Everest ,2003 An illustrated history of 50 years of mountaineering on Mount Everest with photographs from the collection of the Royal Geographic Society Fallen Mick Conefrey, 2024-05-07 An authoritative myth piercing study of the world famous explorer George Mallory who disappeared on Mount Everest in 1924 In the years following his disappearance near the summit of Mount Everest in June 1924 at the age of thirty seven George Mallory was elevated into a legendary international hero Dubbed the Galahad of Everest he was lionized by the media as the greatest mountaineer of his generation a man who had died while taking the ultimate challenge His body was only recovered in 1999 and there is still speculation about whether he made it to the summit Handsome charismatic and daring Mallory was a skilled public speaker athlete technically gifted climber a committed Socialist and a supremely attractive figure to both men and women His friends ranged from the gay artists and writers of the Bloomsbury group to the best mountaineers of his era But that was only one side to him Mallory was also a risk taker who according to his friend and first biographer David Pye could never get behind the wheel of a car without trying to overtake the vehicle in front a climber who pushed himself and those around him to the limits a chaotic technophobe who was forever losing or mishandling equipment a man who led his porters to their deaths in 1922 as well as his young climbing partner Andrew Irvine only two years later So who was the real Mallory What were the forces that made him and ultimately destroyed him Why did the man who in 1922 denounced oxygen sets as damnable heresy himself perish on an oxygen powered summit attempt two years later And perhaps most importantly what made him return to Everest for his third and final attempt Using diaries letters memoirs and thousands of contemporary documents Fallen is a gripping forensic investigation of Mallory's last expedition that at long last separates the man from the myth **Norton of Everest** Hugh Norton, 2017-05-11 Major Norton gave the order to fire two or three times Their advanced machine gunners could be seen rushing forward and establishing themselves in commanding posts Almost at once the ridge we were occupying was swept by machine gun fire E F Norton lived a life of distinction in the declining years of the British Empire Born into an accomplished well travelled family he followed his heart and enlisted for a professional career as a soldier A distinguished military career followed punctuated with indulgences in his passion for exploration and mountaineering The British Empire was starting to crumble and Norton would be called upon more than once to rise to a variety of challenges Norton's gift for leadership was first demonstrated via his rapid progression through the ranks in the First World War which

paved the way for future leadership appointments having earned the confidence and respect of those under his command Events in the Second World War followed suit when Norton was abruptly assigned the post of acting governor of Hong Kong entrusted to save the civilian population from imminent Japanese invasion The 1924 Everest expedition also exemplifies the pattern of having had leadership thrust upon him in this case when General Charles Bruce was struck down by malaria on the approach march Leading from the front Norton set an altitude record for climbing on Everest without supplementary oxygen a record only bettered in 1978 when Reinhold Messner and Peter Habeler made the first ascent of Everest without oxygen Yet tragedy would follow Norton s achievement when George Mallory and Andrew Irvine disappeared high on the mountain In Norton of Everest Hugh Norton has written sensitively and knowledgably about his father s remarkable life as mountaineer soldier naturalist artist and family man As on Everest the real story is not only the death of the gallant but also the heroics of the quiet survivors like E F Norton

Ice Klaus Dodds,2018-06-15 In Ice Klaus Dodds provides a wide ranging exploration of the cultural natural and geopolitical history of this most slippery of subjects Beyond Earth ice has been found on other planets moons and meteors and scientists even think that ice rich asteroids played a pivotal role in bringing water to our blue home But our outlook need not be cosmic to see ice s importance Here today and gone tomorrow in many parts of the temperate world ice is a perennial feature of polar and mountainous regions where it has long shaped human culture But as climates change ice caps and glaciers melt and waters rise more than ever this frozen force touches at the core of who we are As Dodds reveals ice has played a prominent role in shaping both the earth s living communities and its geology Throughout history humans have had fun with it battled over it struggled with it and made money from it and every time we open our refrigerator doors we re reminded how ice has transformed our relationship with food Our connection to ice has been captured in art literature movies and television as well as made manifest in sport and leisure In our landscapes and seascapes too we find myriad reminders of ice s chilly power clues as to how our lakes mountains and coastlines have been indelibly shaped by the advance and retreat of ice and snow Beautifully illustrated throughout Ice is an informative thought provoking guide to a substance both cold and compelling

Why We Run Robin Harvie,2011-04-14 Everyone can run It is the simplest of sports requiring only a pair of trainers and the open road Its simplicity is part of its beauty But why do we do it Obsessive amateur runner Robin Harvie wants to understand what makes him run mile after mile venturing far from home into remote places and into the solitude of his own mind pushing himself to

the limit and beyond Is it to break out of the clutter of his everyday life into a freedom in which he has only himself to rely upon Is it to affirm his own will conquering his fatigue Is it a fundamental instinct inseparable from what it is to be human In examining the lure of long distance running Robin speaks to famous runners explores the literature of running and recounts his own experiences His feats of running culminate in an effort to run the Spartathlon retracing the 150 mile journey from Athens to Sparta made by Philippides in 490BC Part memoir part meditation Why We Run is a compelling rich and haunting account of what it is that makes us take to the road and learn what we are made of Forever on the Mountain James M.
