Monsters Andrew J. Hoffman, 2019-08-06 *Monsters* explores questions about the central concept of the monstrous. Why do we create monsters? Are they animal, human, both, or neither? Which of our fears and desires do monsters embody? What can monsters tell us about our cultural and historical moments? How do we cope with the monsters that haunt our imaginations and our societies? Readings by classic poets, contemporary fiction writers, pop culture critics, philosophers, psychologists, occultists, veterinarians, ethicists, historians, and others take up these questions and more. Questions and assignments for each selection provide a range of activities for students to write about: vampires, werewolves, zombies, mermaids, serial killers, classic horror movie monsters, and more strange things that go bump in the night. The Bedford Spotlight Reader Series is an exciting line of single-theme readers, each reflecting Bedford's trademark care and quality. An editorial board of a dozen compositionists at schools with courses focusing on specific themes assists in the development of the series. Each reader collects thoughtfully chosen selections sufficient for an entire writing course, about 35 pieces, to allow instructors to provide carefully developed, high-quality instruction at an affordable price. Bedford Spotlight Readers are designed to help students from all majors make sustained inquiries from multiple perspectives, opening up topics such as borders, food, gender, happiness, humor, language, music, science, and technology, subcultures, and sustainability to critical analysis. The readers are flexibly arranged in thematic chapters, with each chapter focusing in depth on a different facet of the central topic. Instructor support at macmillanlearning.com includes sample syllabi and additional teaching resources.

Marvelous Geometry

Jessica Tiffin, 2009-04-19 *Explores self-consciousness and metafictional awareness in modern fairy tale and its expression across literary fairy tale, popular fairy tale, and fairy tale film.* In *Marvelous Geometry*, Jessica Tiffin argues that within twentieth and twenty-first century Western literature, there exists a diverse body of fairy tale texts that display a common thread of metafictional self-awareness. The narrative pattern of these texts is self-conscious, overtly structured, variously fantastical, and Tiffin argues easily recognized and interpreted by modern audiences. In this broadly comparative study, she explores contemporary fairy tale fictions found in modern literature and live action and animated film and television to explore fairy tale's ability to endlessly reinvent itself and the cultural implications of its continued relevance. Tiffin's skilled analysis draws on the critical fields of postmodernism, narratological analysis, structuralism, feminism, and performativity without relying solely on any one perspective. She considers important fairy tale retellings such as the feminist revisions of Angela Carter, the postmodern narratives of A. S. Byatt, as well as fairy tales written for children by James Thurber. She also investigates both popular and high art films, contrasting Cocteau and Neil Jordan to Hollywood romances and Disney, and analyzes the differences between animated features and live action productions. Finally, Tiffin uses a case study of the recent successful *Shrek* films to situate the fairy tale in the twenty-first century as an endlessly adaptable folk narrative that self-consciously and affectionately reflects generic structures and significant cultural assumptions. *Marvelous Geometry* covers a wide range of familiar and unfamiliar primary texts from a novel and fruitful perspective. Tiffin's focus on the metafictional

nature of the fairy tale turns readers attention to the genre s narrative structure and aesthetic qualities without ever losing sight of the fairy tale s sociocultural impact as powerful marvelous narrative Scholars of literary and fairy tale studies will enjoy Tiffin s expansive analysis Ghosts & Legends of Crawfordsville, Indiana Christopher M. Hunt,Christina L. Hunt,2023-09-18 Crawfordsville Indiana has a rich history of spiritualism and paranormal lore In the late 1800s and early 1900s mediums were trained in the city and spiritualism was preached from the street corners Spirit photography was all the rage and many flocked to town to have their photos taken with ghosts The Crawfordsville Monster caused a nationwide stir after terrorizing the town for several days and being spotted by more than 100 people Urban legends also abound in this small city including legends like the cursed chair of Oak Hill cemetery Spooky Hollow and the Old Hospital Authors Christopher and Christina Hunt share these tales and others devoted to the mysterious past and darkly thrilling secret life of the heart of Montgomery County **Our Old Monsters** Brenda S. Gardenour Walter,2015-07-22 The witch the vampire and the werewolf endure in modern horror These old monsters have their origins in Aristotle as studied in the universities of medieval Europe where Christian scholars reconciled works of natural philosophy and medicine with theological precepts They codified divine perfection as warm light male and associated with the ethereal world beyond the moon while evil imperfection was cold dark female and bound to the corrupt world below the moon All who did not conform to divine goodness including un holy women and Jews were considered evil and ascribed a melancholic blood hungry and demonic physiology This construct was the basis for anti woman and anti Jewish discourse that has persisted through modern Western culture Nowhere is this more evident than in horror films where the witch the vampire and the werewolf represent our fear of the inverted other **The Science of Monsters** Meg Hafdahl,Kelly Florence,2019-10-15 A must have for any fan of horror and fantasy movies Night of the Living Dead A Nightmare on Elm Street The Shining Stephen King and so many more If you love film that scares and want to believe that zombies vampires and other deadly and terrifying creatures could be real let Meg Hafdahl and Kelly Florence the women behind the Horror Rewind podcast called the best horror film podcast out there by Film Daddy take you to the world where horror and science meet How would a zombie really decompose in Night of the Living Dead Are there instances of shape shifting in nature like in The Wolf Man What is the science behind the night terrors that inspired the creation of Freddy Krueger Is there scientific data supporting ghost detection like the tools used in Poltergeist What is the psychological drive that compels cannibals like Hannibal Lecter How does modern medicine and therapy differ from what would have been offered to Norman Bates in 1960 How are subliminal messages related to propaganda or brainwashing like in The Ring What would the scientific explanation be for witches possessing people like in Carrie Was The Blair Witch Project based on any real or imagined creature that came before And so much more Gothic media moguls Meg Hafdahl and Kelly Florence revisit the films from their childhood to discover the science behind the fear Join Kelly and Meg as they unravel the medical mysteries and scientific marvels that inspired the creation of famous monsters like

Nosferatu Norman Bates Dracula Frankenstein and many more An approachable and frightfully fun examination of what goes bump in the night The Science of Monsters will thrill every horror fan
