Confluence and Conflict Brian Hurley, 2023-12-04 Writers and intellectuals in modern Japan have long forged dialogues across the boundaries separating the spheres of literature and thought This book explores some of their most intellectually and aesthetically provocative connections in the volatile transwar years of the 1920s to 1950s Reading philosophical texts alongside literary writings the study links the intellectual side of literature to the literary dimensions of thought in contexts ranging from middlebrow writing to avant garde modernism and from the wartime left to the postwar right Chapters trace these dynamics through the novelist Tanizaki Jun ichir s collaboration with the nativist linguist Yamada Yoshio on a modern translation of The Tale of Genji the modernist writer Yokomitsu Riichi s dialogue with Kyoto School philosophers around the question of worldliness the Marxist poet Nakano Shigeharu s and the philosopher Tosaka Jun s thinking about prosaic everyday language and the postwar rumination on liberal society that surrounded the scholar Edwin McClellan while he translated Natsume S seki s classic 1914 novel Kokoro as a graduate student in the United States working with the famed economist Friedrich Hayek Revealing unexpected

intersections of literature ideas and politics in a global transwar context the book concludes by turning to Murakami Haruki and the resonances of those intersections in a time closer to our own *Routledge Handbook of Modern Japanese Literature* Rachael Hutchinson, Leith Douglas Morton, 2025-08-29 This 2nd edition of the Routledge Handbook of Modern Japanese Literature provides a comprehensive survey of the field of modern Japanese literature and gives readers an overview of how we study Japanese literature today Including sections on space and time gender and sexuality politics war memory national and colonial identities and the production and dissemination of literature the Handbook examines the ways in which it is possible to read modern Japanese literature and situate it in relation to critical theory It also features updated and brand new chapters addressing the works of internationally renowned writers such as Futabatei Shimei and Murakami Haruki and defines the way writers produce literature in modern Japan as well as how those works have been read and understood by different readers in different time periods Written by an international team of experts the Handbook examines modes of literary production such as fiction poetry and critical essays as distinct forms of expression that nonetheless are closely interrelated and as such it will be a vital resource for students and scholars of Japanese Literature literature in translation and modern and contemporary literature **National Culture and the New Global System** Frederick Buell, 1994-09 The three worlds theory is perhaps still the basis for our dominant assumptions about geopolitical and geocultural order writes Frederick Buell but its hold on our imagination and faith is passing fast In its place a startlingly different model the notion that the world is somehow interconnected into a single system has emerged expressing the perception that global relationships constitute not three separate worlds but a single network In the wake of disillusionment with anticolonial nationalism and in response to a wide variety of economic political demographic and technological changes Buell argues we have come increasingly to view the world as complexly interconnected In *National Culture and the New Global System* he considers how the notion of national culture has been conceived and reconceived in the postwar period For much of the period the three world theory provided economic political and cultural models for mapping a world of nation states More recently new notions of interconnectedness have been developed ones that have had profound and sometimes startling effects on cultural production and theory Surveying recent cultural history and theory Buell shows how our understanding of cultural production relates closely to transformations in models of the world order **The Woman's Hand** Paul Gordon Schalow, Janet A. Walker, 1996 This volume has a dual purpose It aims to define the state of Japanese literary studies in the field of women's writing and to present cross cultural interpretations of Japanese material of relevance to contemporary work in gender studies and comparative literature *Japan's Open Future* John Haffner, Tomas Casas i Klett, Jean-Pierre Lehmann, 2009-03-01 In the fast changing modern world where does Japan fit in and how should it relate to the United States and China Three foreign commentators make a provocative and persuasive argument that the time has come for Japan to help build a stronger Asian community and to become an engaged and conscientious global citizen **Postcolonialism** Diana

