The Government and Politics of the European Union Neill Nugent,2003 **Government Publications** Bernard M. Fry,Peter Hernon,2013-10-02 Government Publications Key Papers is a compilation of papers that covers various topics related to government publications The book presents materials drawn from a variety of sources such as public domains book chapters and periodicals from different countries The text contains 61 chapters organized into 15 parts each part covers a specific area such as sorting and labeling of publications library systems reference services and municipal and state publications The book dedicates several parts to British Canadian and Australian publications This book will be of great value to individuals who have an interest in government information **The EU's Government of Worker Mobility** Hélène Michel,Mélanie Schmitt,2022-12-16 This book brings together the expertise of economists legal scholars political scientists and sociologists in order to integrate diverse perspectives and a broad range of analytical tools in the conceptualisation of labour mobility It examines how variably the question of labour mobility has translated into the policies laws and norms through which the EU as a whole is governed The contributions focus on the actors European and national officials experts trade union and employers organisations and on instruments implemented by institutions and political organisations European Agency coordination systems European Job Mobility Portal EURES to increase and support mobility within the European Union This book will be of key interest to scholars and students of European EU studies migration studies labour studies political sociology and more broadly to comparative politics *Government Information Management in the 21st Century* Peggy Garvin,2016-04-22 Government Information Management in the 21st Century provides librarians information professionals and government information policy leaders with a comprehensive and authoritative state of the art review of current issues in government information management with a global perspective The widespread use of the Internet to provide government information and services has altered the landscape dramatically for those who organize store and provide access to government content Technical challenges include digital preservation authentication security and accessibility for a diverse user base Management challenges include changes to costs workflow staff skills and resources and user expectations Public policies based on distributed paper collections must also change to address issues that are inherent to digital networked public content such issues include the maintenance of personal privacy re use of government information and the digital divide The authors in this timely book are practitioners scholars and government officials Together they provide an informed look at how managing government information is being tested at a time of rapid change Part I addresses key issues for public academic and government libraries in organizing and providing access to government information Part II features chapters on the diverse information issues facing governments such as managing Freedom of Information requirements opening government data to the public and deploying new online technologies The Oxford Handbook of Business and Government David Coen,Wyn Grant,Graham Wilson,2010-02-25 Business is one of the major

power centres in modern society The state seeks to check and channel that power so as to serve broader public policy objectives However if the way in which business is governed is ineffective or over burdensome it may become more difficult to achieve desired goals such as economic growth or higher levels of employment In a period of international economic crisis the study of how business and government relate to each other in different countries is of more central importance than ever These relationships have been studied from a number of different disciplinary perspectives business studies economics economic history law and political science and all of these are represented in this handbook The first part of the book provides an introduction to the ways in which five different disciplines have approached the study of business and government The second section on the firm and the state looks at how these entities interact in different settings emphasising such phenomena as the global firm and varieties of capitalism The third section examines how business interacts with government in different parts of the world including the United States the EU China Japan and South America The fourth section reviews changing patterns of market governance through a unifying theme of the role of regulation Business government relations can play out in divergent ways in different policy and the fifth section examines the contrasts between different key arenas such as competition policy trade policy training policy and environmental policy The volume provides an authoritative overview with chapters by leading authorities on the current state of knowledge of business government relations but also points to ways in which this work might be developed in the future e g through a political theory of the firm   Transformational Government Through EGov Practice Mahmud Akhter Shareef,Norm Archer,Yogesh K. Dwivedi,2012-03-23 The future of government as we know it is being shaped by the quickly advancing progression of information and communication technology ICT eGovernment systems eGov presents major challenges and advantages for policy makers and the public alike   **Governing Europe** William Walters,Jens Henrik Haahr,2004-08-02 Governing Europe is the first book to systematically link Michel Foucault s hypotheses on power and governmentality with the study of European integration Through a series of empirical encounters that spans the fifty year history of European integration it explores both the diverse political dreams that have framed means and ends of integration and the political technologies that have made Europe a calculable administrable domain The book illustrates how a genealogy of European integration differs from conventional approaches By suspending the assumption that we already know what where Europe is it opens a space for analysis where we can ask how did Europe come to be governed as this and not that The themes covered by this book include the different constructions of Europe within discourses of modernization democratization insecurity and governance the imprint of modernism liberalism ordoliberalism neoliberalism and crime on the identity of the European Community European Union the historical relationship between European government and specific technologies of power technologies as diverse as planning price control transparency and benchmarking   **Cost-Benefit Analysis of Multi-Level Government** Alessandro Ferrara,2010-04-05 This book provides an original framework to assess public investment policies co financed by

