Passing Of Modernity Communication And The Transformation Of Society Communications:

The Passing of Modernity Hamid Mowlana, Laurie J. Wilson, 1990 An examination of contemporary communication theory and social transformation This text includes the main perspectives in development theories as well as many of the themes of modernization and social change that have preoccupied major writers since the end of World War I *Communication & the Transformation of Society* Peter Nwosu, Chuka Onwumechili, Ritchard M'Bayo, 1995 Twenty Africanist scholars and practitioners have written twenty three original chapters specifically for this text The subject matter covers a wide array of issues ranging from philosophical conceptual and methodological discussions to audience media patterns as well as new directions for communication and national development The engaging and provocative essays in this volume utilize case studies of selected African countries to survey audience media use patterns in these developing countries Communication and the Transformation of Society serves as a standard text for international communication communication and national development and other related courses that deal with communication and change on the undergraduate and graduate levels

The Handbook of Global Interventions in Communication Theory Yoshitaka Miike, Jing Yin, 2022-03-10 Moving beyond the U S Eurocentric paradigm of communication theory this handbook broadens the intellectual horizons of the discipline by highlighting underrepresented especially non Western theorists and theories and identifies key issues and challenges for future scholarship Showcasing diverse perspectives the handbook facilitates active engagement in different cultural traditions and theoretical orientations that are global in scope but local in effect It begins by exploring past efforts to diversify the field continuing on to examine theoretical concepts models and principles rooted in local cumulative wisdom It does not limit itself to the mass interpersonal communication divide but rather seeks to frame theory as global and inclusive in scope The book is intended for communication researchers and advanced students with relevance to scholars with an interest in theory within information science library science social and cross cultural psychology multicultural education social justice and social ethics international relations development studies and political science **United Nations**

Educational, Scientific, and Cultural Organization (UNESCO) J.P. Singh, 2010-12-01 This book traces the history of UNESCO from its foundational idealism to its current stature as the preeminent international organization for science education and culture building a well rounded understanding of this important organization The book provides an overview of the organization and its institutional architecture in the context of its humanistic idealism details the subsequent challenges UNESCO faced through cold war and power politics global dependence and interdependence and the rise of identity and culture in global politics analyses the functioning of UNESCO administration finance and its various constituencies including the secretariat member states and civil society explores the major controversies and issues underlying the initiatives in education sciences culture and communication examines the current agenda and future challenges through three major issues in UNESCO Education or All digital divide issues and norms on cultural diversity assesses the role of UNESCO in

making norms in complex world of multiple actors and intersecting issue areas Reflecting on UNESCO's vision its everyday practices and future challenges this work is an essential resource for students and scholars of international relations and international organizations **Journalism, Development, and the Reworking of Modernity** Ilia Rodríguez,1999

Global Communication in Transition Hamid Mowlana,1996-02-05 Hamid Mowlana for decades has been one of the foremost trackers and analyzers of global communications their volume character and impact No one is more qualified to explain these increasingly important and central issues to a wide public Herbert S Schiller New York University The rapid changes in the way we communicate across the globe continue to alter the many facets of society Both interdisciplinary and intercultural in its approach *Global Communication in Transition* examines the human dimensions and technological imperatives of international communications Author Hamid Mowlana provides a comprehensive analysis beginning with the rise of modern political systems and the interactions of various cultures through the expansion of social organizations and the growing global infrastructure This unique perspective on global communication is organized around a number of basic concepts such as history power community legitimacy and language By analyzing the political economic and cultural implications of communication today within the broader concepts of such issues as community Mowlana provides a new paradigm for the study of international communication This auspicious text covers the history theories processes and issues of international communication Advanced undergraduates and graduate students in political science and international relations as well as communication will benefit greatly from the insightful scholarship offered in *Global Communication in Transition* Global Information and World Communication Hamid Mowlana,1997-05-05