Denis Jonnes,2014-09-04 Demands placed on many young Americans as a result of the Cold War give rise to an increasingly age segregated society This separation allowed adolescents and young adults to begin to formulate an identity distinct from previous generations and was a significant factor in their widespread rejection of contemporary American society This study traces the emergence of a distinctive post war family dynamic between parent and adolescent or already adult child In depth readings of individual writers such as Arthur Miller William Styron J D Salinger Tennessee Williams Vladimir Nabokov Jack Kerouac Flannery O Connor and Sylvia Plath situate their work in relation to the Cold War and suggest how the figuring of adolescents and young people reflected and contributed to an empowerment of American youth This book is a superb research tool for any student or academic with an interest in youth culture cultural studies American studies cold war studies twentieth century American literature history of the family and age studies Redacted Jonathan E. Abel,2012-08-18 This study examines the contradictory relationships between preservation production and redaction to shed light on the dark valley attributed to wartime culture and to cast a shadow on the supposedly bright open space of free postwar discourse

The Renaissance of Takefu Guven Peter Witteveen,2004-05-05 This book tells the story of a citizen group through the example and results of their participation in local civic life The book draws attention to the complicated conditions under which civic participation may succeed The story is about the individuals and organizations in the regional Japanese town of Takefu but these events are also placed in the context of the surrounding Japanese Sea region of west Japan and the wider currents of the Japanese nation state at the time Also includes maps *Americanism and Americanization* Mel van Elteren,2006-09-28 With the current state of foreign affairs the terms Americanism and Americanization sometimes take on an unexpected and an unflattering connotation Americanism essentially involves values beliefs ideals goods and practices in local settings outside the United States that are in some way related or attributed to American influence While the validity of this influence may be under scrutiny it requires a detailed historical and sometimes cultural analysis to understand all the dynamics and implications of Americanization A variety of factors contributes to this influence including the preoccupation and reception of the relevant culture itself For instance many European countries have at times demonstrated a preoccupation with all things American which was not necessarily swayed by any action of America itself The overall actualization of Americanization however encompasses a number of societal dimensions including power differentials in the exchange processes concerned Informed by a history of relevant developments since the early nineteenth century this volume presents an in depth critical analysis of the Americanization process Beginning with a survey of early European preoccupations with things American the book goes on to discuss European concerns regarding American influence after

World War II The work then looks at Americanism and its influence within the United States itself especially regarding developments during the New Deal and beyond The primary goal of the analysis is the construction of an interpretative framework allowing for a more balanced approach to the study of Americanism abroad Written from a critical social emancipatory perspective the author s approach blends economic military social political cultural and psychological dimensions as well as an examination of the ways in which these areas interact Finally Americanism is examined as part of a U S style corporate globalization at the current juncture Instructors considering this book for use in a course may request an examination copy here

Beyond Hostile Islands Daniel McKay, 2024-04-02 WINNER JAVIER COY BIENNIAL RESEARCH AWARD BEST MONOGRAPH Offers a fascinating window into how the fraught politics of apology in the East Asian region have been figured in anglophone literary fiction The Pacific War 1941 1945 was fought across the world s largest ocean and left a lasting imprint on anglophone literary history However studies of that imprint or of individual authors have focused on American literature without drawing connections to parallel traditions elsewhere *Beyond Hostile Islands* contributes to ongoing efforts by Australasian scholars to place their national cultures in conversation with those of the United States particularly regarding studies of the ideologies that legitimize warfare Consecutively the book examines five of the most significant historical and thematic areas associated with the war island combat economic competition internment imprisonment and the atomic bombing of Hiroshima and Nagasaki Throughout the central issue pivots around the question of how or whether at all New Zealand fiction writing differs from that of the United States Can a sense of islandness the tyranny of distance Mori cultural heritage or the political legacies of the nuclear free movement provide grounds for distinctive authorial insights As an opening gambit *Beyond Hostile Islands* puts forward the term ideological coproduction to describe how a territorially and demographically more minor national culture may accede to the essentials of a given ideology while differing in aspects that reflect historical and provincial dimensions that are important to it Appropriately the literary texts under examination are set

in various locales including Japan the Solomon Islands New Zealand New Mexico Ontario and the Marshall Islands The book concludes in a deliberately open ended pose with the full expectation that literary writing on the Pacific War will grow in range and richness aided by the growth of Pacific Studies as a research area