Union Federal governments This framework is applied to two important case studies the EU Cohesion Policy and the US Federal Investment Policies Cost Benefit Analysis of Multi Level Government sheds light on a number of outstanding issues of economic theory by extending the theory of shadow prices and provides guidance to real world decision makers In particular the following questions are addressed Under which theoretical circumstances higher level government intervention in Member States through investment policies is justified Is there any new welfare economics rationale underpinning interregional equity What is the relationship between interregional and interpersonal income distribution How can social exclusion be included in cost benefit tests How can higher level government budget funds to investment policies before it bargains programming documents with lower tiers of government by considering also their response function In these circumstances how can optimal matching rates be derived assuming binding and non binding budgetary constraints Can such a theoretical framework be applied for guidance to real world decision makers The book will be of interest to policy makers postgraduate students and researchers in cost benefit analysis welfare economics public choice public finance multi level government economics and income distribution issues **Technology Development and Platform Enhancements for Successful Global E-Government Design** Bwalya, Kelvin Joseph,2013-12-31 While electronic research has developed in many governments around the world the majority of its research has focused on the supply and demand aspects of e government instead of the focus on technology integration for successful e government design Technology Development and Platform Enhancements for Successful Global E Government Design compiles the shared experiences of e government designers and practitioners with a focus on technological design By highlighting the different technological nuances that need to be incorporated into successful e government designs this book is a useful tool for professionals and researchers concerned with the organizational development in different types of e government communities and environments *E-Government Implementation and Practice in Developing Countries* Mahmood, Zaigham,2013-05-31 This book provides research on the current actions being taken by developing countries toward the design development and implementation of e government policies Provided by publisher **Governing Agricultural Sustainability** Phil Macnaghten,Susana Carro-Ripalda,2015-06-26 Although GM crops are seen by their advocates as a key component of the future of world agriculture and as part of the solution for world poverty and hunger their uptake has not been smooth nor universal they have been marred by controversy and all too commonly their regulation has been challenged as inadequate even biased This book aims to understand these dynamics examining the impacts of GM crops in diverse contexts and their potentials to contribute to sustainable agricultural futures Part 1 draws on research from three global rising powers Brazil India and Mexico exploring the views of scientists farmers and publics Using a diverse array of ethnographic and qualitative methodologies the book examines the dynamics that have underpinned the controversy in three diverse geo political contexts the manner in which dominant institutional framings have been closely aligned with the interests of powerful elites and the multiple ways in which these have been

resisted through local symbolic and material practices Part 2 comprises a series of short comment pieces from 11 leading social and natural scientists responding to the question of how to develop a policy framework for the responsible innovation of sustainable culturally appropriate and socially just agricultural GM technologies This innovative book offers new insights for researchers and postgraduates in Science and technology studies Agro ecology and Environmental Studies Development studies Anthropology Human Geography Sociology Political Science Public Administration Latin American studies and Asian studies **Government Document Bibliography in the United States and Elsewhere** James Bennett Childs,1942