Global Information and World Communication offers a comprehensive analysis of international communication systems and the global flow of information In a full examination of the information revolution Hamid Mowlana deals with this phenomenon in mass communications telecommunications and new media and in varying contexts political economic cultural technological military legal and professional *Global Information and World Communication* will be essential reading for students and scholars of communication media studies journalism international relations political science sociology and international development

Book Jacket The Global Intercultural Communication Reader Molefi Kete Asante,Yoshitaka Miike,Jing Yin,2013-06-26 The *Global Intercultural Communication Reader* is the first anthology to take a distinctly non Eurocentric approach to the study of culture and communication In this expanded second edition editors Molefi Kete Asante Yoshitaka Miike and Jing Yin bring together thirty two essential readings for students of cross cultural intercultural and international communication This stand out collection aims to broaden and deepen the scope of the field by placing an emphasis on diversity including work from authors across the globe examining the processes and politics of intercultural communication from critical historical and indigenous perspectives The collection covers a wide range of topics the emergence and evolution of the field issues and challenges in cross cultural and intercultural inquiry cultural wisdom and communication practices in context identity and

intercultural competence in a multicultural society the effects of globalization and ethical considerations Many readings first appeared outside the mainstream Western academy and offer diverse theoretical lenses on culture and communication practices in the world community Organized into five themed sections for easy classroom use The Global Intercultural Communication Reader includes a detailed bibliography that will be a crucial resource for today's students of intercultural communication

Theories of Communication Armand Mattelart, Michèle Mattelart, 1998-08-24 This concise introduction to the development of communication theory offers an historical account of the development of all theoretical approaches including the Chicago school constructivism structuralism and ethnomethodology

New Frontiers in International Communication Theory Mehdi Semati, 2004-04-02 New Frontiers in International Communication Theory offers a wide ranging assessment of the present state of the field of international communication and charts new directions for theory and research It brings together renowned and emerging scholars who challenge the field to move beyond the limits of existing formulations approaches and trajectories providing an alternative and a supplement to traditional approaches in analysis and study In rethinking the central problematics of the field exploring established and new tools and models of inquiry and articulating new research agendas this interdisciplinary collection anticipates the future of international communication studies

Chinese Communication Theory and Research Wenshan Jia, Xing Lu, D. Ray Heisey, 2002-06-30 A systematic examination of Chinese communication scholarship and comprehensive critique of its theories and methodologies are long overdue and in this new collection of essays by a multicultural group of scholars both aims are achieved Focusing on such relatively new fields as Chinese health communication and Chinese communication on the internet the volume addresses key questions about the state and the future of its field Both challenging and complementing the Western views of communication it advances theories of cultural and intercultural communication while at the same time broadening our understanding of the relevance of Chinese communication studies to communication studies overall and the ways in which this subdiscipline points the way toward a new and more complicated future The essayists whose origins include the United States Taiwan Hong Kong and China bring their many perspectives to bear on what is the most comprehensive and inclusive review of Chinese communication research literature published in English Of great benefit to Western and Eastern communication theorists philosophers of social science and Asian studies scholars Chinese Communication Theory and Research is an invaluable guide to an increasingly complex and significant field of study

Information Technology in Context Chrisanthi Avgerou, Geoff Walsham, 2017-11-01 This title was first published in 2000 A discussion of information technology IT in developing countries The contributors can be considered to share the following set of broad premises information and communication technologies and related systems have significant potential to aid the economic growth and improvement of social conditions in the developing world however such potential is not released by simply transferring technologies and processes from advanced economies in order to better serve development needs people involved with the

design implementation and management of IT related projects and systems in developing countries must improve their capacity to address the specific contextual characteristics of the organization sector country or region within which their work is located The text thus emphasizes the importance of context in examining the role and value of IT in the developing countries It focuses attention on the fusion of the activities of professionals technical experts managers policy makers and users more broadly all other groups affecting or affected by the technologies and systems with the intention of facilitating locally meaningful and effective change

