Daniel R. Gilbert,2008 This book is about the competitive relationship involving the men who represented Moravian College Bethlehem Pennsylvania and the men who represented Muhlenberg College Allentown Pennsylvania in intercollegiate varsity football competition between 1958 and 2006 Introduction **Justice and American Intercollegiate Athletics** Daniel R.

Gilbert Jr.,2025-09-03 This is a book about athletic competitors belonging to something larger than their accustomed and immediate pursuits The centerpiece of this book is an accomplishment of justice in the routine conduct of American intercollegiate athletics This accomplishment was a resilient assembly of intercollegiate athletic competitors who sustained bilateral playing relationships and concurrently ventured into playing relationships outside their circle This was a just arrangement because participants tolerated one another s separate pursuits while affirming that they belonged to enduring playing relationships They affirmed such belonging through their bilateral scheduling practices Evidence of this justice accomplishment is abundant in hundreds of schedules This book contains two historical narratives about connected competitors departing one another s company to travel distinctive pathways In both narratives athletic competitors reestablished playing relationships from which they had departed Through their acts of connection departure and reconnection these competitors joined to create enduring patterns of centered belonging And they did this as athletic competitors whose interests were directly opposed **Stagg's University** Robin Lester,1999 For this first case study of

college football by a social historian Lester has brought life to the story of a university football program that had an unusual beginning a glorious middle and a unique and inglorious conclusion The nation s first tenured coach and the most creative and entrepreneurial of all college coaches from the 1890s to the 1920s Amos Alonzo Stagg headed a program marked by creation of the lettermans club and by the dominant use of the forward pass of jersey numbers and of the collegiate modern T formation Stagg who had been an all American football player at Yale University joined the company of nine former college or seminary presidents and academic notables including John Dewey Thorstein Veblen and Albert Michelson when he was named associate professor of physical culture and coach of the football team at the University of Chicago in 1892 Within fifteen years the charismatic Stagg had developed a program so powerful that more Americans knew of it than of the physics experiments of Michelson who in 1907 became the first U S citizen to win the Nobel Prize The logical commercial trail established by Stagg and University President William Rainey Harper helped change football into a mass entertainment industry on American campuses This fascinating look at the birth of bigtime college sport shows how today s gridiron glory and scandal were prefigured in Chicago s football industry of the early twentieth century presided over by the brilliant combative saintly but very human Amos Alonzo Stagg **A Who's who of Sports Champions** Ralph Hickok,1995 A

Southall,Mark S. Nagel,Ellen J. Staurowsky,Richard T. Karcher,Joel G. Maxcy,2023-05-04 A well constructed and reasoned debunking of the mythology of amateurism in for profit NCAA athletics For the last 60 plus years as the revenue generating capacity of Power Five football and men s basketball has dramatically increased NCAA Division I Power Five football and men s basketball players college profit athletes have been economically exploited their labor has been severely

restricted To mask this inequity the NCAA and its members created disseminated and embedded a fictitious collegiate model of athletics established and repeatedly modified for the benefit of member schools designed to ensure profit athletes were denied employment status and just compensation for their athletic labor The NCAA and the Exploitation of College Profit Athletes An Amateurism That Never Was provides a comprehensive historical sociological legal financial and managerial argument for the reclassification of profit athletes as employees Such a reclassification would permit profit athletes to gain not only fair financial compensation but also equal access to educational benefits that have been promised but systematically denied The authors trace how Power Five college sports have morphed into a hyper professionalized and commercialized sport business enterprise They provide evidence that at least since 1956 the NCAA s amateurism has been a collusive exploitative and racialized pay for play scheme that disproportionately affects Black profit athletes The authors cut through the institutional doublespeak of approved benefits cost of attendance stipends or name image likeness NIL collectives to lay bare the immorality of Power Five college sports The NCAA and the Exploitation of College Profit Athletes makes the case that profit athletes and their representatives must have the right to unionize and freely negotiate a collective bargaining agreement with management e g NCAA Power Five conferences and athletic departments In addition this book offers a forward thinking structure in which individual labor contracts or a potential collective bargaining agreement address profit athlete compensation and working conditions
