Schwartz, brian d foy, Tom Phoenix, 2016-10-06 If you re just getting started with Perl this is the book you want whether you re a programmer system administrator or web hacker Nicknamed the Llama by two generations of users this bestseller closely follows the popular introductory Perl course taught by the authors since 1991 This seventh edition covers recent changes to the language up to version 5.24 Perl is suitable for almost any task on almost any platform from short fixes to complete web applications Learning Perl teaches you the basics and shows you how to write programs up to 128 lines long roughly the size of 90% of the Perl programs in use today Each chapter includes exercises to help you practice what you ve just learned Other books may teach you to program in Perl but this book will turn you into a Perl programmer Topics include Perl data and variable types Subroutines File operations Regular expressions String manipulation including Unicode Lists and sorting Process management Smart matching Use of third party modules

**Machine Learning and Data Science in the Oil and Gas Industry** Patrick Bangert, 2021-03-04 Machine Learning and Data Science in the Oil and Gas Industry explains how machine learning can be specifically tailored to oil and gas use cases Petroleum engineers will learn when to use machine learning how it is already used in oil and gas operations and how to manage the data stream moving forward Practical in its approach the book explains all aspects of a data science or machine learning project including the managerial parts of it that are so often the cause for failure Several real life case studies round

out the book with topics such as predictive maintenance soft sensing and forecasting Viewed as a guide book this manual will lead a practitioner through the journey of a data science project in the oil and gas industry circumventing the pitfalls and articulating the business value Chart an overview of the techniques and tools of machine learning including all the non technological aspects necessary to be successful Gain practical understanding of machine learning used in oil and gas operations through contributed case studies Learn change management skills that will help gain confidence in pursuing the technology Understand the workflow of a full scale project and where machine learning benefits and where it does not

**Mobility and Localisation in Language Learning** Jane Fenoulhet,Cristina Ros i Solé,2010 Learning a foreign language facilitates the most intimate access one can get to the culture and society of another language community The process of learning a foreign language always involves intercultural levels of engagement between the languages and cultures concerned This series is not limited to the field of applied linguistics but also includes relevant research from linguistic anthropology language learning pedagogy translation studies and language philosophy *Learning to levitate* Jude Seaward,2025-07-13 Consider a pitchfork and a paddling pool they appear to be ordinary items yet on a particular day they were the source of significant distress Although no violent event occurred nor was there a need for medical attention I was left with a profound sense of inadequacy and persistent self doubt This feeling persisted into adulthood manifesting as anxiety and heightened emotional sensitivity It was only when my children grew older that I realized this trauma had been inadvertently passed down to them This realization was heart wrenching The book aims to guide readers in re evaluating their perspectives behaviours and emotions Generational trauma and conditioning have been passed down to us often normalising behaviours that are not inherently healthy Our reactions can originate from our wounded inner child leading us to believe they are acceptable when triggered Numerous situations may escalate because we fail to manage these triggers allowing our subconscious mind to take control Our subconscious brain continuously influences us with early traumas operating unnoticed It is only by uncovering our hidden wounds that we can begin to alter our perceptions and behaviours Consider a situation where you were convinced someone acted with a specific intent prompting a reaction only to later discover you were mistaken This reaction was driven by your subconscious mind While change can be challenging and requires deep introspection adopting accessible strategies can empower you to understand yourself and your wounds whether they stem from personal experiences or generational inheritance I m not here to fix you but to empower you to be your own therapist and delve into your own subconscious brain to heal the trauma you didn t realise you had and to reduce the triggers Let me walk with you this journey of self healing **Handbook of Social Justice in Education** William Ayers,Therese M. Quinn,David Stovall,2009-06-02 The Handbook of Social Justice in Education a comprehensive and up to date review of the field addresses from multiple perspectives education theory research and practice in historical and ideological context with an emphasis on social movements for justice Each of the nine sections explores a primary theme of

social justice and education Historical and Theoretical Perspectives International Perspectives on Social Justice in Education Race and Ethnicity Language and Identity Seeking Social Justice in Education Gender Sexuality and Social Justice in Education Bodies Disability and the Fight for Social Justice in Education Youth and Social Justice in Education Globalization Local and World Issues in Education The Politics of Social Justice Meets Practice Teacher Education and School Change Classrooms Pedagogy and Practicing Justice Timely and essential this is a must have volume for researchers professionals and students across the fields of educational foundations multicultural diversity education educational policy and curriculum and instruction

