and commentary, by Charles M. Guignon*

with a new introduction by the author

Of The Social Contract Or Principles Of Political Right And Discourse On Political Economy

Jean-Jacques Rousseau

Of The Social Contract Or Principles Of Political Right And Discourse On Political Economy:

Of the Social Contract, Or, Principles of Political Right & Discourse on Political Economy Jean-Jacques Rousseau,1984 *The Social Contract* Jean-Jacques Rousseau,1893 *The Social Contract* Jean-Jacques Rousseau,1927

The Social Contract Jean-Jacques Rousseau,1895 *The Social Contract and Discourses* Jean Rousseau,2018-05-28

The Social Contract I should do it or hold my peace As I was born a citizen of a free State and a member of the Sovereign I feel that however feeble the influence my voice can have on public affairs the right of voting on them makes it my duty to study them and I am happy when I reflect upon governments to find my inquiries always furnish me with new reasons for loving that of my own country

The Social Contract and Discourses Jean-Jacques Rousseau,1762-10-29 For the study of the great writers and thinkers of the past historical imagination is the first necessity Without mentally referring to the environment in which they lived we cannot hope to penetrate below the inessential and temporary to the absolute and permanent value of their thought Theory no less than action is subject to these necessities the form in which men cast their speculations no less than the ways in which they behave are the result of the habits of thought and action which they find around them Great men make indeed individual contributions to the knowledge of their times but they can never transcend the age in which they live The questions they try to answer will always be those their contemporaries are asking their statement of fundamental problems will always be relative to the traditional statements that have been handed down to them When they are stating what is most startlingly new they will be most likely to put it in an old fashioned form and to use the inadequate ideas and formulae of tradition to express the deeper truths towards which they are feeling their way They will be most the children of their age when they are rising most above it

The Social Contract Jean-Jacques Rousseau,1954 In 1762 Rousseau put forward a revolutionary blueprint for a just political community in his compact treatise *On the Social Contract* This work proclaims that true sovereignty resides not in kings or parliaments but in the united will of the people laying out a vision of collective self government that would echo through history Released in 1762 *On the Social Contract* was immediately banned in France and Geneva for its incendiary challenge to the established order Authorities were alarmed by Rousseau s insistence that legitimate political authority comes only from a social agreement among free citizens rather than from divine right or tradition The book nonetheless spread across Europe in clandestine editions and would become a foundational text for revolutionaries in France and beyond who drew on its vision of popular sovereignty as they reimagined the principles of government Composed in a brisk aphoristic style *On the Social Contract or Principles of Political Right* was published in 1762 under a pseudonymous Dutch imprint to evade censorship It opens with one of Rousseau s most famous declarations Man is born free and everywhere he is in chains capturing the idea that modern society has unjustly shackled human liberty In the chapters that follow Rousseau sketches how a truly just society could form itself through a social pact Each person he argues must give up their natural freedom to the community as a whole and in exchange all members receive

the protection of laws that express the collective interest The key to this arrangement is the general will Rousseau's term for the unified common interest of the people which alone can be sovereign Government ministers or rulers in his view are merely delegates tasked with carrying out this general will sovereignty itself always remains with the people Despite its brevity The Social Contract as it is commonly known became one of the most influential political works of the Enlightenment It boldly repudiated the longstanding doctrine that monarchs ruled by divine sanction instead placing ultimate authority in the hands of the governed Such ideas were extraordinarily radical for 1762 they forced Rousseau to flee into exile at the time yet within a few decades they would inspire democratic revolutions Generations of thinkers and revolutionaries have returned to Rousseau's vision of the social contract and the general will as foundations for modern democracy civic equality and the belief that citizens have the right to shape their own destiny

The Social Contract & Discourses Jean-Jacques Rousseau, 2016-09-26 The Social Contract Discourses Principles of Political Right by Jean Jacques Rousseau The Social Contract helped inspire political reforms or revolutions in Europe especially in France The Social Contract argued against the idea that monarchs were divinely empowered to legislate Rousseau asserts that only the people who are sovereign have that all powerful right The Social Contract or Of the Social Contract or Principles of Political Right by Jean Jacques Rousseau is a book in which Rousseau theorized about the best way to establish a political community in the face of the problems of commercial society which he had already identified in his Discourse on Inequality 1754 The stated aim of The Social Contract is to determine whether there can be a legitimate political authority since people's interactions he saw at his time seemed to put them in a state far worse than the good one they were at in the state of nature even though living in isolation He concludes book one chapter three with Let us then admit that force does not create right and that we are obliged to obey only legitimate powers which is to say the ability to coerce is not a legitimate power and there is no rightful duty to submit to it A state has no right to enslave a conquered people

