Richard W. Wetherill, 2009-08-26 Unchain Your Brain Release Illogical Thoughts If you have problems you cannot seem to solve or relationships you cannot seem to work out you should get this book People unknowingly lock their brains in chains As Wetherill makes clear in HOW TO SOLVE PROBLEMS AND PREVENT TROUBLE people's behavioral problems are caused by their emotionally charged commands to themselves You can unthink your way out of problems Introduction Whosoever looketh on a woman to lust after her hath committed adultery with her already in his heart Those words are often quoted but seldom understood What they mean is that we think our way into trouble Most of us are proud of our brainpower but we are not proud of our ability to get into trouble That is something we do inadvertently until we understand The process by which we do it is extremely subtle Lust for example is an emotion that has the effect of driving a person in a wrong direction while reducing his intelligence He is busy with consideration of what he wants Therefore he does not realize what he is doing to his mind As everybody who understands the law of absolute right is aware he is installing distortions of logic What is a distortion of logic It is a wrong idea accepted as a right idea an untruth accepted as a truth an emotional command to self Once installed it operates as if by compulsion If ever I get the chance a young person might say to himself I'll certainly take advantage of it He or she may suppose he is engaged in harmless but pleasant reverie instead he is moving into a mental trap He may assert that by today's standards sexuality is no sin and he may argue that fantasizing about it has no really harmful effects but such considerations are beside the point The point is that he has deprived himself of volition on that topic