**Understanding Pedagogic Documentation in Early Childhood Education** Joao Formosinho, Jan Peeters, 2019-04-30 Much more than simply recording events pedagogical documentation is a revolutionary educational approach that enables practitioners to capture and understand the ways in which children learn and think Exploring the use of pedagogic documentation across five different cultures this book offers a unique insight into the conditions and methods through which pedagogical documentation might become an effective means of connecting teaching and learning By drawing on theory research based evidence and practice Understanding Pedagogic Documentation in Early Childhood Education reveals pedagogic documentation as an instigator for critical reflection on practice for the creation of new pedagogical approaches and improvements in quality Observing and documenting the lived educational experience of children and practitioners is emphasised as a means of acknowledging their voice and rights of revealing their knowledge their competences their attitudes and dispositions to learning Offering contextualised approaches and considering the challenges involved in observing and documenting day to day practice in early childhood settings chapters encourage professionals to reflect and recognise the value of documentation for children staff members and the wider community Making a crucial contribution to the debates on pedagogical documentation Understanding Pedagogic Documentation in Early Childhood Education offers researchers students policy makers and professionals a comprehensive and multicultural perspective on pedagogical documentation

Danger Close Steve Call, 2010-01-15 America had a secret weapon writes Steve Call of the period immediately following September 11 2001 as planners contemplated the invasion of Afghanistan This weapon consisted of small teams of Special Forces operatives trained in close air support CAS who in cooperation with the loose federation of Afghan rebels opposed to the Taliban regime soon began achieving impressive and unexpected military victories over Taliban forces and the al Qaeda terrorists they had sponsored The astounding success of CAS tactics coupled with ground operations in Afghanistan soon drew the attention of military decision makers and would eventually factor into the planning for another campaign Operation Iraqi Freedom But who exactly are these air power experts and what is the function of the TACPs Tactical Air Control Parties in which they operate Danger Close provides a fascinating look at a dedicated courageous innovative and often misunderstood and misused group of military professionals Drawing on the gripping first hand accounts of their battlefield experiences Steve Call allows the TACPs to speak for themselves He

accompanies their narratives with informed analysis of the development of CAS strategy including potentially controversial aspects of the interservice rivalries between the air force and the army which have at times complicated and even obstructed the optimal employment of TACP assets Danger Close makes clear however that the systematic coordination of air power and ground forces played an invaluable supporting role in the initial military victories in both Afghanistan and Iraq This first ever examination of the intense life and death world of the close air support specialist will introduce readers to a crucial but little known aspect of contemporary warfare and add a needed chapter in American military history studies     What Can I Get Out of This? Carlo Rotella,2025 What actually happens in a college literature course and what does it have to do with the world beyond the classroom Telling the story of one eventful semester this rich group portrait shows how 33 freshmen and their professor practice essential life skills as they wrestle with challenging books consider the purposes of higher education and confront their own skepticism This humane account of the humanities in action takes us deep into the minds of people engaged in the business of figuring out how meaning flows through books lives the world part of the essential work of being human that we all do at all times and in all kinds of places not just in a college classroom     **AI and Machine Learning for On-Device Development** Laurence Moroney,2021-08-12 AI is nothing without somewhere to run it Now that mobile devices have become the primary computing device for most people it s essential that mobile developers add AI to their toolbox This insightful book is your guide to creating and running models on popular mobile platforms such as iOS and Android Laurence Moroney lead AI advocate at Google offers an introduction to machine learning techniques and tools then walks you through writing Android and iOS apps powered by common ML models like computer vision and text recognition using tools such as ML Kit TensorFlow Lite and Core ML If you re a mobile developer this book will help you take advantage of the ML revolution today Explore the options for implementing ML and AI on mobile devices Create ML models for iOS and Android Write ML Kit and TensorFlow Lite apps for iOS and Android and Core ML Create ML apps for iOS Choose the best techniques and tools for your use case such as cloud based versus on device inference and high level versus low level APIs Learn privacy and ethics best practices for ML on devices     **Metal Detecting - Learning How the Easy Way!** Ronald J. Kamrowski,2011-02 Ron Kamrowski has written this book to share the experiences of using a metal detector Most writings of this nature deal with the workings of a metal detector this work contains actual events to explain that there are literally millions of places to search Untouched areas abound in the United States where history although only dating a few centuries can be discovered in your own backyard     Learning Through Play Nancy Jo Hereford,Jane Schall,1991     **Advances in Neural Information Processing Systems 13** Todd K. Leen,Thomas G. Dietterich,Volker Tresp,2001 The proceedings of the 2000 Neural Information Processing Systems NIPS Conference The annual conference on Neural Information Processing Systems NIPS is the flagship conference on neural computation The conference is interdisciplinary with contributions in algorithms learning theory cognitive science neuroscience vision speech and signal processing reinforcement learning and

control implementations and diverse applications Only about 30 percent of the papers submitted are accepted for presentation at NIPS so the quality is exceptionally high These proceedings contain all of the papers that were presented at the 2000 conference

