the making, ordering, and circulating of religious things. The book is divided into three sections. Part One revitalizes basic categories: animism and sacred space and time by situating them in their material production and testing their analytical viability. Part Two examines religious formations as configurations of power that operate in material cultures and cultural economies and are most clearly shown in the power relations of colonialism and imperialism. Part Three explores the material dynamics of circulation through case studies of religious mobility, change, and diffusion as intimate as the body and as vast as the oceans. Each chapter offers insightful orientations and surprising possibilities for studying material religion. Exploring the material dynamics of religion from poetics to politics, David Chidester provides an entry into the study of material religion that will be welcomed by students and specialists in religious studies, anthropology, and history.

**Routes of Remembrance** Bayo Holsey, 2008-06 Over the past fifteen years, visitors from the African diaspora have flocked to Cape Coast and Elmina, two towns in Ghana whose chief tourist attractions are the castles and dungeons where slaves were imprisoned before embarking for the New World. This desire to commemorate the Middle Passage contrasts sharply with the silence that normally cloaks the subject within Ghana. Why do Ghanaians suppress the history of enslavement? And why is this history expressed so differently on the other side of the Atlantic? *Routes of Remembrance* tackles these questions by analyzing the slave trade's absence from public versions of coastal Ghanaian family and community histories, its troubled presentation in the country's classrooms and nationalist narratives, and its elaboration by the transnational tourism industry. Bayo Holsey discovers that in the past, African involvement in the slave trade was used by Europeans to denigrate local residents, and this stigma continues to shape the way Ghanaians imagine their historical past. Today, however, due to international attention and the curiosity of young Ghanaians, the slave trade has at last entered the public sphere, transforming it from a stigmatizing history to one that holds the potential to contest global inequalities. Holsey's study will be crucial to anyone involved in the global debate over how the slave trade endures in history and in memory.

**Living Politics in South Africa's Urban Shacklands** Kerry Ryan Chance, 2018-06-05 While much has been written on post-apartheid social movements in South Africa, most discussion centers on ideal forms of movements, disregarding the reality and agency of the activists themselves. In *Living Politics*, Kerry

Ryan Chance radically flips the conversation by focusing on the actual language and humanity of post apartheid activists rather than the external idealistic commentary of old Tracking everyday practices and interactions between poor residents and state agents in South Africa s shack settlements Chance investigates the rise of nationwide protests since the late 1990s Based on ethnography in Durban Cape Town and Johannesburg the book analyzes the criminalization of popular forms of politics that were foundational to South Africa s celebrated democratic transition Chance argues that we can best grasp the increasingly murky line between the criminal and the political with a politics of living that casts slum and state in opposition to one another Living Politics shows us how legitimate domains of politics are redefined how state sovereignty is forcibly enacted and how the production of new citizen identities crystallize at the intersections of race gender and class

**The Métis of Senegal** Hilary Jones, 2013 Examines the politics and society of an influential group of mixed race people who settled in coastal Africa under French colonialism becoming middleman traders for European merchants and ultimately power brokers against French rule

Missionary Practices on the Gold Coast, 1832-1895 , *Civilizing Women* Janice Boddy, 2018-06-05 Civilizing Women is a riveting exploration of the disparate worlds of British colonial officers and the Muslim Sudanese they sought to remake into modern imperial subjects Focusing on efforts to stop female circumcision in the Anglo Egyptian Sudan between 1920 and 1946 Janice Boddy mines colonial documents and popular culture for ethnographic details to interleave with observations from northern Sudan where women s participation in z r spirit possession rituals provided an oblique counterpoint to colonial views Written in engaging prose Civilizing Women concerns the subtle process of colonizing selfhood the British women who undertook it and those they hoped to reform It suggests that efforts to suppress female circumcision were tied to the continuation of slavery and the rise of commercial cotton growing in Sudan as well as to concerns about infant mortality and maternal health Boddy traces maneuverings among political officers teachers missionaries and medical personnel as they pursued their elusive goal and describes their fraught relations with Egypt Parliament the Foreign Office African nationalists and Western feminists In doing so she sounds

a cautionary note for contemporary interventionists who would flout local knowledge and belief      **Powerful Frequencies**
