Self-Advocacy Cheryl Gerson Tuttle, JoAnn Augeri Silva, 2007-06-22 Young people come to realize sometimes painfully

early that it isn't always possible to depend on adults to make sure they are treated safely, fairly, and legally. When teens are faced with situations that are unfair, immoral, illegal, and unjust, they do not need to be victims. They can learn to speak up for themselves effectively to improve their own lives and the lives of others. The skill of self-advocacy rarely comes naturally for teens. Self-Advocacy: The Ultimate Teen Guide offers a set of skills for young people to sort through and acquire and encourages them to speak up about what is bothering them. The book gives them helpful tools they can adapt to deal with adults they must work with and in some cases against in order to come to a solution to their problem. Self-Advocacy provides information teens need to have to advocate for themselves. The introduction and first three chapters explain what self-advocacy is, identify when and why it might be necessary for teens to speak up for themselves, provide a step-by-step guide on how to self-advocate successfully, and offer specific real-world advice about how to wisely use the power of the media to publicize their cause. Seven issue-specific chapters follow. Each topic is treated in a dignified, organized, and comprehensive way, providing information teens can use and resources they can draw upon. The issues and information in those chapters deal with the real world and don't shy away from the difficulties young people encounter every day, such as personal rights, school issues, learning disabilities, physical disability, sexuality, legal issues, and foster care. Each chapter includes the voices and experiences of teens who have encountered issues and decided to speak up for and get what they need. Teens who learn how to advocate for themselves and then act are not only taking steps to right whatever wrong they have been facing; they are also preparing themselves for a successful adult life.

Critical Examinations of School Violence and Disturbance in K-12

Education Crews, Gordon A., 2016-02-02 In recent years, a rise in incidents of juvenile delinquency and violence in American schools has led to increasing concern among school administrators, students, parents, and the general public. The frequency of these cases calls into question issues of safety, risk factors, and prevention strategies within the modern school system. **Critical Examinations of School Violence and Disturbance in K-12 Education** is an authoritative reference source for the latest research on youth violence in schools, offering a thorough analysis of contributing factors to such incidents and possible solutions to prevent future occurrences. Highlighting relevant issues on zero-tolerance policies, historical perspectives, and preventive actions, this book is ideally designed for school administrators, law enforcement, teachers, and researchers actively working in educational environments.

Victimization in Schools Gary D. Gottfredson, Denise C. Gottfredson, 2012-12-06

The perception that our nation's public schools are disorderly and unsafe is widespread, and the image of the public school is deteriorating. Since 1974, the Gallup organization has gathered opinions about the public schools. The percentage giving the schools an A rating declined from 18% to 6% between 1974 and 1983. Gallup 1974-1984. In a recent survey of American teenagers, only 9% gave the schools an A rating. Bahner 1980, p. 106. Lack of discipline tops the list of the problems adults see facing schools, and class disturbances and theft are reported by teenagers to be very big or fairly big problems in their

schools Bahner 1980 p 107 These public perceptions are fostered by and reflected in national media attention City Schools in Crisis 1977 Help Teacher Can t Teach 1980 High Schools under Fire 1977 Public concern is also reflected in Congressional hearings where testimony creates the image of grave disorder within our schools U s Senate Committee on the Judiciary 1975 1976b U s House of Representatives Subcommittee on Elementary Secondary and Vocational Education 1980 The public has given the schools low marks and the Senate Judiciary Committee 1975 gave the schools an A in violence and vandalism In short parents students and public officials are alarmed at what they see as a rising tide of violence and disorder in the schools and are concerned about how much learning can occur in a disruptive environment and about the safety of teachers and students