Global Telecommunications Raymond Akwule,2023-12-22 Global Telecommunications 1992 clarifies the complex politically charged arena of international telecommunications By understanding both the demands created by dynamic Western countries in the grips of deregulation and the needs of developing nations readers acquire an appreciation for the challenges facing global telecommunications users developers and policymakers This book stresses the growing need for sophisticated management of satellite and communication resources The emerging global information society is propelled by technological innovations and these developments are shaping the way the world s population receives information

International Communication and Globalization Ali Mohammadi,1997-09-15 Addressing the impact on national societies and cultures of the headlong rate of change in communication between nations the contributors offer new approaches to this complex and rapidly growing field The ethics of global communication are discussed

Exporting Communication Technology to Developing Countries Komben Emmanuel Ngwainmbi,1999 Exporting Communication Technology to Developing Countries analyzes the economic cultural educational and political implications of exporting information technology to Africa Emmanuel K Ngwainmbi tackles the numerous complexities related to the development of African telecommunications He not only presents the technological aspects of telecommunications but effectively depicts the cultural implications that must be considered Ngwainmbi investigates and evaluates the history of African telecommunications clearly showing the path that has led to its present state He then assesses the potential for development within the countries of Africa upon the influx of technology from the outside world

Cultures of Vision Ron Burnett,1995-12-22 This is a very strong thought provoking volume George Marcus As home photographs shift from the print format to digital technology and as video moves from the television screen to multimedia it is crucial to develop new strategies of interpreting and analyzing these images Visit the author s World Wide Web site 2 19 03 Link is no longer active <http://www.facl.mcgill.ca/burnett/englishhome.html>

Digital TV Over Broadband Joan Van Tassel,2013-10-08 Digital TV Over Broadband Harvesting Bandwidth offers a clear overview of how technological developments are revolutionizing television It details the recent shift in focus from HDTV to a more broadly defined DTV and to the increasing importance of webcasting for interactive television Digital Television examines the recent industry toward a combination of digital services including the use of the new bandwidth for additional channels of programming as well as some high definition television The book discusses the increasingly rapid convergence of telecommunications television and

computers and the important role of the web in the future of interactive programming This new edition not only covers the new technology but also demonstrates practical uses of the technology in business models Communication Campaigns and National Integration in China's Market Economy Era Yanru Chen,2015-09-01 This book adopts the method of grounded theory in studying national communication campaigns in China referred to as propaganda campaigns in the Chinese linguistic context The study provides an exploratory and descriptive analysis of the ways in which the media in China fulfilled their function of building a Socialist spiritual civilisation and maintaining national integration during state propaganda campaigns Explanations for the success and limitations of the campaigns are clearly expressed and combined with cautious statements on the limited role of the media in the process of national integration The three major communication campaigns detailed in this book offer revelations regarding how to maintain mass morale and revive the national spirit at a time when economic pursuits and aspirations seem to be the top priority for individuals and institutions A chief premise underpinning this study is that economic growth is not to be equated with social progress or human development the latter encompassing a far more profound spiritual dimension which takes far more delicate efforts to accomplish *Challenge for Change* Thomas Waugh,Michael Brendan Baker,Ezra Winton,2010-02-01 Pioneering participatory social change oriented media the program had a national and international impact on documentary film making yet this is the first comprehensive history and analysis of its work The volume s contributors study dozens of films produced by the program their themes aesthetics and politics and evaluate their legacy and the program s place in Canadian Qu b cois and world cinema An informative and nuanced look at a cinematic movement Challenge for Change reemphasizes not just the importance of the NFB and its programs but also the role documentaries can play in improving the world **Beyond National Sovereignty** Kaarle Nordenstreng,Herbert I. Schiller,1993-01-01 This volume is a collection of contemporary commentaries on international communication issues with the concept of national sovereignty as the departure point Offering readers an introduction to current and emerging concerns it provides the basic analytical tools needed to understand the issues involved Problems are examined from the perspectives of journalism social sciences international politics law and emerging technology topics include mass media communication across borders communication satellites and Third World nations and the need to establish a new world information order