On the Social Contract Jean-Jacques Rousseau, 2014-05-31 Long hailed as one of the most original controversial and influential works of modern political theory Jean Jacques Rousseau's On the Social Contract or Principles of Political Right 1762 sets out to address an apparently insoluble difficulty how can we organize a political community so as to guarantee its members the complete physical and emotional freedom given to them by nature while at the same time ensuring peaceful order and cooperation within the state How can we find a form of association which defends and protects with full communal force the person and the possessions of each member and in which each person by uniting with all nevertheless obeys only himself and remains as free as before Rousseau's solution to this problem offers a vision of a republican constitution in which the citizens are free because as rational beings they choose to live in a state where they all have an equal share in the sovereign power and are all equally subject to the laws established by the general will of all No matter what the form of government in order to be legitimate it must be subject to the sovereignty of the people On the Social Contract is justly famous as a collectivist response to the more individualistic

liberalism of Hobbes and Locke For Rousseau true freedom in the modern state can only be realized if the citizens as rational individuals subordinate their selfish personal desires to the laws enacted by the general will of all citizens he states in one of his best known and most paradoxical sayings must be forced to be free Only then can they realize their full potential as free moral beings

The Social Contract & Discourses Jean-Jacques Rousseau, 2021 The Social Contract originally published as *On the Social Contract or Principles of Political Right* by Jean Jacques Rousseau is a 1762 book in which Rousseau theorized about the best way to establish a political community in the face of the problems of commercial society which he had already identified in his *Discourse on Inequality* 1755 The Social Contract helped inspire political reforms or revolutions in Europe especially in France The Social Contract argued against the idea that monarchs were divinely empowered to legislate Rousseau asserts that only the people who are sovereign have that all powerful right Back cover

The social contract; or, Principles of political right, tr. with intr. and notes by H.J. Tozer Jean Jacques Rousseau, 1895

The Social Contract, Or Principles of Political Right Jean-Jacques Rousseau, 2014-07-28 His most famous and influential work The Reader's Encyclopedia Long hailed as one of the most original controversial and influential works of modern political theory Jean Jacques Rousseau's *On the Social Contract or Principles of Political Right* 1762 sets out to address an apparently insoluble difficulty how can we organize a political community so as to guarantee its members the complete physical and emotional freedom given to them by nature while at the same time ensuring peaceful order and cooperation within the state How can we find a form of association which defends and protects with full communal force the person and the possessions of each member and in which each person by uniting with all nevertheless obeys only himself and remains as free as before Rousseau's solution to this problem offers a vision of a republican constitution in which the citizens are free because as rational beings they choose to live in a state where they all have an equal share in the sovereign power and are all equally subject to the laws established by the general will of all No matter what the form of government in order to be legitimate it must be subject to the sovereignty of the people *On Social Contract* is justly famous as a collectivist response to the more individualistic liberalism of Hobbes and Locke For Rousseau true freedom in the modern state can only be realized if the citizens as rational individuals subordinate their selfish personal desires to the laws enacted by the general will of all citizens he states in one of his best known and most paradoxical sayings must be forced to be free Only then can they realize their full potential as free moral beings

The Social Contract Jean-Jacques Rousseau, 1920

The Social Contract ; Or Principles of Political Right Jean-Jacques Rousseau, 1898

The Social Contract Jean-Jacques Rousseau, 1973 In *The Social Contract* Rousseau 1712 1778 argues for the preservation of individual freedom in political society An individual can only be free under the law he says by voluntarily embracing that law as his own Hence being free in society requires each of us to subjugate our desires to the interests of all the general will

On the Social Contract Jean-Jacques Rousseau, 2018-06-20 Man is born free yet everywhere he is in chains The famous opening of Rousseau's *On the Social Contract* has resonated across the centuries In his

seminal work Rousseau argues that all government is fundamentally flawed and that modern society is based on a system that fosters inequality and servitude This new edition of On the Social Contract is a revised and updated version of the classic Cole translation presented in modern English *The social contract; or, Principles of political right, tr. with intr. and notes by H.J. Tozer* Jean Jacques Rousseau,1902 *The Social Contract* Jean-Jacques Rousseau,1947 **The Social Contract, And, Discourses** Jean-Jacques Rousseau,2012 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy The Social Contract & Discourses Jean-Jacques Rousseau,G D H (George Douglas Howard) Cole,2025-03-28 Jean Jacques Rousseau s The Social Contract Discourses remains a cornerstone of political philosophy exploring the fundamental questions of societal organization and the legitimacy of state power Rousseau delves into the concept of the social contract arguing that legitimate authority arises from the consent of the governed Within these pages Rousseau contrasts civilized society with the idealized state of nature examining the origins of inequality and the corruption of natural goodness He proposes a radical vision of a society guided by the general will where collective interest supersedes individual desires This collection presents Rousseau s seminal works on the social contract offering profound insights into the relationship between the individual and society A vital text for understanding the foundations of modern political thought and enduring debates on freedom authority and the common good This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