Government at a Glance 2011 OECD,2011-06-24 This second edition of Government at a Glance almost doubles the number of available indicators and also offers two special chapters one on leveraged governance and one the policy implications of fiscal consolidation Economic Government of the EU C. Meyer,I. Linsenmann,W. Wessels,2007-01-05 The creation of Monetary Union marked a major step in the evolution of the European Union Is the EU now taking the next step of deeper integration towards a fully fledged economic government The book seeks to answer this question by studying the evolution execution and performance of new modes of economic policy co ordination as potential stepping stones towards more institutionalized forms of economic governance **Governing Europe's spaces** Caitriona Carter,Martin Lawn,2015-07-20 What do we imagine when we imagine Europe and the European Union To what extent is our understanding of the EU of its development its policies and its working processes shaped by unacknowledged assumptions about what Europe really is The book constructs a case for re imagining Europe not as an entity in Brussels or a series of fixed relations but as a simultaneously real and imagined space of action which exists to the extent that Europeans and others act in and on it This Europe is constantly being made in particular spaces through specific actor struggles whose interconnections are often ill defined We ask how do those concerned with building Europe with extending and elaborating the EU think of where they are and what they are doing The book captures Europeans in the process of making Europe of performing interpreting modelling referencing consulting measuring and de politicising Europe *(In)visible European Government* Maarten Hillebrandt,Päivi Leino-Sandberg,Ida Koivisto,2023-12-22 This book questions the theoretical premises and practical applications of transparency showing both the promises and perils of transparency in a methodologically innovative way and in a cross section of policy instruments It scrutinizes transparency from three perspectives methodologically theoretically and empirically both in the specific context of the EU but also in the wider context of modern society in which transparency is embraced as an almost unquestionable virtue This book examines the ways in which transparency practices can make institutions visible and stands out for its methodological self reflection to fully understand the irresistible call for transparency in our governing institutions we must reflect on our own relationship with it This book will be of key interest to scholars and students of transparency studies democratic legitimacy global governance governance law EU studies and law and public policy more widely **Regional Institutions and Governance in the European Union**

José Magone,2003-08-30 European integration has profoundly changed the relationship between national and subnational governments and has led to the emergence of the Europe of the Regions This edited volume highlights some of the problems involved in the integration of the three main levels of governance in the European Union the regional national and supranational level The contributors address recent developments in various regions and examine the way these regions have adjusted to the growing importance of the European Union s multilevel governance system Among the issues discussed are the emergence and institutionalization of new regional political systems such as those of Scotland Wales and Flanders the channels available to the regions for influencing the EU policy process in relation to their constituencies and horizontal projects of integration among regions which make the whole multilevel governance system more flexible as well as more complex *Interoperability in Digital Public Services and Administration: Bridging E-Government and E-Business* Charalabidis, Yannis,2010-07-31 During the last decade interoperability has emerged as a vivid research area in electronic business and electronic governance promising a significant increase in productivity and efficiency of information systems enterprises and administrations Interoperability in Digital Public Services and Administration Bridging E Government and E Business provides the latest research findings such as theoretical foundations principles methodologies architectures technical frameworks international policy standardization and case studies for the achievement of interoperability within the provision of digital services from administration and businesses toward the user citizens and enterprises **Local Government in Ireland** Mark Callanan,Justin F. Keogan,2003 <u>Third International Handbook of Lifelong Learning</u> Karen Evans,Wing On Lee,Jörg Markowitsch,Miriam Zukas,2023-03-21 The Third edition of this well received and widely used Handbook brings together an entirely new set of chapters to reflect progress and new themes in the ten years to 2022 Building on the established structure of the first two Handbooks the four sections focus in turn on philosophy history and theory development fresh perspectives on policy and policy development emerging programs and new approaches and re imagining lifelong learning for future challenges The Handbook stimulates readers with fresh and timely insights while exploring anew some enduring themes New topics and themes introduced in all sections address lifelong learning challenges associated with climate change the digital world the rise of populism migration and precarious living The Handbook features learning innovations and evolving pedagogies such as intergenerational learning art as pedagogy to promote public mindedness neuroscience enhancing learning effectiveness and lifelong learning for sustainability Policy responses to lifelong learning for work and well being are debated In state of the art contributions authors from around the globe focus readers attention on multifaceted processes issues and decisions that must be better understood and enacted if inclusive development and fair access to lifelong learning are to become realities for us all