Communicating with Learners in the Lifelong Learning Sector Keith Appleyard, Nancy Appleyard, 2010-04-29 Communication is a key theme of the QTLS Standards This accessible book helps readers to understand the theories and principles that underpin effective communication and apply this theory to improve their communication with learners colleagues and others in professional life It examines the environment of educational settings and looks at how individuals themselves communicate with the sector It gives detailed advice on communication skills and promoting a supporting learning environment It goes on to include notes on communicating for specific teaching situations inclusion and working with colleagues Finally it covers resources for communication and their adaptation for different situations

**Learning Science in the Schools** Shawn M. Glynn, Reinders Duit, 2012-10-12 Science and the technology derived from it is having a dramatic impact on the quality of our personal lives and the environment around us Science will have an even greater impact on the lives of our students The lives of scientifically literate students will be enriched by their understanding appreciation and enjoyment of the natural world To prosper in the near future all students must become scientifically literate and embrace the notion of life long learning in science Without scientific literacy it will become impossible for students to make informed decisions about the interrelated educational scientific and social issues that will confront them in the future Intended for science teachers teacher educators researchers and administrators this volume is concerned with the innovative research that is reforming how science is learned in schools The chapters provide overviews of current research and illustrate how the findings of this research are being applied in schools This research based knowledge is essential for effective science instruction The contributors are leading authorities in science education and their chapters draw clear connections among research theory and classroom practice They provide excellent examples from science classes in which their research has reformed practice This book will help educators develop the scientific literacy of students It bridges the gap between cutting edge research and classroom practice to provide educators with the knowledge they need to foster students scientific literacy

*Learning How to Fly* Britt Lind, 2020-05-29 From the time she was three years old living in Norway Britt loved animals and surrounded herself with them When she moved with her family to America she discovered she also loved performing But she had parents who considered all of that a sin Even cheerleading was a big no no but somehow Britt managed to overcome their objections After Clint Eastwood cast her in Play Misty for Me while living in Carmel she moved to L A and quickly was able to obtain work Featured roles led to co starring roles which led to guest starring roles She married a producer had a beautiful baby girl and was working as an actress She had it all Then tragedy struck and she lost everything Acting work became hard to find and life became a matter of survival After a daring move to New York she found herself singing in Carnegie Hall with a gospel group and working in a musical But still she felt she had

not lived up to her expectations and she became overwhelmed with hopelessness But a God given epiphany set her back on track and she realized she had a very good reason to go on

**District Leadership for Racial Equity** Larkin Willis, Desiree Carver-Thomas, Linda Darling-Hammond, 2025-07-30 District Leadership for Racial Equity shows how transformative changes can occur across diverse districts when leaders take purposeful action in support of racial equity Developed as part of the Racial Equity Leadership Network initiative led by Southern Education Foundation this collection provides an opportunity for leaders to learn from district reform efforts that have reduced disparities and improved outcomes for students of color across unique contexts The cases presented acknowledge the challenges leaders face but they also demonstrate that change is possible when leaders build will and capacity to support successful student outcomes It examines the cases of racial equity leaders across four districts who have developed approaches that create new opportunities and outcomes for students who have been historically marginalized District Leadership for Racial Equity is an essential resource for emerging leaders leader practitioners and policymakers who are committed to reducing disparities and improving outcomes for all students especially those who are marginalized and underserved in our schools and society Additional resources for download are found online here <https://www.routledge.com/9781032938882> The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**Learning to Live Again** Danielle Bell, 2022-01-12 When you experience the sudden death of a loved one and never saying goodbye it is a tragedy beyond belief I knew at 6:08 a.m. that something very bad had happened I could feel my heart stop along with the clocks as my universe crumbled After the death of my husband I thought my world had come to an end At first I could not imagine living life without my partner and father to our children I was faced with the daunting concept that I was now a widow on my own and no one to love me I remembered thinking how do I face getting up every morning But the sun still rises and sets It doesn't stop for your personal tragedy The reality that my life had completely changed that I am suddenly no longer Danielle Bell the wife of Eric Bell was overwhelming This inspired me to start to journaling I knew I had to fill the void with mental physical and emotional activities to keep my sanity I had the choice to reinvent myself or succumb to grief and depression I chose to learn to live again on my own
