Of The True Subject Of The Hermetic Art And Its Concealed Root:

A Suggestive Inquiry Into the Hermetic Mystery Mary Anne Atwood, 1918 **Hermetic Philosophy and Alchemy**
Vanessa Vassallucci, **A Suggestive Inquiry Into the Hermetic Mystery With a Dissertation on the More
Celebrated of the Alchemical Philosophers Being an Attempt Towards the Recovery of the Ancient Experiment of
Nature** Mary Anne Atwood, The Hermetic tradition opens early with the morning dawn in the eastern world All pertaining
thereto is romantic and mystical Its monuments emblems and numerous written records alike dark and enigmatical form one
of the most remarkable episodes in the history of the human mind A hard task were it indeed and almost infinite to discuss
every particular that has been presented by individuals concerning the art of Alchemy and as difficult to fix with certainty the
origin of a science which has been successively attributed to Adam Noah and his son Cham to Solomon Zoroaster and the
Egyptian Hermes Nor fortunately does this obscurity concern us much in an inquiry which rather relates to the means and
principles of occult science than to the period and place of their reputed discovery Nothing perhaps is less worthy or more
calculated to distract the mind from points of real importance than this very question of temporal origin which when we have
taken all pains to satisfy and remember leaves us no wiser in reality than we were before What signifies it for instance that
we attribute letters to Cadmus or trace oracles to Zoroaster or the kabalah to Moses the Eleusian mysteries to Orpheus or
Freemasonry to Noah whilst we are profoundly ignorant of the nature and true beginning of any one of these things and
observe not how truth being everywhere eternal does not there always originate where it is understood We do not delay
therefore to ascertain even were it possible whether the Hermetic Science was indeed preserved to mankind on the Syriadic
pillars after the flood or whether Egypt or Palestine may lay equal claims to the same or whether in truth that Smagardine
table whose singular inscription has been transmitted to this day is attributable to Hermes or to any other name It may
suffice the present need to accept the general assertion of its advocates and consider Alchemy as an antique arifice coeval for
aught we know to the contrary with the universe itself For although attempts have been made as by Herman Conringius to
slight it as a recent invention and it is also true that by a singularly envious fate nearly all Egyptian record of the art has
perished yet we find the original evidence contained in the works of A Kircher the learned Dane Olaus Borrichius and Robert
Vallensis in the first volume of the Theatrum Chemicum more than sufficient to balance every objection of this kind besides
ample collateral probability bequeathed in the best Greek Authors historical and philosophic In order to show that the
propositions we may hereafter have occasion to offer are not gratuitous as also with better effect to introduce a stranger
subject it will be requisite to run through a brief account of the Alchemical philosophers with the literature and public
evidence of their science the more so as no one of the many histories of philosophy compiled or translated into our language
advert to it in such a manner as considering the powerful and widespread influence this branch formerly exercised on the
human mind it certainly appears to deserve This once famous Art then has been represented both as giving titles and

receiving them from its mother land Cham for so during a long period according to Plutarch was Egypt denominated or Chemia on account of the extreme blackness of her soil or as others say because it was there that the art of Vulcan was first practiced by Cham one of the sons of the Patriarch from whom they thus derive the name and art together But by the word Chemia says Plutarch the seeing pupil of the human eye was also designated and other black matters whence in part perhaps Alchemy so obscurely descended has been likewise stigmatized as a Black Art Etymological research has doubtless proved useful in leading on and corroborating truths once suggested but it is not a way of first discovery derivations may be too easily conformed to any bias and words do not convey true ideas unless their proper leader be previously entertained Without being able now therefore to determine whether the art gave or received a title from Cham the Persian prince Alchimin as others have contended or that dark Egyptian earth to take a point of time we may begin the Hermetic story from Hermes by the Greeks called Trismegistus Egypt's great and far reputed adeptest king who according to Suidas lived before the time of the Pharaohs about 400 years previous to Moses or as others compute about 1900 before the Christian era
